## TERRIBLE LOSS OF LIFE

**Sudden Outburst of the Volcano Klot In Northern Java Consumed Seven Hundred Natives and Destroyed Much Property.**

Tacoma, July 15.—Oriental advisers give details of a terrible destruction of human life which occurred in Northern Java last month by a sudden and terrible outburst of the volcano Klot. For fifty miles around all the coffee plantations and other estates were destroyed by showers of ashes and stones, together with great streams of lava and hot mud. Seven hundred natives and a number of Europeans perished. The lava also consumed the superintendent of the estate and about twenty-five coolies. Many coffee estates

## OUTLOOK NOT BRIGHT

**Returning British Officers Are Not at All Hopeful of the Present Situation In South Africa.**

New York, July 15.—Returning British officers do not speak hopefully of the situation in South Africa, says the Tribune's London correspondent. They assert that the railways are securely held, and that there are small zones around Bloemfontein, Pretoria and Johannesburg where it is possible for inhabitants to settle down and to resume their usual occupations, but apart from the pacification of these small spheres of British influence there are few signs of progress. The railway line from Johannesburg to Laing's Nek is still molested and the section along the South Orange river is riddled by guerrillas, and broad districts of the Transvaal and the Orange River Colony are only kept quiet by being emptied of their population through repeated marches of strong columns.

## DIED IN PHILIPPINES.

**Lieuts. Ramsey and Massey Reported From Manila.**

Manila, July 15.—Lieut. Charles R. Ramsey of the Twenty-first Infantry, who was wounded in the engagement near Lipa, province of Batangas, early last month, is dead. The death is also announced of Solon A. Massey, formerly a lieutenant of artillery, who was recently appointed

## MORPHINE

**Ended Life of Judge Sellar of Indiana.**

**He Was Much Worried Over His Debts.**

Crawfordsville, Ind., July 15.—Judge James M. Sellar, one of the brightest and best known attorneys in Indiana and a prominent figure in political circles, was found in his office Saturday morning in the throes of death. He had taken a large dose of morphine with suicidal intent, and was beyond human aid when found. The end he sought was gained half an hour later.

About midnight Friday night the janitor, sleeping in a room adjoining, heard Judge Sellar enter his office and turn on the light. He looked out and saw the judge at his desk writing. As he left the office at an early hour he noticed that Mr. Sellar's head had fallen forward on the table, and he was snoring loudly. Thinking he was only asleep, he left without disturbing him. The true state of affairs was discovered by W. L. Lee, his office partner, upon his arrival at 7:30 o'clock, but restoratives were of no avail then.

At the table where he died was a letter that told the sad story. He had evidently started the letter after taking the poison, and he probably felt its effects. The penmanship was unnatural, and toward the close quite rambling in character, the writer being unable to follow the lines. The poison evidently worked more rapidly than he anticipated, and before he could affix his signature the pen dropped from his nerveless fingers and his head fell forward on the unfinished page. The letter read as follows:

"To Whom It May Concern: With me life has been a total failure. It might have been entirely different. There has been no one to blame for this difference save myself alone. I have been the poorest kind of a financier for every one, and especially for myself. I am preparing to leave the world badly in debt to it. I have, it is usually the case, been a worthless husband, been blessed with the bravest, purest, truest and most patient wife ever given to a man. I have abused the best set of friends ever possessed by one man. I

feel that I am a dead weight, entirely too heavy for the worthy, willing members of my family to carry. Indeed, they will be better off without me than with me. Feeling so, why should I live to be an onus, a dead weight for others to carry. I have chosen the morphine route as the cheapest and most certain. Let no one try to pay my debts. They are paid by this act of mine. If I could I would suggest a few I would rather see paid than debts. I freely forgive those who have wronged me. Hoping this explanation explains, I now, feeling tired and sleepy, I subscribe myself—

There is no question but that financial troubles, as he stated, prompted the act, and those who know him best are convinced that he went about his plans soberly and deliberately. He gave no intimation of them, however, and played checkers with a party of friends until 10 o'clock.

Judge Sellar was born in this county in 1845, and was a close neighbor and intimate friend of the late Governor Mount. In early life he was noted as a debater, his most formidable opponent being his friend, Mount. He studied law with Daniel Voorhees, and his earliest efforts were those of an assistant in case, in which "The Tail Sycamore" and ex-President Harrison figured. He soon became, and remained to his death, one of the most able and popular attorneys at the local bar. In politics he was an ardent Democrat, and stood high in the councils of his party. In 1884, and again in 1888, he was county chairman. In 1892 he was elected legislator, and served as a hold-over senator in 1894. He made a fine record and displayed a marked ability in getting bills through. He was the author of several measures that are now laws.

In 1896 Judge Sellar was urged to enter the race for governor against his old neighbor, J. A. Mount, and went to the convention with the good support of the district. It developed early, however, that Mr. Shively would be nominated and Mr. Sellar's name was not presented.

## AMERICAN SECURITIES

**Some London Bankers Have Refused Advances on Steel Stock But There Has Been No Organized Action.**

London, July 15.—The stock exchange today was engaged with the preliminary of the settlement. There were marked and heavy declines in prices, and large movements in the money market. A feeling of anxiety prevailed, especially in the market for Americans.

The rumors that bankers would not lend on American securities is a gross exaggeration. Lenders, however, are chary all around where long periods of time are asked for. Consols have fallen another 1/8, breaking the low record of recent years.

Prices of American opened with a general fractional recovery, but later declined. United States Steel common fell 1/4 and Steel preferred 1/8.

Since the last settlement many Americans have fallen from 6 to 8 points, and one or two to 18 points. The depression in United States Steel is chiefly due to the report that the London bankers refused to loan money on stock of that corporation. The Associated Press, however, learns that the bankers have not taken any such organized action. In

a few cases advances were refused on Steel, but this was owing to the fear of the solvency of the applicants rather than to the value of the stock, though all around difficulty has been experienced in getting the usual advances on this security.

This connection J. P. Morgan, Jr., said: "We have had no notification that the banks were making difficulties. The only reason which can explain the decline in steel is that there are more sellers than buyers. I do not believe the strike to be serious, only a few mills are shut down, and the effect cannot possibly be judged for a few days. When these matters have developed, if the banks should decline to lend money on steel, we would be glad to do so if we have money available for such purpose."

One of the largest American brokers in London, questioned on this subject, said: "It always has been rather difficult to carry over United States Steel corporation stock, and today it is more so than ever, but I do not think any first-class firm will find it impossible."

## GRANTED.

**Employees of National Tube Company Given Increase in Wages.**

Pittsburgh, July 15.—The 4500 employees of the National Tube company, at McKeesport, were notified today of an advance in wages of 10 per cent. The men are not organized, but the Amalgamated association was making efforts to induce them to join the union. Several months ago the men demanded a 10 per cent advance, but were refused.

This morning a committee waited on Manager Crawford and insisted upon the increase. He was unable to give an immediate answer, but a short time later the officials gave out a statement granting the advance.

## WARWICK BURNED.

Montreal, July 15.—The village of Warwick has been almost entirely wiped out by fire. Twenty dwellings and stores and the Grand Trunk Railway station were burned. Loss, \$75,000; no insurance.

**NEWARK STRIKE ENDED.**  
New York, July 15.—The strike of the machinists in Newark, which has been prolonged for many weeks, came to an end today. All the men returned to work at the terms offered by the bosses.

**GERMAN STEAMER SHORE.**  
Hamburg, July 15.—Capt. May, of the German steamer Tuna, from Hamburg, June 21, for Montevideo, cables that his vessel ran ashore at Punta Morenos and is a total loss. Her passengers and crew are proceeding for Montevideo.

## WILSON HOPEFUL

**Secretary of Agriculture Does Not Think Corn Crop Ruined.**

**Does Not Think It Even Greatly Damaged By Drouth.**

**High Temperature One of the Requisites of Corn Development.**

New York, July 15.—Secretary of Agriculture Wilson hopes that the corn crop of the Western states has not yet been ruined by the drouth, says a Washington dispatch to the Herald. He is disposed to believe the reports as to damage have been exaggerated. He is quoted as follows:

"I do not regard the corn crop as seriously damaged, notwithstanding the reports from the Western states. On July 1 the condition of the corn crop was more promising than on same date last year, and even if the press reports are not exaggerated, although I am inclined to think that they overstate the real conditions, there is not, as yet, cause for genuine alarm."

"Throughout the area of the great corn crop the drouth has not been severe enough to seriously affect that crop. Hot weather is not damaging to corn at this season. In fact, high temperature at this season is one of the requisites of corn development, and so I think that we had better wait a while before we say that the corn crop is ruined."

"For myself, I think that we shall have plenty of corn in this country. The reports from Kansas and Nebraska are, of course, discouraging, but the corn in those states is not great, except in the Eastern portions. The great corn belt of this country is east of the Missouri river and west of the Ohio."

"I have not yet seen anything to indicate that there has been a large amount of damage in this area of country. I am going to wait, therefore, until I hear whether the drouth has been disastrous in Iowa, Illinois, Missouri, Indiana, Michigan and Wisconsin before I become really alarmed."

## TO SUCCEED KING.

**Masonic Grand Master to Be Installed.**

New York, July 15.—On Wednesday, says the Tribune's London correspondent, an impressive Masonic function will take place in England. This will be the installation of the new Grand Master of the United Grand Lodge of England in succession to the late Duke of Devonshire, who died in September. The ceremony will be the same as when the prince of Wales was placed on the throne of the grand lodge by John Fawcett, the province of Durham, who are the premier masters or wardens of a lodge, or members of a past or present grand lodge.

## TO VISIT FAMILY.

**Minister White Will Come Over In September.**

Berlin, July 15.—The Klein Journal prints a letter from United States ambassador White to the editor of that paper, in which Mr. White says he will go to the United States in September to visit his family. Whether or not he will remain in the United States, particularly the status of certain questions between Germany and the United States, which, doubtless, will occupy the reichstag at its next session.

## MACHINISTS RETURN.

**One Wilmington Concern Settles With Its Men.**

Wilmington, Del., July 15.—Striking machinists of the Harlan and Hollingsworth company to the number of 10 returned to work this morning in accordance with the agreement reached an advance in wages of \$1 a week for those who had been receiving \$13 a week or over, and fifty cents advance for those who had been receiving \$12 a week or over. The strikers returned to work as though nothing had happened, each man taking the bench or machine that he had deserted eight weeks ago.

## SCHEEPER'S LAAGER

**Captured By British But Scheeper Escaped.**

Great Britain, Cape Colony, July 15.—Colonel Sebel's column surprised and captured Scheeper's laager at Camdeboo July 14, taking thirty-one prisoners and capturing a quantity of ammunition and arms. Scheeper, with the bulk of his command escaped. There were no British casualties. Most of the prisoners are rebels.

London, July 15.—Lord Kitchener, in a dispatch to the war office, confirms the reports of the capture of the wife of the acting president Schalk-Burger and says the prisoner has been brought into Pretoria.

**IRON MOULDERS STRIKE.**  
Chicago, July 15.—Nearly 1000 iron moulders in Chicago struck today in consequence of the failure of the employers to grant their demands for a flat scale of \$3 per day. About fifty firms are affected and it is expected the number of strikers will be materially increased within the next two days.

## OBEYED

**Thousands of Men Cease Work as Ordered.**

**Not a Wheel Turning In Man Steel Plants.**

Pittsburg, July 15.—The strike of the members of the Amalgamated association employed in the tinplate, sheet and hoop mills, which was ordered Saturday night as a result of the disagreement between the conferees of the United States Steel corporation and the Amalgamated association, was generally observed in the Pittsburg district this morning. At the mills where the strike order extended, the skilled workmen who are under the control of the union failed to put in an appearance, or if they did go to the mills, it was merely as spectators, with no intention of working. Early reports received at the general offices of the Amalgamated association were meager, but indications are that the strike order is being observed at all the mills of the tinplate, sheet and hoop combine.

President Shaffer is in communication with lodge officials at all these plants, and he is confident that the association will make such a strong showing on this preliminary suspension of work that a general strike of all the mills of the United States Steel corporation will not be necessary. This latter proposition is the strong card which the Amalgamated president has up his sleeve and which he has threatened to play if an early adjustment of the difficulty is not made. This strike bears a resemblance to the historical Homestead strike in 1892 in that it is not a question of wages, but of recognition of the association. The association insists upon unionizing all the plants of the three companies in question. The manufacturers refuse to grant this demand, and say that the individual contracts with workmen which are in force at a number of the plants must stand.

The Painter mill of the American Steel Hoop company, of the South Side, is shut down. The men have joined the Amalgamated association, and this morning not one of the workmen save four or five Hungarians and six Poles showed up. It is estimated that between 700 and 800 men are out. The management refuses to talk. In the mill office all was excitement this morning. Telephones were kept busy and messengers were kept running.

The strikers are keeping away from the plant and there is not a person holding about the place. Everything is unusually quiet. The tin mill at Monaca, Pa., which is non-union, was running as usual today.

The Lindsay & McCutcheon plant of the American Steel Hoop company, in Allegheny, is also idle, and the Star and Monongahela plants of the American Tinplate company are closed. The Painter and Lindsay and McCutcheon plants have been looked upon by the officials of the United States Steel corporation as the stronghold of non-unionists in the hoop company.

The prompt action of President Shaffer in thus forthrightly and firmly carrying it into his opponent's camp was looked upon as evidence that the strike will be one of the most spirited in Pittsburg's history.

President Shaffer was pleased with the reports from the two strongholds, and he declared that not a wheel shall turn in either the Painter or Lindsay and McCutcheon works until the strike shall have been settled. He said the Painter plant was closed with respect to the other non-union plants of the

## MANUFACTURERS FIRM

**Will Insist on Protecting Their Men Who Do Not Want to Be Forced Into the Steel Workers' Unions.**

New York, July 15.—Vice President Arms, of the American Tinplate company, who has just returned from Pittsburg, where he attended the conference between the steel manufacturers and the Amalgamated association, said last night of the strike, that the question at issue is the right of the three companies to run their own mills and to protect the men who worked in them. No question of wages was involved. Under this year's scale the men were getting higher wages than ever before. The company did not consider that it was the aggressor. The demand of the Amalgamated association was that every plant be made a union plant. The companies had offered to give the union more mills than ever before, but insisted on protecting the non-union men in the non-union plants, many of whom did not wish to become union men. Many of the manufacturers who went into the combination owning non-union plants did not wish to have their factories run on a union basis.

Mr. Arms did not care to say what the effect of the strike would be on the steel market. He said the company would ask for no more concessions, but would be willing to meet the representatives of the strikers if they had any concessions to make. He was unable to forecast how long the strike would last. The strike was unfortunate because the plants were inundated with rush orders.

## THE BUNDEFEST.

**Official Reception Day at San Francisco.**

San Francisco, July 15.—Today will be the official reception day at the national bundefest and the visiting sharpshooters will be formally received by the president and officers of the national Schuetzenbund at the headquarters.

## INTERSTATE REGATTA.

**Crews Have Arrived at Council Bluffs.**

Council Bluffs, Ia., July 15.—All the crews which will be entered in the events of the interstate regatta at Lake Manawha, have arrived, the last one, the Cedar Rapids men, coming in this morning from St. Louis City, Dubuque, Ottumwa and Council Bluffs crews were out early for a warming up. All the crews are quartered at the hotel. The Council Bluffs Regatta association.

The course was staked off today. It is a quarter mile and return. The entries are being prepared and it will be known this afternoon who will participate in each event.

Delegations of rosters are coming from the various clubs and are bedecked with the colors of their favorites. The sky is partially cloudy and conditions are favorable for the preliminary work of the men.

## GIVEN A HEARING

Railroad Commissioners  
Listen to West End  
Merchants.

Tell Why Twentieth Avenue Station Should Be Continued.

Supt. Brown Makes Statement of the Road's Position.

Railroad Commissioners Ira B. Mills, Charles F. Staples and Joseph G. Miller arrived in the city last evening and this morning heard the business men of the West End in support of their contention that the Northern Pacific railroad should be forced to restore the station at Twentieth avenue west, which was abandoned in May last.

The board had not given very long notice of its coming, for Charles O. Nelson, who made the formal complaint, did not receive notice until 8:30 o'clock this morning that the board was to be here. When the meeting was called, about 10:30 o'clock, there was a good representation of the business men of the West End, considering the shortness of the notice. There were present Mayor T. W. Hugo, Charles O. Nelson, John J. Moe, M. A. Poole, S. W. Hill, Charles Pierce, D. E. Stevens, B. Martin, of R. R. Forward & Co., and Superintendent E. L. Brown, of the Northern Pacific railroad.

Chairman Mills opened the meeting, and C. O. Nelson related the fact that the St. Paul & Duluth railroad had for years maintained the Twentieth avenue station, and that shortly after the consolidation of the two roads the Northern Pacific cut off the passenger service by running the trains to West Superior and then back to West Duluth. Then in May last the station was closed up, and since then the merchants in that part of the city had been obliged to go to Duluth to get their freight. He claimed there was now a strip of line

six miles long on which there is no passenger service.

By request, Chairman Mills read the reply of M. C. Kimberley, general superintendent of the road, to the board when he was asked for information. He said the station was closed of necessity. Delay to trains, expense of doing business and confusion required the closing of the station. He said there was no necessity for three stations in Duluth within a distance of four miles; that one station sufficed in St. Paul, and two in Duluth ought to do. He said also that the Twentieth avenue station was established for short line service.

Mayor Hugo spoke briefly, saying that the station ought to be continued, that the last time it was open it did a business of \$3000, and that the West End is the growing part of the city and the coming center of population, and would increase in business. He said St. Paul is not a fair town to place beside Duluth in making a comparison, this being a shocking town.

John J. Moe denied that the station was established for short line service and said that when the St. Paul & Duluth road put it in there was no short line service. The short line ran only to Garfield avenue.

John J. Moe asserted that the West End had always given plenty of business to justify its demanding the continuance of the station. The last month the station was open the business aggregated \$3000 and that was not a large month.

Some questioning by the commissioners elicited information as to when the passenger and freight service were continued, that up to the time of the absorption of the St. Paul & Duluth by the Northern Pacific, tickets could always be bought at the station for all points.

Chairman Mills asked if the street cars did not run to the West End and received the response that they did.

Charles Pierce claimed that the St. Paul & Duluth railroad established its Duluth station there and later moved up to Fifth avenue, but continued the station there. If it can be proved that the volume of business has doubled since it was established, it ought to be reason enough for continuing the station but it could be shown that it has increased ten times. He claimed that the grant to the road provides that it should operate exclusively in Minnesota and that by running its passenger train to Superior it was violating that.

Mr. Martin, of Forward & Co., said that his firm received heavy goods and the item of hauling was a heavy one. The cutting off of the depot means that they will have one team constantly hauling between the Union depot and their store.

Superintendent Brown was asked to speak, and said that when the St. Paul & Duluth railroad came to Duluth it did what all people and corporations were trying to do—boom Duluth. It built stations indiscriminately, at Fond du Lac, New Duluth, Spirit Lake, Bay View Heights, West End, West Duluth,

Hazelwood, Oneota, Twentieth avenue, etc. The past few years have seen many of them closed for lack of business. The street railway has superseded the short line, and the electric cars now do the business. The closing of the Twentieth avenue station was a cold blooded business proposition, nothing else. It is only a mile to Fifth avenue, where the company maintains a large freight shed and where the freight cars are loaded and unloaded. But cars will be delivered there now as before. He asserted that of the freight going to Twentieth avenue, 75 per cent was sent to Duluth, billed back to Twentieth avenue, and he rather than shipped from up-town down there. This was due to the lack of knowledge on the part of the shippers that there were two stations in Duluth. He referred to a statement made by Mayor Hugo to the effect that hauling over the streets was not work, and submitted that the condition of the streets was not the fault of the railroad company, but rather of the city. The passenger change was made to meet the competition for traffic from West Superior, and the Omaha and Eastern Minnesota railroad.

In response to questions, Mr. Brown said that the road had \$500,000 worth of freight in the city, and that it was his duty to maintain the Twentieth station.

Following Mr. Brown's statement the board considered the matter. Mr. Moe stated that the railroad had always shipped freight consigned to Twentieth avenue, and that it was his duty to ship by Twentieth avenue to Duluth and thereby delayed the merchants of the West End in getting their freight and now hold it up against them.

S. W. Hill said it was true that cars could be unloaded at the station on Twentieth avenue, but it is necessary to go up town and pay the freight before the cars could be unloaded.

It was then suggested by Capt. Stevens that the members of the commission go there and look over the ground themselves and that he would then take them to the station and let them see the freight being handled there. The respect of a lay ride found favor at once. The start from the hotel was made about 11:30 o'clock.

The commissioners will get statements from the railroad company of the business done at Twentieth avenue station and will make their decision later.

**TEAMS MUST MOVE.**

Police Keep Them Jogging on Superior Street.

The matter of keeping Superior street free of standing rigs in that portion now being paved is receiving the attention of the police department and every effort possible is being made to prevent a blockade. Capt. Kosche this morning stationed a patrolman on the beat between Third avenue east and Lake avenue, whose duty it is to keep the teams in motion. The complaint has been made mostly against the delivery wagons. There is one instance of a meat market at the corner of First avenue east and Superior street where there is plenty of room for the wagons to stand, but instead it was stationed this morning on Superior street and partially blocked the street.

**FOUR HUNDRED STRUCK.**

Gas City, Ind., July 15.—Only the finishing department is in operation today at the Woodward plant of the American Tin Plate company here. About 40 men struck. Members of the Amalgamated association here, declare they can remain idle a year without being seriously injured.

**COMING TO AMERICA.**

Shelby, July 15.—The shareholders of William Jessup & Sons, Limited, steel makers at Sheffield, England, have approved a scheme for the establishment of steel works at West Duluth. The plan is to form a subsidiary company under the laws of Pennsylvania.

## PERSONALS.

Fred Bayha left for the East on Saturday.

Mr. and Mrs. H. S. Clark have gone to Buena Vista, Wis., for one week.

Miss Grace McDonald, of this city, left this morning for Portland, Ore., where she is visiting her sister, Mrs. L. N. Gray.

Miss Grace McDonald, of this city, left last evening for St. Paul, being called there by the illness of her sister, Mrs. Ben-shaw.

Miss McDonald, of this city, and taught in the public schools several years. She was married to Mr. Benshaw in Duluth.

Miss Eleanor Brockmeyer, of Lafayette, Ind., is visiting Miss May Shaw, of Glen Aven.

Mr. H. Mayhew left yesterday on the Argo for his home at Grand Marais.

Joseph F. Beach, accompanied by Misses L. and D. Beach, of Connecticut, are at the St. Louis hotel.

Charles Edgar, of Wausau, Wis., is registered at the Spaulding.

S. A. Smart, of St. Paul, general baggage agent of the Great Northern, is in the city this afternoon.

W. F. Street, of Bemidji, is in Duluth today.

Mrs. F. R. Foley and daughter, of Alhambra, are in the city this morning.

Mr. and Mrs. George W. Myers and son, of Hibbing, were in the city this morning. In the afternoon they left for the East.

George C. Howe will leave this evening for Chicago.

Miss N. Nyberg and C. Hemmings, of Minneapolis, are visiting with Duluth friends.

Mr. Flynn, a conductor on the Eastern Minnesota, was at Hibbing yesterday and he says the harvest of wheat will begin about Aug. 10, and that there is no possibility of a failure. There has been no rain here for some time, but the ground, but the crop will be a bumper and the farmers are happy.

Mr. Lemons, of a farm near Duluth, has a hay crop that will be immense. Mr. Lemons says harvesting of wheat will begin about Aug. 10, and that all the farmers are going to get the necessary help. Labor is very scarce in the agricultural regions.

## BODY FOUND.

**Corpse of Boy Drowned on Boulevard Recovered.**

The body of Frank Kaminski, the boy that was drowned in the pond on the boulevard yesterday afternoon, was recovered shortly before noon today and taken to the home of his parents, Mr. and Mrs. Michael Kaminski, 21 East Eighth street. The body was first brought to the surface by some small boys with fishhooks and lines, but the boys were frightened and let it slip to the bottom, where it was soon recovered by the neighbors who had been dragging the pond all the morning. The body was found near the spot where the boy went down. This is the second case of drowning in the little pond, a boy losing his life there last summer. The authorities say that it is a very dangerous place for boys that cannot swim, for the bottom which is only three or four feet out of a way suddenly drops off sixteen feet deep.

## Will Be a Hummer.

Earl Reid, traveling passenger agent of the Duluth, South Shore & Atlantic, is home after a two weeks' tour through Western Minnesota and North Dakota. Mr. Reid says the Northwest will harvest a record crop of wheat, and that there is no possibility of a failure. There has been no rain here for some time, but the ground, but the crop will be a bumper and the farmers are happy.

## HOTTEST ON RECORD

Sunday the Warmest Day Ever Known In Duluth.

Average of 82 Degrees For the Twenty-Four Hours.

High Point Had Been Exceeded By One Degree.

If there were no geographies strangers in Duluth yesterday would have suspected that they were in close proximity to the equator. The weather man lost control of the sun, and a new warm weather record was established. The thermometer at the government building stood at 88 degrees from 4 o'clock p. m. until 6 o'clock p. m. On one previous occasion, July 1, 1883, the temperature was 89.

Heretofore Forecaster Richardson has always been of the impression that the record of 89 degrees must have been made with the thermometer located improperly; that is, in a position where it would be affected by heat from buildings or something of that sort. He was led to believe this by the fact that it has always been so difficult in recent years for the mercury to rise above 81 or 82. He has now seen it hit 88 himself, and he is willing to believe that 89 was reached fairly and squarely.

The thermometer which registered 88 is way up on the tower of the government building, away from all the heat of pavements or buildings. When that thermometer was standing at 88 it is estimated that the temperature on Superior street was at least 105.

In July, 1883, when a heat record of 89 was established, the mean temperature for the day was 78, and yesterday the mean temperature was 82. This is the highest temperature ever recorded in Duluth, and it is doubtful if it was ever exceeded. Mr. Richardson says there is nothing to approach this record, which is 15 above normal.

The air was dry yesterday, as the humidity was only 78, and that was early in the forenoon. At 7 p. m. the humidity was 70.

At 7 o'clock this morning the temperature was 73, which was the lowest point touched by the thermometer during the night. It is extremely rare for the temperature to have the local thermometer indicate a temperature of 89 prevails, the day is considered warm. Duluth was as warm yesterday as it was in Alabama, and it was 30 degrees cooler in Chicago than at the head of the lakes. The Twin Cities experienced heat of 88 degrees yesterday, and it is something extraordinary for Duluth, near the cooling air of Lake Superior, to have the local thermometer indicating the same figures as those of Southern and inland cities.

All records were smashed in the country. At Houghton, Mich., the government mercury went 6 degrees higher than in Duluth, the thermometer standing at 104, while it reached 102 at Marquette.

The temperature at Montgomery, Ala., was the same as that prevailing here, while at Huron, S. D., Kansas City and Omaha 102 was marked up.

The intense heat prevailing all through the night made the effort to sleep useless for many unfortunate people. Hardly a stir of wind was noticeable during the hours of darkness.

## Freemulks' Parasols

Stock Reducing Sale of Fine... Parasols

Duluth weather this season has not been rather conducive to a great parasol business—yet parasols are always needed and at these special prices are doubly desirable.

Children's 25c parasols in pretty shades at only **13c**

Children's pretty two-ruffled Parasols in neat fancy figures, regularly 40c, stock reducing price **29c**

Children's 65c Parasols, in dainty floral patterns and pretty handles. Stock reducing price **48c**

Ladies' \$1.24 pure white silk Parasols, on white enamel handle and frame. Stock reducing price **89c**

Beautiful corded hemstitched Parasols, in all pretty shades—regular \$2.50 Parasol—stock reducing price **\$1.69**

Plain and fancy Parasols—beautiful effects with hemstitched and corded borders—regular \$3.50 Parasols—at stock reducing price of **\$2.95**

No protrations were reported yesterday, but during the ball game at Oneota six of the players had to retire from the game. A fireman at the Leisure mill was overcome this morning, but he soon recovered. John Mora, at West Duluth, has a thermometer which the old residents swear by, and it stood at 105 for three hours. From Pike Lake hotel comes a story of 108. Gus Ruhlman was in New York during the recent hot wave there, and he remarked yesterday that it was the warmest day he had experienced this summer.

The rush to the resorts to escape the enervating heat taxed the transportation facilities at times. Most of the boats were overcrowded. A ferry running between Oatka and West Superior with room for 100 passengers, carried 200 by actual count, and the main deck was less than six inches above the water.

Showers are predicted for this evening and it is expected they will break the heated spell.

At 11 o'clock this morning the government thermometer stood at 90 degrees. It sank to 85 at noon, and then during the afternoon it began to pick up again and started after yesterday's record. At 2:30 o'clock this afternoon it had reached 81.

Things went out last year, nothing will be sold this year, save this year's goods, and it is an exceptional opportunity for the shopper to secure great values.

St. Paul, July 15.—The mercury reached its lowest figure for the twenty-four hours at 7 o'clock this morning, recording 75 at that hour. While a brisk breeze is blowing the heat is increasing steadily as the day advances.

Lincoln, Neb., July 15.—A thunderstorm during the morning brought hardly enough rain to dry the dust and cool the air only momentarily. At 9 a. m. the temperature was 81 and mounting at the rate of over two degrees an hour.

Des Moines, July 15.—There was a slight break in the hot spell here today. At 10 o'clock the thermometer stood at 81, and a light breeze tempered the rays of the sun.

Chicago, July 15.—The official temperature at 7 o'clock this morning, recording 75 at that hour. While a brisk breeze is blowing the heat is increasing steadily as the day advances.

St. Paul, July 15.—A violent thunderstorm broke here today and broke the protracted hot wave.

**WETMORE'S GELATINE**  
Granulated or shredded; 10 cents at all grocers.

**BIDS OPENED.**

At the meeting of the board of public works this morning, bids were opened for the cement curb and gutters on First street, between Sixth and Fifth avenues east; also for cement and tile walks in any part of the city. The city engineer, Mr. J. H. Thompson, has received bids for the work as follows: The total bids were as follows: Waterworks, \$18,888.67; Alexander Sang, \$13,117.50.

Mr. Sang's bid for the curb and gutters was also the lowest, being \$18,888.67. The other bids for the same work were: Fitzgerald & Norris, \$10,533; Dixon & Lowry, \$15,781.21; King & Steele, \$16,727.50; and John Loefer, \$15,781.21.

The bids on the cement and curb sidewalk were as follows: Cement walks, per square foot—Thompson & Dunlap, 17 1/2 cents; Dixon & Lowry, 17 1/2 cents; John Loefer, 17 1/2 cents; Thompson & Dunlap, 17 1/2 cents; Dixon & Lowry, 17 1/2 cents; John Loefer, 17 1/2 cents.

The bids on the cement and curb sidewalk were as follows: Cement walks, per square foot—Thompson & Dunlap, 17 1/2 cents; Dixon & Lowry, 17 1/2 cents; John Loefer, 17 1/2 cents; Thompson & Dunlap, 17 1/2 cents; Dixon & Lowry, 17 1/2 cents; John Loefer, 17 1/2 cents.

SILBERSTEIN &amp; BONDY CO.

# Our Annual Mid-Summer Sales are now in Progress.

From now on you may expect to get any summer goods in our house at reductions averaging from a fourth to a half less than regular—with but very few exceptions—(and these are special purchases which we make, such as our \$1.50 to \$2.50 Waists at 75c, and our special purchase of Wash Fabrics, that are now selling at almost half regular prices). The goods are all from our regular stock, reduced as is our custom at this season of the year—to “clean house,” so to speak—and get in readiness for our fall purchases. Lots of things are sold now below what we could expect to buy them for—some lots are too large to carry over until another season—and, it would be against our rule—again some few things are soiled or mused—all of these reasons go toward passing things on to you at very advantageous prices—at a time when Duluth's warm season is about to commence.

## White Goods Reductions.

High class novelty White Goods—used for Waists and whole Dresses. Several good designs left to select from. All reduced from 20 to 40 per cent. All good seasonable merchandise at prices to close.

LOT 1.—Neat stripes and checks. Also plain lawns, white ducks, etc., worth up to 15c a yard. Your choice 10c a yard.

LOT 2.—Fine striped Dimities—pretty lace stripe novelties. Piques, Ducks, India Linons, Cordettes, Checked Nainsooks, 40-inch Victoria Lawns, etc., worth up to 30c. Your choice, while they last, 14c a yard.

LOT 3.—A beautiful selection of fine Imported and Domestic weaves, Cordon Français, Fancy Piques, sheer dress stuffs, open-work effects, lace stripe novelties, India Linons, 40-inch Victoria Lawns, etc., etc., worth up to 40c. Your choice at 25c a yard.

## Final Clearance of Eton Jackets and Box Coats, also Gaffeta Etons at Half.

Hansome tailor-made Suits at a fourth and a third off. Some special lines at \$9.50, reduced from \$15 and \$16.50. And some at \$13.75, reduced from \$20 and \$22.

## Some of the \$1.50 and \$2.50 Skirt Waists at 75c left.

Enough of them are here to satisfy several hundred women if they come early enough in the week—the hundreds that have been sold—and the hundreds who come back for more after they have bought is proof enough that the values are exceptional—new choice Waists in such pretty colorings and so prettily made have never been sold in Duluth at such prices before—all sizes and all colors at one price—75c.

Wash Skirts—Reduced. \$1.25 Wash Skirts at 75c. \$1.50 and \$1.75 Pique and Linen Skirts at 50c. \$2.50 and \$3.00 fancy trimmed Pique Skirts—\$1.75.

## Important Sale of Black and Colored Silks

Many of these can't be purchased today for fall delivery at the prices quoted here. The styles of the fancy silks are just as good as many of those which will be shown among the new ones later on. But we want to show you only entirely new styles, this is our reason for being willing to sell goods without profit.

\$1.35 Black Peau de Soie silk at \$1.00.  
\$1.60 Black Peau de Soie Silk at \$1.35.  
\$1.00 Fancy Waist Silks at 65c.  
\$1.00 Enterprise Silk Flannels at 65c.  
\$1.00 and 85c Black Peau de Soie at 65c.  
85c Colored Pique Taffetas, short lengths, at 65c.  
\$5.00 Embroidered Silks for vests, at \$1.75.  
\$1.50 and \$1.25 Fancy Taffeta Silks at \$1.00.  
65c Crepe de Chine, black and ecru only, at 35c.  
\$1.50 and \$1.25 Colored Silks, for yokes or trimmings, at \$1.

## Some Muslin Underwear—Reduced.

65c—Nainsook Corset Covers, trimmed with Valenciennes lace—three rows of lace insertion—reduced from 85c.

85c—Nainsook Corset Covers, trimmed with fine Valenciennes lace, beading and insertion—reduced from \$1.00 and \$1.20.

## Night Gowns.

\$1.65—New Chemise Gowns, of fine long cloth, trimmed with torchon lace, insertion and beading.

Finer Chemise Gowns, with dainty trimming—at 3.50, \$5.00 and up to \$15.00.

## Dressing Sacques and Kimonos of White Lawn.

Beautifully made and neatly trimmed and generously full.

At \$1.48—Kimonos. Dressing Sacques—of fine white lawn—hemstitched down front and on sleeves.

At \$2.25—Kimonos—of white lawn, trimmed down front and around sleeves, with embroidery insertion.

At \$2.50—Kimonos—of fine white lawn, trimmed with Swiss embroidery and ribbon.

At \$1.65—Dressing Sacques—of white lawn, trimmed around collar, and sleeves with a hemstitched ruffle, yoke effect of hemstitched tucks.

At \$1.98—Dressing Sacques of white lawn, two styles, one trimmed with dainty Swiss embroidery, and one with hemstitched tucks, and Valenciennes lace.

**Folded Beiting**  
Just the thing for Summer Dresses—25c.  
Of White Pique—25c.  
Of Grass Linen—25c.  
Of Corded Black Taffeta—50c.  
Of Corded Grenadine—75c.

# The Selling of Over 15,000 yds Wash Fabrics at almost Half

Started this morning—and notwithstanding the unusually warm weather, the department was crowded with shoppers who recognized at a glance the unusual wash goods buying opportunities—it is the most notable selling of cotton goods that Duluth has seen in many seasons—and doubly so—because the wholesale market is practically bare of desirable Wash Fabrics—while many of the large cities are this season's manufacture—and in all of ers, who, desirous of closing up their such an unusually warm spell—made us con along to you at nearly half their real worth. our regular stock and marked them at about it **A WASH GOODS EVENT** **PORTANCE** and one that no woman in Duluth can

## WASH FABRICS

clamoring for them. Every yard is of the best shades—much of it from making business—and not figuring on sessions which enable us to pass them We have also taken many lines from the same average reductions—making **OF UNUSUAL IM-** afford to overlook.

**Parasols Reduced.**  
Some of our high class novelties reduced.  
From \$19.50 to \$15.00.  
From \$18.50 to \$12.50.  
From \$10.50 to \$ 8.75.  
From \$ 7.50 to \$ 5.00.  
From \$ 5.00 to \$ 3.50.

## 58c and 50c Imported Swisses, 38c

This is our regular line of Embroidered Swisses, but the assortment is broken, to close out the balance we place them on sale to-morrow—stripes, dots and figures—at 38c.

## 75c Grenadines 59c

The finest material in Wash Goods shown this season—beautiful for evening gowns as well as street wear—former price 75c—sale price 59c.

## \$13 Imported Swiss Dress Patterns at \$9.00

A few very choice dress patterns left—exclusive goods—reduced from \$13 to \$9.

## Over 2000 yds of 25c, 30c and 35c Ginghams at, a yd 15c

52 different styles to select from and not a bad one in the lot—consisting of red effective stripes for shirt waists and dresses; staple checks, broken checks, plaids, embroidered dots, shirting stripes and plain colors, all 3 1/2 in. wide, sale price **15c**

## Every Trimmed Hat in the House at Half

\$5.00 Hats at \$2.50  
\$6.00 Hats at \$3.00  
\$8.00 Hats at \$4.00  
\$10.00 Hats at \$5.00  
\$12.00 Hats at \$6.00  
\$15.00 Hats at \$7.50

## IS BRIGHTER.

## Baseball Matters Are Beginning to Look Up Again.

Baseball matters have already begun to take on a brighter aspect since the new management took hold. The game yesterday was the worst ever, partly on account of some other things, but it will be the turning point for baseball in Duluth. Lon Van Praagh, the manager of the Duluth Fashions, has taken the Duluth team, and will consolidate the two. Duluth will have one of the best teams, if not the very best team, in the Northwest, and the baseball fever, it is hoped, will get up to where the weather is at the present moment. Duluth fans want good baseball and are anxious for a game, but they cannot be expected to turn out to see the same teams every time. Next Sunday Manager Van Praagh has arranged for a game with the Superior team, at Duluth. Last Saturday and Sunday the Superiors played at Ashland, losing the first game by a score of 7 to 3 and winning the second

by 8 to 4. They have a new left-handed pitcher, by the name of Booth that is said to be a whirlwind, and the game cannot fail to be interesting. The consolidation of the Duluths and the Fashions has already taken place, and the team, as a whole, can be depended upon to play good ball. Kline will catch. When "Looie" gets in with a fast team there is no better player at the head of the lakes, and he can be depended upon to wear the mask with the best possible grace. Staub and Glenn will be the pitchers, and the former will probably be in the box Sunday. He has been giving his arm a rest and will be in fine condition for the game. "New" Randall will be on first, where he can get everything. Gerard will cover second. "Skinny" is one of the best ball players in this country and is a essential to the team. He is always in the game and holds up the men wonderfully. Shepard will play short, and "Pike" Mullany will be in the left garden. Lambert will be in center, and either Bennett or Lovell in right. Hickey, the Tower third baseman, will fill that position, and is the right man for the right place. It will be noticed that Duluth will have a greater number of good hitters than either Ashland or Superior, which will do wonders in piling up the scores. Manager Van Praagh says that he is almost sure of his date with Hurley Ashland, and is making strenuous efforts to get the Milwaukee Sentinels here. Negotiations are on with the Chicago Cubs, the fastest colored team in the country, and if any league teams

can be brought up here for Saturday and Sunday games an effort will be made to close with them. Van Praagh has taken hold of all parts of the whole baseball question, and as he is very popular among both players and fans, he can get the best possible results out of the situation.

**SUMMER SAILS.**  
Manila, July 15.—The United States army transport Summer with convalescent soldiers on board, has sailed for San Francisco.

**COMING HOME.**  
London, July 15.—Joseph Pulitzer, proprietor of the New York World, and Mrs. Pulitzer, will sail for New York on the White Star liner Teutonic, leaving Liverpool July 17.

**How's This?**  
We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Props., Toledo, Ohio. We, the undersigned, have known F. J. Cheney for the last fifteen years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligation made by him. WEST & TRUAX, Wholesale Druggists, WASHINGTON, KINNAN & MARVIN, Wholesale Druggists, Toledo, Ohio. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75c per bottle. Sold by all druggists. Testimonials free. Hall's Family Pills are the best.

## WINS LIBEL SUIT. Actress Awarded \$12,500 From London Mail.

London, July 15.—Miss Hetty Chatel, an actress, has obtained a verdict for £250 in the sheriff's court against the Daily Mail for libel. At the time of the marriage of Rosie Roote, to the Earl of Hereford, the Daily Mail asserted that Miss Chatel was the mother of Miss Roote.

## SCHOONER SAVED Crew and Vessel Arrived in New York.

New York, July 15.—The captain and crew of seven men of the dismasted and waterlogged schooner Theoline, reported last Saturday by the Ward liner Saratoga as refusing to leave their vessel, were towed into port today aboard their ship by the Ward liner Matanzas. They had previously refused two separate offers to save themselves and abandon their ship.

**ALL CLOSED.**  
New Philadelphia, Ohio, July 15.—All plants of the American Sheet Steel company in the Duckcreek valley are closed today, owing to the strike. The mills affected are those at New Philadelphia, Denison and Canal Dover. Two thousand men are idle.

## TO AMALGAMATE. Bryant & May Match Company Agrees to Combination.

London, July 15.—At a special meeting of the shareholders of Bryant & May held this afternoon the agreement to acquire the business of the Diamond Match company of Liverpool for £240,000 to be provided by a new issue of Bryant & May shares, was adopted. Chairman Bryant of Bryant & May supported the resolution on the ground that the corporation was not in a position to fight the Diamond Match company. Some of the shareholders indignantly protested against the proposed amalgamation, saying the Diamond Match company never paid any dividends and they saw no reason to buy off the Liverpool company for fear of future competition. President Barker of the American Diamond Match company, spoke in favor of the amalgamation.

## TO BE COMMITTED. Paterson, N. J., Strikers Will Go to Jail.

New York, July 15.—Orders of commitment in the cases of the Paterson, N. J., strikers, who were adjudged guilty of contempt of court, in having violated an injunction restraining them from "wandering" non-union workers, were signed by Vice Chancellor Pitney in chancery chambers, Jersey City, today. The papers call for the commitment of eight persons, two men and six girls.

## ROOT ACCEPTS Resignation of Captain Strong of San Francisco.

Washington, July 15.—Secretary Root has directed the war department to accept the resignation of Capt. Putnam Bradley Strong to take effect immediately. Capt. Strong will be notified by telegraph and he will not sail for Manila on the transport Grant tomorrow. The acceptance of the resignation precludes any action by the military authorities against Capt. Strong.

Many thousands have been restored to health and happiness by the use of Chamberlain's Cough Remedy. If afflicted with any throat or lung trouble, give it a trial, for it is certain to prove beneficial. Coughs that have resisted all other treatment for years have yielded to this remedy and perfect health been restored. Cases that seemed hopeless, that he climate of famous health resorts failed to benefit, have been permanently cured by its use. Bear in mind that every bottle is warranted, and if it does not prove beneficial the money will be refunded to you. For sale by Boyce's Drug store. Oatka hop this evening.

**DELAID BY FOG.**  
New York, July 15.—More than 200 Sunday excursionists were kept prisoners on various steamboats all of last night, because the boats were unable to make port on account of the heavy fog. All of them reached home safely today.

**BASEBALL.**  
Pittsburg, July 15.—Philadelphia-Pittsburg game postponed; rain. National league.  
Baltimore, July 15.—First game—Washington, 3; Baltimore, 2.

## EPWORTH CONVENTION. The North-Western Line Official Route for Conference.

The North-Western Line—Omaha road—is the official route of the Minnesota conference to the fifth international Epworth league convention, July 18 to 21, at San Francisco. By this line a number of inexpensive side trips may be made to places of historic interest and to world-renowned scenic resorts. Rates for round trip from Duluth, by way of Omaha, Denver, Colorado Springs, Pike's Peak, Garden of the Gods, Royal George, Salt Lake City and Ogden, \$50.00; same trip going, returning via Northern Lines, \$62. A grand opportunity to cross the Rocky Mountains and see California and the Pacific ocean. For choice of routes, tickets, illustrated folders and all information, apply to G. M. Smith, general agent, 405 West Superior street, Duluth, Minn.

Many other valuable bargains—too numerous to enumerate—come and see for yourself.

**304 West Superior Street.**

Prompt Acceptance of the Free Trade Clause Will Be of Great Benefit to the Island.

Washington, July 16.—The action of the Porto Ricans in promptly accepting that feature of the Porto Rican act which authorizes free trade between the island and the United States is likely to give them great advantages over their sister islands of the West Indies.

At least this is a reasonable conclusion from the prosperity which Hawaii enjoyed after the reciprocity treaty which admitted the sugar of those islands into the United States free of duty. These figures show that the sugar production of the Hawaiian Islands has increased over 2000 per cent under the free admission of their sugar to the markets of the United States, while the other cane sugar producing islands and countries have during that time suffered great depression and in many cases heavy losses.

It was in 1876 that the reciprocity treaty was made between the United States and the Hawaiian Islands. Prior to that the average production of sugar in the islands was but about 25,000,000 pounds per annum. In five years the production had tripled, in fifteen years it was ten times as much and in twenty years twenty times as much as before the treaty. Within less than ten years after the ratification of the treaty more than \$20,000,000 of American capital had been invested in the islands, and the total value of the sugar production of the islands since the treaty is \$250,000,000.

The increase in commerce between the Hawaiian Islands and the United States is a fact which is also illustrated by the fact that the exports to the Hawaiian Islands from the United States prior to 1876 amounted to less than \$1,000,000 annually, but rapidly increased until in 1900 it was about \$14,000,000, and a recent report from the collector of customs at Honolulu estimates the figures for the present year at \$20,000,000.

The commerce of the islands is larger per capita than that of any other country in the world, and nearly all of it with the United States and carried in American vessels.

The fact that this enormous increase in production and commerce and wealth of the Hawaiian Islands has followed the freedom of trade with the United States, established by the reciprocity treaty of 1876, suggests that the Porto Ricans are likely to benefit by the same close trade relations which they will have under the new law which they have asked President McKinley to put into operation on the 25th of the present month.

The Hawaiian Islands are 3000 miles from the Pacific coast, and 6000 miles from the great consuming centers of the United States, while Porto Rico is but a few hundred miles distant. The sugar production of Porto Rico is now double that of the Hawaiian Islands, and the fact that the Hawaiian Islands are likely to benefit by the same close trade relations which they will have under the new law which they have asked President McKinley to put into operation on the 25th of the present month.

**UNCHANGED IN THE STEEL STRIKE.**

No New Developments In the Steel Strike.

A Settlement Very Soon Is Predicted.

Pittsburg, July 16.—There were no new developments in the great steel strike in this district during the early hours of the second day. All the plants closed yesterday were shut down tight, and matters about the Painter mill, Lindsay and McCutcheon, Clark's Solar Iron works, the Monongahela and Star in plate plants were quiet. It was stated that Painter's mill was in partial operation, but the only men at work were a few Hungarians who were cleaning up about the yards. Replying to the rumor that the management had brought a strike breaker, Assistant General Manager Harper said: "We can break our own strike."

Superintendent Albrecht, encountered a few moments later, said the plant would be running in full within a few days. Speculation as to the probable settlement of the strike is active in all circles, and among business men and manufacturers generally the consensus of opinion is that the combine officials and Amalgamated officials will get together before long and adjust the differences. Some of the manufacturers were emphatic in stating that it would be arranged within forty-eight hours, yet they could give no positive information of any movement on foot to start negotiations.

In regard to the threat of President Shaffer to call out the workmen in the other union plants of the United States Steel Corporation, made on Saturday, a significant statement from him today that just now he was not in the sympathetic strike business, is looked upon as meaning that for the present the men will be allowed to continue at work. President Shaffer in communication with George Powell, president of the American Tinsmith Workers' Protective Association and International Association of America, at Elwood City, who announced that his organization was in hearty sympathy with the Amalgamated strikers, and the statement was untrue that 2000 dipper men would continue at work. It was stated that these men had decided to continue work because of lack of food and shelter. Amalgamated association with the scale with the American Tinsmith company adjusted a year ago. President Shaffer announced that strike benefits will go to the idle men from the time of the actual striking of the strike yesterday. The association has a substantial fund, he says, and the men remaining at work in plants outside of the big steel combine will pay liberally to support the strike. Moreover, many of the idle men are now working for a vacation. He is preparing a circular of information on the strike. He said of it: "It will be a circular letter to the general membership of our order, stating our position, arguments and expectations."

When asked about President Mitchell's statement, last night, President Shaffer said: "I don't know the miners to go on such a strike. God help the poor coal miner, he is the best union man in the world and I would not want to see him go on such a strike. But while I shall not invite or solicit a sympathetic strike, I will not object to one if it comes. Amalgamated association stands ready at any time to effect an alliance with the United Mine Workers or any other kindred organization, many of whose members are employed by the United States Steel Corporation."

Assistant Secretary Tice, of the Amalgamated association, returned today from Menominee, where he had been to organize a lodge in the steel mill of that place. He reported that a lodge was formed with about twenty-five members out of the 250 men employed in the mill and that he had succeeded in closing the plant. Vice President Reese reported that he had organized the men in the William Clark Sons' plant, taking in the lodge 100 men out of the 500 employed, and as a result the plant was closed today. This mill was the only hoop plant in the city that worked yesterday and has been non-union since 1889.

**CENSORSHIP CONDEMNED**

Military Arrangements Keeping the British Public In Ignorance of the South African War Are Criticised.

New York, July 16.—The last has not been heard of military censorship in England, notwithstanding Lord Kitchener's blunt telegrams, according to the London correspondent of the Tribune. While the Boer commandoes, the dispatch says may be so demoralized and scattered that neither Gens. Botha nor De Wet can put an end to atrocities such as the massacre of the wounded, if their attention be called to them, the public has a right to know what is going on, especially when the pro-Boers on the continent and in England are charging the British army with conducting an inhuman campaign. This is the opinion of the English press, which has united in condemning the military arrangements for keeping the country in ignorance of the real nature of the war.

**SHIPPING TIED UP.**

Freight Handlers at Port Coster Go Out.

Port Costa, Cal., July 16.—Four hundred men who handle freight in the warehouses here have gone on strike. Work in all the warehouses from Nevada dock to Crockett, as well as the Crockett Sugar Refinery, is at a standstill.

President Shaffer stated that there is one mill at Duncansville, Pa., working and that the Scottsdale and Old Meadow plants are still at work, but nothing was heard from Pittsburg.

J. R. Phillips, district manager of the American Tinsmith company, was asked today whether the company will attempt to start up the closed mills with non-union men. He said he did not know. Phillips was then asked whether any course of action had been decided upon at a meeting yesterday of the local managers of the three companies involved in the strike. That was a question, he replied, which he could not discuss.

A revised list of the plants of the three combinations affected by the strike, was prepared today, together with the number of skilled workers. In the mills of the American Tinsmith company twenty-five men are employed in three turns, in each as follows: Roller, rougher, doubler, doubler, helper, heater, heater's helper, catcher and screw boy and one sheerman, who does the work for three turns with two openers. Each mill's full quota of skilled men is twenty-seven. The tin combination employs at its twenty-two mills 1,200 skilled workers. Of this number 686 are on strike and 324 are working at the national works at Monessen. The corrected list of idle tinsmith mills is as follows:

Atlanta, 1; Lisbon, 6; Canonsburg, 5; Canonsburg, Pa., 5; Champion, Muskegon, Mich., 8; Crescent, Cleveland, 6; Cumberland, Md., 5; Cambridge, Cambridge, 6; Elwood, Elwood City, Pa., 6; Fairview, Fairview, Pa., 6; Pittsburgh, New Kensington, Pa., 6; Reeves, Canal, Dover, 6; Shenango, New Castle, 30; Union, 27; United States, McKeesport, 11.

The Amalgamated men employed on each mill in a sheet number 15, as follows: Roller, rougher, catcher pair heater, heater, heater's helper, catcher, sheerman, sheerman's helper, three openers and two lifters. Each mill employs 27 men.

The American Steel Steel company employs 4470 skilled men in its 169 mills. Of these 2200 are on strike and 2270 are working at fifty mills that have not been closed by the strike. The mills are: Leechburg, 6 mills; Saltsburg, 3 mills; Old Meadow, 6 mills, and Scottsdale, 3 mills.

The number of skilled men on strike is 2220, at the following plants: Cambridge works, Cambridge, Ohio, 7 mills; Canton works, Canton, Ohio, 6; Charlestown works, Charlestown, Ohio, 6; Denison works, Denison, Ohio, 4; Dresden works, Dresden, Ohio, 4; Falcon works, Niles, Ohio, 6; Hyde Park works, Hyde Park, Ohio, 6; Lauson works, Pauldon, Pa., 3; Midland works, Muncie, Ind., 7; New Philadelphia works, New Philadelphia, Ohio, 3; Piquette works, Piquette, Ohio, 3; Struthers works, Bridgeport, Ohio, 15; Valley works, Valley, Ohio, 6; W. D. Wood works, McKeesport, 15.

Amalgamated the sheet number 15, as follows: The American Steel Steel company there are 7000 skilled workmen, and all but 250, at the Duncansville plant, are idle. The plants that are working are: William Clark Sons & Co., Pittsburg; J. Painter & Sons, Pittsburg; Lindsay & McCutcheon, Pittsburg; Monessen Steel company, Monessen, Pa.; Union Iron & Steel company, Youngstown, Ohio, including mills at Youngstown, Warren and Millard, Ohio; P. L. Kimberley & Co., Sharon, Pa.; and Greenville, Pa.; Acme Standard works, Braysport and Mingo Junction, Ohio; Pomeroy Iron & Steel company, Pomeroy, Ohio.

At present, it is estimated that the unemployed labor in the various mills is close to the claim of 74,000 idle men made by the Amalgamated association.

**OUTLOOK BRIGHTER**

Condition of Affairs at Capetown Considered More Hopeful.

Communications Passing Looking to a Speedy Ending of War.

Views of Sir John Gordon Sprigg Before Vigilance Committee.

Capetown, July 16.—Sir John Gordon Sprigg, in the course of his address before the vigilance committee, expressed the opinion that the aspect of affairs was more hopeful today than at any time since the outbreak of hostilities. Communications were passing between Lord Kitchener and the Cape government regarding the best course to be taken with the view of bringing the war to a speedy close.

Mr. Sprigg was satisfied that such an arrangement would be reached between Gen. Kitchener and the Cape government, and that a very considerable improvement might be looked forward to in a short time. He believed that the Cape parliament would meet before the end of October, and was confident that the government would have sufficient authority to carry out any necessary measures. He said that a customs conference, including all the states and colonies of South Africa, would probably be called toward the close of the year.

Mr. Sprigg said he was entirely satisfied that so long as Lord Salisbury was in power there would be no shadow of anything in the nature of going back. He deprecated the suspension of responsible government, and the Cape government entirely sympathized with the announced policy of the imperial government. The Cape cabinet had been under the impression that the Cape government would have full authority to continue its support with full assurance that the imperial authorities would not vary their policy, which he understood was to wipe out the last vestige of republicanism in South Africa.

England, Mr. Sprigg added, had consulted the Cape cabinet in regard to the future of the Cape. The cabinet strongly held the opinion, which was shared by the imperial government, that there must be a period of military rule, followed by a crown colony government, for the new colonies. The Cape government received a large immigration. Federation must not be hurried.

**IN THE CHAIR.**

New York Murderer Electrocuted In One Minute, Five Seconds.

Auburn, N. Y., July 16.—Frank Wennerholm, the Chautauque county murderer, was put to death by electricity in the prison here today. The current was turned on in one minute and five seconds, and the man was pronounced dead. When he was pronounced dead, the current was turned off. The man was pronounced dead in one minute and five seconds. The man was pronounced dead in one minute and five seconds.

**FIRE AT WICHITA.**

Big Packing Plant In That City Destroyed.

Wichita, Kas., July 16.—Fire today destroyed the packing plant of Jacob Dold & Sons, in this city. Four large buildings were destroyed, together with about 7,000,000 pounds of meat in process of preparation. The loss is estimated at \$650,000; insurance about \$400,000. Four men were injured by a falling wall.

**WERE UNSUCCESSFUL.**

Burglars Attempt to Rob a Bank at Alexandria.

Columbus, Ohio, July 16.—Information has reached the police of this city that five men reached the bank at Alexandria, Licking county, early today. It is stated that they failed to reach the money in the vault, and that the explosion caused a large number of citizens to give chase. The robbers escaped in Columbus. Shots were fired and have been exchanged with the robbers.

**HIS DEFENSE.**

Governor of Benguet Province Writing a Statement.

Manila, July 16.—H. Phelps Whitmarsh, governor of Benguet province, was recently ordered to Manila for investigation of certain charges against him, is writing a statement to the United States commission, denying some and making confession of others. He is also writing a statement to the United States commission, denying some and making confession of others. He is also writing a statement to the United States commission, denying some and making confession of others.

**BLEW IN VAIN**

Fifty Thousand Did Not Answer Call to Work.

Big Strike In the Anthracite Coal Region.

Wilkesbarre, Pa., July 16.—The strike of the stationary firemen inaugurated today has tied up nearly all the mines in the Wyoming district, and a conservative estimate places the number of men and fire bosses, who will be employed as firemen for the time being. This is necessary in order to keep the pumps running and the mines free from water. At some of the collieries hoisting engineers, who were asked to work with the new men refused and quit their posts. The Delaware & Hudson company has two mines working, and the officials say they have enough firemen to keep the pumps running.

Several manufacturing concerns gave in to the demands of the firemen today, among them the Wilkesbarre Laclede company, employing 1200 hands, and the Hazard Rope works, employing 1000 men. The Wilkesbarre and Wyoming Valley Traction company officials told their firemen to go to work at the increase.

President Mulhally of the state association told the Associated Press correspondent that up to 10 a. m. he had received reports from the entire Wyoming district of the anthracite region, and only five collieries were working.

President Mulhally estimates that 50,000 men are idle. The coal companies have pressed into service their foremen and fire bosses, who will be employed as firemen for the time being. This is necessary in order to keep the pumps running and the mines free from water. At some of the collieries hoisting engineers, who were asked to work with the new men refused and quit their posts. The Delaware & Hudson company has two mines working, and the officials say they have enough firemen to keep the pumps running.

When the whistles blew at 7 o'clock for work the firemen refused to report for duty, and orders were then issued by the superintendents to close down. The striking firemen thereupon returned to their respective headquarters, where they held meetings and discussed the situation.

When the whistles blew at 7 o'clock for work the firemen refused to report for duty, and orders were then issued by the superintendents to close down. The striking firemen thereupon returned to their respective headquarters, where they held meetings and discussed the situation.

President Mulhally of the state association told the Associated Press correspondent that up to 10 a. m. he had received reports from the entire Wyoming district of the anthracite region, and only five collieries were working.

President Mulhally estimates that 50,000 men are idle. The coal companies have pressed into service their foremen and fire bosses, who will be employed as

**Oxford Shoes**—The most perfect fitting and durable shoes on the market.

### THEATER TICKETS FREE.

Reserved seat tickets for the Gipsy Stock Company at the Sixth Avenue Theater FREE to all purchasers of one dollar's worth of merchandise at our store.

## SEVERAL ARRESTS

**One Man and Seven Small Boys Are In Custody.**

**Are Charged With Stealing Brass From a Warehouse.**

**First National Bank's Old Fixtures - Formed the Prey.**

The robbery of a warehouse of bank fixtures resulted in the arrest of one man and seven small boys today.

When the First National bank was remodelled the brass fixtures were stored in Culver's warehouse down on the Lake avenue slip. About ten days ago a window of the warehouse was broken open and brass and fixtures of considerable value stolen.

Detectives working on the case were unable to get a clue as to the robbery until a day or so ago, when the brass began turning up through the various junk shops throughout the city. Even then the work was so clever that it was hard to locate the person that did the stealing.

Suspicion pointed rather strongly to James J. Schube, a man who had served time in St. Cloud and Stillwater for forgery a few years ago.

Schube was taken in custody last evening, and from his conversation the detectives came to the conclusion that a

number of small boys had a hand in the stealing, too.

They then arrested Olaf Olson, aged 15; Frank Schube, 10; Carl Wilson, 13; Adolph Wilson, 15; Charles Walker, 13; Martin Abrahamson, 12, and Charles Finks, 12 years of age.

When James J. Schube was arraigned in police court on a charge of grand larceny he demanded an immediate examination, and the court held him in the sum of \$250 bail for appearance on Friday.

The young boys were arraigned on a charge of petty larceny and their hearings will take place tomorrow afternoon.

## RUNAWAYS. IS BROKEN.

**Flies Are Causing Them Hot Spell Is Over—Was 108 at Marquette Monday.**

The police are taking extra precautions against runaway teams. The flies have become so troublesome that horses left standing along the street are usually restless and the "weights" used for hitching purposes don't seem to stop them from running away.

This morning about 10 o'clock there was a runaway on Lake avenue which resulted in fatal injuries to a valuable gray horse belonging to the Duluth Iron and Metal company. The team was going south with a load of iron rails. The flies were bothering the horse and in fighting his tormentors the horse broke his leg up against the wagon, crushed its leg up against the iron, and the driver lost control of them and they crashed into a building.

The driver lost control of them and they crashed into a building. The driver lost control of them and they crashed into a building. The driver lost control of them and they crashed into a building.

The driver lost control of them and they crashed into a building. The driver lost control of them and they crashed into a building. The driver lost control of them and they crashed into a building.

The driver lost control of them and they crashed into a building. The driver lost control of them and they crashed into a building. The driver lost control of them and they crashed into a building.

# LOST MANHOOD

Is the Cause of Your Trouble.

Stricture Painlessly Removed.

It matters not how long you have suffered from Stricture nor how many different doctors have disappointed you, we will cure you just as certain as death. Our treatment is new, entirely original with us and perfectly painless. It completely dissolves the Stricture and permanently removes every obstruction from the urinary passage. It stops every unnatural discharge, always all inflammation, reduces the prostate gland when enlarged, cleanses the bladder and kidneys, invigorates the sexual organs and restores health and soundness to every part of the body affected by the disease. Back number doctors will tell you it cannot be done, because they do not keep up with the times. Come to us and we will prove, in your case, that it can be done.

## This is the Way You Feel.

There is a pain in your back, blue rings under your eyes, specks before your eyes, sight blurry, head aches, bad taste in mouth, sour risings from the stomach, no appetite, can't sleep at night, bad dreams, losses in sleep, fearful, expecting the worst to happen, tired, weak, nervous and tremble, poor memory, no ambition, hate work, have dizzy spells on getting up in the morning, dislike of ladies society, prefer to be alone, sometimes seized with thoughts of suicide.

## You Need Treatment

That will correct all of the wrongs in your system, tone up your nervous system, strengthen and invigorate your sexual apparatus and fully restore you to the vigor of perfect manhood. We guarantee to cure you. Write, if you cannot call.

### Varicocele and its New Cure.

Whatever may be the cause of Varicocele its injurious effects are too well known for extended comment. Suffice to know that it depresses the mind, weakens the body, racks the nervous system, and ultimately leads to a complete loss of sexual power. If you are a victim of this dire disease, come to our office and let us explain to you the process of treating it. You will then not wonder why we have positively cured hundreds of cases of Varicocele during the past twelve months. Under our treatment, all pain instantly subsides, the venous blood is forced from the dilated veins, which rapidly assume their normal size, strength and soundness. All indications of disease and weakness vanish completely, and in their stead comes the pride, the power, and the pleasures of perfect health and restored manhood.

### Contagious Blood Poison Cured Forever.

On account of its hideousness, Blood Poison is commonly called the King of all Venereal diseases. It may be either hereditary or contracted. Once the system is tainted with it, the disease manifests itself in the form of scrofula, eczema, rheumatic pains, stiff or swollen joints, eruptions or copper-colored spots on face or body, little ulcers in the mouth or on the tongue, sore throat, swollen glands, falling of the hair or eyebrows, and finally a leprous decay of the flesh and bones. If you have any of these or similar symptoms you are cordially invited to consult us immediately. If we find your fears are unfounded, we will quickly unburden your mind. But if your constitution is infected with poisonous virus we will tell you so frankly, and show you how to get rid of it. Our special treatment for Blood Poison is practically the result of our life work.

# Progressive Medical Association,

No. 1 West Superior Street, Cor. Lake Avenue, Duluth, Minn.

Consultation in Person or by Letter FREE. Office hours—8 a. m. to 8 p. m. Sundays—10 a. m. to 2 p. m.

NOTE—We guarantee to cure every case treated, and give each patient a LEGAL CONTRACT to hold good to our promise. No other specialist in the Northwest will do this. Bank and commercial references cheerfully furnished.

## BIG CORPORATION.

Oil Cloth Company Capitalized at Ten Million.

New York, July 16.—Official announcement of the organization of the Standard Oil Cloth Company was made

here today. The company is capitalized at \$10,000,000, and will take over large plants in Buchanan, N. Y.; Passaic, N. J.; Newark, N. J.; Akron, Ohio; Youngstown, Ohio and Norristown, Pa. The officers of the company are: Henry M. Carlick, president; G. M. McKelvey, first vice president; George H. Hughes, second vice president; Alvin Hunsicker, secretary; F. H. Schmidt, treasurer.

## KICKS ARE ENTERED

Property Owners Object to Increase in Their Assessment.

A. Ammerman Expresses His Opinion of Newspaper Reports.

F. R. Webber and Harry Roberts Also File Objections.

The men whose personal property assessments were raised by the city board of review are beginning to appear before the county board of equalization and register objections to the assessments that were levied by the city board under the head of stocks and bonds. It will be remembered that the city board got hold of some of the men that were reputed to have made heavy hauls out of Consolidated stock and put their assessments up considerably. A. Ammerman was one of these, \$50,000 being added to his assessment. He was up before the board this morning to complain, and he said that he sold all of his stock before May 1, the day when the assessment was supposed to be made, and that the proceeds were all placed in other states before the assessment was made. He said that his first assessment of \$324 was about right. Also, he said that when he asked Mayor Hugo what authority the board had for raising his assessments, the mayor answered that it was from newspaper reports. According to Mr. Ammerman, he then asked the mayor if they would hang a man on newspaper reports, the mayor coldly answered that he thought they would.

Furthermore, Mr. Ammerman volunteered the belief that there was very little reliability in newspaper reports. His point, like the other that came in this morning, will be taken up tomorrow afternoon. F. R. Webber, who was assessed for \$40,000, presented a complaint dated in Boston, in which he said that he sold most of his Consolidated stock in April, and for the balance he received fifty shares each of common and preferred United States Steel company stock. He says that he is a resident of Boston and expects to remain there, that he has his steel company stock with him, and that out of the proceeds of the sale of his stock he has only about \$500 on hand. T. T. Hudson will appear for him, and the matter will come up tomorrow afternoon.

Harry Roberts is aggrieved by an assessment of \$5,000 that the city board made upon his holdings, but the matter did not formally come before the board this morning, and he said he would appear for him, but it was found that in some manner the \$5,000 raise of the city board has so far failed to get on the county's books. It will be looked into and placed on the books and then Mr. Roberts' objections can be made. He claims that he had no notice of the raise whatever. The board met yesterday afternoon, with all of the Duluth members present and all of the range members absent. Commissioner Berdie came down yesterday afternoon and was present today. Commissioner Patterson was made chairman of the board of equalization. An adjournment was taken to tomorrow afternoon.

MANY IN ATTENDANCE. Cripple Creek, July 16.—The twelfth annual meeting of the trans-Mississippi congress opened today at Cripple Creek hall with nearly 1000 delegates in attendance.

THE TRIAL PLATE. London, July 16.—E. Corrigan's Sea Flower (Clon) Thorpe won the triplate on the first day of the second July meeting at Newmarket today. Richard Croker's Joe Ulman (L. R. R.) was second and Ar West finished third.

## LIBRARY MEETING

Miss Poirier Tells Something of the Waukesha Convention.

A Session Full of Entertainment and Valuable Experience.

Congressional Librarian Putnam Gave Some Advice.

Miss Lydia Poirier, librarian of the Duluth public library, returned last week from Waukesha, Wis., where she attended the twenty-third annual meeting of the American Library association. The meeting opened at Waukesha July 3 and lasted until today, although the real business of the association closed Wednesday evening, July 10. After that some of the librarians left Waukesha for Detroit on a library inspection tour, the visitors taking in the Pan-American exposition at Buffalo. Miss Poirier reports a very pleasant trip and says that the meeting was one of the most successful that the association has ever had, 425 people being in attendance. The first session was held Wednesday evening, July 3, at the parlors of the Fountain Spring house, where informal proceedings were gone through, and the friendly greetings exchanged. On the morning of the Fourth the American Library association council held its annual breakfast, and in the afternoon the reunions of the various library associations took place. In the evening Henry J. Carr, the librarian of the Scranton Public Library and the president of the association, gave the president's address, after which three addresses in "What May Be Done for Libraries by the City, by the State and by the Nation," were heard. A general session was held Friday morning and the reports of the various committees received. On the afternoon of July 5 simultaneous meetings were held in the National Association of State Librarians and the Children's Librarian section. Saturday morning, July 6, a general session was held, and in the afternoon the meetings of the trustees' section, the section of the library of the future, and the section of the children's Librarian section took place. Saturday afternoon an entertainment was given, and Sunday afternoon a concert at one of the spring parks was given, complimentary to the visitors on the part of Senator A. M. Jones.

July 8 a trip was made to Madison, Wis., where an opportunity was given the librarians to visit the Wisconsin State Historical Library building, which was recently completed. The building cost \$600,000, the contracts being awarded four years ago, when prices were at a low ebb, so that it probably cost more than \$1,000,000. The building is constructed of buff Bedford limestone and is built on the foundations of an old building, being one of the most beautiful library buildings in the country. A visit was also made to the new building, which the librarians are to see the library building at that place.

Miss Poirier said that one of the most interesting sessions during the meeting was that of the children's librarians' section, in which the subject of children's libraries was fully discussed. "We are going to have a children's room in our own library when we move into the new building, and will make them one of the features of the institution," said Miss Poirier. "The Librarian of Congress, Mr. Putnam, was at the meetings, and said he thought the government would do more in the future for the libraries than it has done in the past. A great expense could be saved the libraries if it were the case; for instance, if all of the catalogue cards were printed at one point. Mr. Putnam advised the librarians to do as much as they could for the libraries, and to be willing to use all possible influence to push bills through the legislature promoting library interests." July 10 the election of officers for the coming year was held. Dr. John S. Billings, of the Library of New York, was elected president, and the rest of the officers re-elected. The entire meeting was an exceedingly interesting one and visitors were present from all parts of the United States and Canada.

## STRIKE A TROT

down the street and everybody is curious to know "what's up." The gait maintained by "us in Piano selling is speedy. We "sprint" with enthusiasm and vigor—and no wonder, with Pianos like the

## DISCONTENT

Manifest in an Unimportant Vote in House of Lords.

London, July 16.—The government sustained a defeat in the house of lords today which, although quite unimportant in itself, was indicative of the growing discontent. The incident arose from the question whether a model of the new war office should be made and exhibited. Lord Lansdowne, the foreign secretary, refused to entertain this proposition, but on division the motion was carried, 41 to 30. The announcement of these figures was greeted with prolonged cheers.

## GRIFFIN LANDED AGAIN.

Was Found Drunk on the Bowery.

Morris Griffin, the former alderman who slipped away from the county jail Saturday evening, abusing the trust that had been imposed in him, was found on the Bowery yesterday and taken back to jail. He had been putting in his liberty to good advantage from his point of view, and was successfully and completely intoxicated. He is back at work now on Benson's boulevard, shoveling gravel, and he will be there until his time expires.

## CHAPMAN RECOVERS.

Will Participate in Convention in Indiana.

Warsaw, Ind., July 16.—Rev. J. Wilbur Chapman, who has recovered from his illness, will deliver the address of welcome at the national convention of young people of the United Presbyterian church, to be held here July 24-28. Rev. Dr. J. K. McClurkin, of Pittsburgh, will respond, and among others who will make addresses are Rev. Dr. Joseph Kyle, Xenia, Ohio; Rev. C. F. Wishart, Allegheny, Pa., and Rev. Dr. Crafts, of Washington, D. C.

Each evening at sunset hillside meetings will be held under the direction of Dr. Chapman. Rev. W. W. White, D.D., of Calcutta, India, will conduct a class in the study of the Bible at 11 a. m. daily.

Sunday morning, July 28, the last day of the gathering, the sermon will be preached by Rev. Dr. R. M. Russell, of Pittsburgh.

Besides delegates to the number of 2500 from all parts of the country, members of the Christian Endeavor and other church societies have been invited, and at least 5000 persons are expected.

## A Great Treat For the Children.

Gentry Brothers consolidation of their famous shows, with its multitude of special features, will be a great treat for the little folks. This exhibition, which has always catered to them, makes a special bid for their patronage. Many new acts have been arranged, and all of the old favorites have a new specialty to present. An entire herd of baby elephants appear in a side-split-

\$1.25 Waists of white lawn with vertical stripes of lace insertion between clusters of tucks down the front—Waists with broad sailor collar of fancy White Goods—including lace and hemstitched effects body of fine white lawn—4 styles to select from at \$1.25.

\$1.25—Natural linen color Waists—have wide sailor collar—with fancy colored Polka Dots—Red, Green, Blue, etc.—some have white band about edge of collar—and white tie—others all linen collar—also in fine colored lawns, with P. K. Vests—4 styles—\$1.25.

75c—A magnificent assortment of colored waists—such as are sold in other stores at \$1.00 and \$1.25, including the swell sailor collar effects and the new percale and madras Waists with insertion and tucking—about eight other styles—all on one table—choice at 75c.

\$1.00—The commonest price for the most uncommon sort of Waists—Every store has a \$1.00 Waist, but none of them put such excellence of material and style of make into them as we do—Percales, Madras, White Lawn and White Waists of all kinds—a lavish array at \$1.00.

## FABRICS FOR WASH GOWNS AT STOCK-REDUCING PRICES.

Scissors and yard-sticks were merrily busy today. These prices upset all calculations of economy—you find yourself choosing two dresses at the price of one—and the dresses you had considered quite out of reach—you can have now and have something left for another.

35c Corded Gingham, silk and mercerized stripe Gingham, all our 50c Gingham in the beautiful summer shades and patterns that will make up into the most fetching frocks—only 35c.

15c Linen Crashes in stripes and plain, fancy and solid colors—regularly 20c and 25c.

18c for 35c and 25c Imported Irish Dimities—the cool, beautiful stuffs that have sold so well at 25c and 35c. Even if you have gowns enough for the summer—it would pay you to anticipate a season's wants at this price—18c.

7½c for 15c Percales—36 inches wide—good fabrics—stylish, broad stripe patterns in pink, blue, lavender, etc. Think of a 36-inch Percale at 7½c.

12½c for 15c Figured Dimities, 30 inches wide, very handsome patterns.

3½c for 6c Shirting Prints, in good shape—check and fancy patterns.

## Stock Reducing Prices on MUSLIN UNDERWEAR

79c for \$1.00 Kimonos of excellent white lawn with yoke and edges of pink and blue—ideal for this weather, the coolest garment possible. Reduced from \$1.00 to 79c.

48c for Muslin Petticoats with deep Cambric flounce, trimmed with cluster of tucks—we haven't seen its equal under 75c.

\$1.38 for petticoats in 6 styles—including the newest colored ruffled effects and the handsome lace and insertion trimmed skirts, beautiful petticoats of fine muslin and cambric, such as are seen elsewhere at \$1.75 and \$2—here only \$1.38.

## Strictly Summery Gowns.

\$1.25 for the new low neck and short sleeve gowns of fine nainsook, delightfully trimmed with lace and insertion—embroidery and tucks.

75c—Gowns of good Cambric and Muslin, V neck, square neck, cut high or low, tastefully trimmed in embroidery, lace and insertion; tucking, etc.

88c—Six styles of handsome gowns, square yoke with Bayadere insertion and clusters of tucks—also low neck, Bertha, Empire and other styles—we think they are good \$1.00 values.

## Summer Corsets.

50c—in three styles, Empire, short hip, long hip, of excellent fancy nets, all on one table at 50c.

75c for \$1.00 Empress Corsets, two styles, batiste, coutel and satine.

\$1.00 for \$4 "Her Majesty's Corsets", small lot being closed out at this special price.

25c—Children's Skeleton Waists, the only comfortable garment for the little ones in hot weather, ages 3 to 10 years, 25c.

## JUROR ILL.

Parkburg, W. Va., July 16.—Introduction of testimony by the prosecution in the trial of Billy Glenn was checked today by the illness of a juror. It is expected the trial will proceed this afternoon.

Juniper Ale is the best family beverage.

## To parry sol—buy a parasol.

WE HAVE parried half the prices on all the fancy colored parasols and you buy them this week at half prices. We do this in order to parry any possibilities of carrying over any goods until next season. We think they will be pretty nearly all sold by Saturday night. They ought to all go. A few of the prettiest ones are these:

Pale blue satin, Dresden pattern, with deep tucked hemstitch border—price until this week \$8.50—now \$4.25

Ladies' Silk Parasols with ruffles, trimmed with fine Valenciennes lace—price last week \$4.75—price this week—when you need them most—\$2.38

Ladies' Taffeta Parasols—made of very fine silk, plain colors with golf tips and handles. A very swell, stylish Parasol, price all the season until this week \$4.75—now \$2.38

Ladies' all-silk Parasols, with deep chiffon ruffles, fancy colors \$1.13—price all season \$2.25—now half price.

Ladies' plain Taffeta silk parasols, with ivory tipped handles, assorted colors—a splendid \$3.25 Parasol—now half price \$1.63

Children's handsome ruffled Parasols, all lace trimmed, selling at the season until this week for \$2.50—going rapidly now at half price \$1.25

Children's colored silk Parasols, fancy borders—season's price \$1.98—now—99c

Misses' white all-silk Parasols, with colored borders—former price \$1.75, and a splendid Parasol it was for the price—but we don't keep back any of the good things—they all go at half price—88c

Bargain Counter 4 all this week—aren't they cheap?

## Mines at Murphy's Camp, Calaveras County, California.

Beatrice 10-Stamp Mill.

The second series of Beatrice Gold Mining Company stock is now on sale at the office of the company, 4 Exchange Building, Duluth, Minn., at

**PER SHARE 50c PER SHARE**

payable in ten equal monthly payments of 5c per share, or at 45 cents per share all cash with application.

A new and promising vein has been cut in the tunnel, that adds great value to the property.

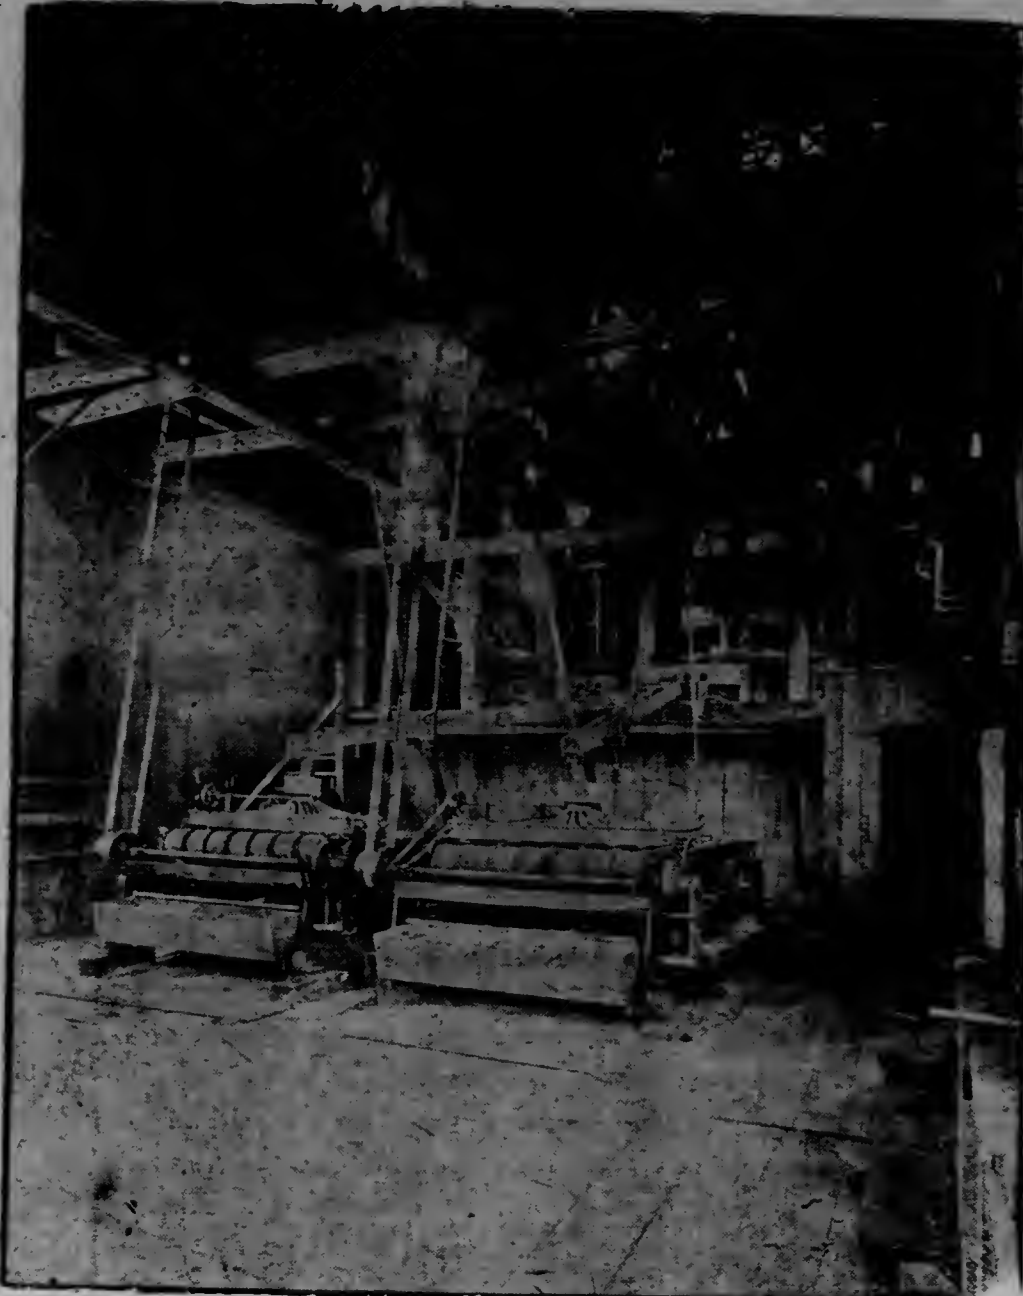

The company's mines are in a good stage of development, the mill will be in operation within three weeks, with ten stamps running, the ores are rich, and veins strong and permanent. 700,000 Shares of the stock (Par value \$1.00) will be left in the Treasury after present series has been sold.

## Do you realize the value of this stock as an asset?

Our consulting engineer says the mine will easily produce ten to twelve thousand dollars per month net as soon as the tunnel is completed.

A Duluth corporation, managed by Duluth men, with magnificent prospects. Get the best—Beatrice Gold Mining Stock.

**MARCUS W. BATES, Agent.**

Inside View of Beatrice Stamp Mill.

## DID NOT COME UP

New Court House Question Not Raised at Board Meeting.

Sentiment Has Been Found Mixed on the Subject.

Some of the Plans Which Have Been Thought Of.

One feature of the July meeting of the board of county commissioners that was advertised in advance was omitted. That was the report of the members of the board as to the sentiment in their respective districts on the question of having a special election this fall on the issuance of bonds for a new court house. This was left out partly through inadvertence, and partly because there was some opposition to the project on the board, notably that of Commissioner Patterson.

The question on which the commissioners were to canvass sentiment was not whether or not a new court house should be built, but whether a special election on the bond question should be held this fall. As to the question whether the matter should be determined at a special election or a general election, the members of the board would probably agree on a special election, because it is difficult to get anything like a proper idea of public sentiment on such a matter at a general election, when the people are usually worked up on other things to such an extent that bond matters are lost sight of.

The sentiment on whether or not a new court house should be built was found to be considerably mixed. There are strong reasons why a new court house is needed if the county feels able to build it, but there are a large number of people that do not believe that the county can stand it for awhile yet. The old court house is a disgrace, and it is wholly inadequate. It is leaky and from now on a large sum will have to be spent every year in repairs. But it will be possible to get along for awhile longer, and many of those who have discussed the matter at all say

## Your Liver

Will be roused to its natural duties and your biliousness, headache and constipation be cured if you take

## Hood's Pills

Sold by all druggists. 25 cents.

that this should be done. The only way the county board can get anything like a unanimous consent to build a court house will be to raise the assessment on the property so that they will stand a very much larger proportion of the county taxes than they do now. Then the interest and sinking fund levies will fall more lightly on the people of Duluth and the householders and business men of the ranges.

County Auditor Halden believes that when preparations are being made to build a court house no bonds should be issued, but that levies should be made for several years in succession that will build up a fund out of which the court house can be constructed. Thus all interest charges, which are a heavy item, will be saved.

Commissioner Kugler has another plan. He believes that it will take too long to raise money that way, so he proposes to issue the full amount in bonds, and have a clause providing that the bonds are payable at the option of the county in five years. Then a large sinking fund levy may be made, and all or part of the bonds retired in five years.

None of the county's bonds at the present time have that clause, or it would be possible to refund some of them at lower rates of interest. Some of the bonds are drawing 5 and 6 per cent interest, and if they were payable before maturity it would be possible to refund them at 3 1/2 or 4 per cent.

The demand for St. Louis county bonds will be found to be heavy, and they can be disposed of to good advantage. This was shown by the number of letters that were received from bond buyers when it was reported some time ago that bonds for a court house were to be issued.

## TO IMPROVE.

Considerable to Be Spent at the Ship Yards.

Fifty thousand dollars is to be expended at once on the Superior yards of the American Shipbuilding company. Arrangements have just been completed, and the work will begin at once. There will be no additions made nor will any of the present shops be enlarged, but the money will be spent in more thoroughly equipping the present plant.

A large part of the money will be used for repairing the old dry dock. This dock has been badly racked by the frosts, and in several places the frost has forced the walls inward. Until recently the gate has leaked badly, but this has already been repaired. It is much more economical to use this smaller dock in preference to the larger one, as it can be emptied easier and in less time, besides it is large enough to hold almost every boat that enters the port. However, a good share of the time this season both docks have been kept busy, and it is expected that even when the old dock is again in good shape, the larger one will be used as much as ever.

Besides repairing the dry dock, new machinery is to be installed in the different shops, so that when the contemplated work is all done this will be one of the best shipyards on the great lakes.

WETMORE'S GELATINE  
Granulated or shredded; 50 cents at all grocers

## WASTED NO TIME

Heat Causes Aldermen to Rush Their Business Through.

Debate Over Whether There Is Gambling at a Saloon.

London Road Owners Would Discontinue Sprinkling.

The city council held a shirt sleeve session last evening. It was a very warm night and the city fathers put the business through with a rush and adjourned at a comparatively early hour. One of the interesting features of the evening's proceedings was a little tilt between Alderman Trevillion and Alderman Schaffer over the question of licensing of Ed La Chance's saloon at 208 West Superior street.

Alderman Trevillion opened the discussion when the matter came up for a vote by stating point blank that he was opposed to granting a license at the location where there "is a saloon, music hall and gambling room." Alderman Trevillion was very positive that there is gambling at the place, and declares that he knows gambling when he sees it.

Alderman Schaffer took exception to the broad statement of his colleague regarding the gambling, and defied any member of the council to prove that any gambling goes on at La Chance's, or that the place is not being run on a strictly moral basis. Alderman Trevillion thought that if there was any question about the matter it should be investigated by the police department. Alderman Moore thought that an alderman's word was good enough, and he wanted to act on the license last night, but it was finally laid over until the next meeting.

The council last night took the preliminary steps toward anticipating the tax levy for this year by the introduction of an ordinance by the finance committee authorizing the issuance of certificates of indebtedness for \$15,000, to be payable Dec. 30, 1901. The purpose is to realize funds to replenish the public works fund. The council finance committee believes that \$15,000 will carry the public works department through the year. The certificates will be in anticipation of the 1900 tax collections, and when next year's levy is made the additional \$15,000 will have to be taken care of or there will be a shortage. By resolution passed last evening, the board of public works is directed to make a detailed statement of all improvement work which will be necessary during the balance of the year. The board is requested, first, to make an estimate of the amount that should be paid out

under the permanent improvement fund, and second, an estimate of the cost of repair to the streets, sewers, bridges, viaducts and sidewalks. The report is expected by July 23.

A resolution was made to appointments last evening to fill vacancies caused by resignation. A. F. Stewart, of West Duluth, succeeds H. E. Patterson on the board of health. John C. Taylor succeeds E. C. Little on the civil service commission. B. F. Howard succeeds W. E. Wagner on the labor and employment commission, and S. Wenberg was appointed soundmaster in the first district.

The finance committee's reports and the resolution for an appropriation of not over \$1500 for the establishment and maintenance of the free labor employment bureau was tabled until the next meeting, a passage of the resolution being first defeated by a vote of 9 to 5.

The contract for repair work of the boiler at the city hall was awarded to the George Steam Boiler works at \$25. L. H. Ryan, chairman of the general committee of the Duluth & Iron Range railway employees, extended to the council an invitation to attend the annual picnic of the railroad men at Lester Park on July 20.

A report of the board of public works, recommending the construction of a sanitary sewer on Fifth street, from Twenty-third avenue east to and including connection with the sewer on Eighteenth avenue east. The report

No one needs to be told to try to cure a cough. But any one will be glad to be told of a means of cure which will be thorough and lasting. Dr. Pierce's Golden Medical Discovery is a medicine which can be confidently relied on to cure diseases of the organs of respiration. It cures chronic, deep-seated coughs, bronchitis and bleeding of the lungs. It cures when nothing else will cure, and the local physician says: "There is nothing more that we can do."

There is no alcohol in "Golden Medical Discovery," and it is absolutely free from opium, cocaine, and all other narcotics.

The dealer, tempted by the little more profit paid by less meritorious medicines, will sometimes try and sell a substitute when the "Discovery" is asked for. No substitute medicine will satisfy the sick like "Golden Medical Discovery," and it always helps. I almost always cure.

"Two years ago a severe cough started on me and I was also bothered with catarrh," writes Mr. F. Skid, of Dunwoody, Chicago, Ill. "I could not sleep nights, as the cough was worse at night. I tried many remedies, but to no avail, until a year ago when I read of Dr. Pierce's Golden Medical Discovery. After taking eight bottles of Dr. Pierce's Golden Medical Discovery, and at the same time using Dr. Sage's Catarrh Remedy, I am well again, and I thank Dr. Pierce for my good health, and will recommend his medicines to any one suffering from the same trouble."

Dr. Pierce's Pleasant Pellets cure constipation.

was referred to the committee on drains, sewers and parks.

A resolution was made to the council by the board of public works that the claim of W. Ignasiak for \$125 for alleged damages caused by flood and due to the alleged defective construction of an alley, be not allowed. The board in favor of that part of the water doing the damage to the premises came from the roofs of adjoining buildings. This was the first claim made against the city after the recent storms. The report was last evening referred to the council committee on drains, sewers and parks.

By resolution passed last evening, the sealers of weights and measures have permission to remove the scales on Garfield avenue to such a point as he may select on Superior street. Resolutions were also passed for 10 and 14-foot walks on Fifth avenue west, below the railroad tracks and to the dock.

The Clearmakers' union has been granted permission to erect an advertising sign between the city hall and police headquarters, providing the display is a good one and a clock is put in according to agreement.

Licenses were granted the following: Erick Person for a saloon at 1612 West Superior street; Peter Quinn, for an employment office at No. 3 Fifth avenue west; Alex. Carlson, for an employment office at 526 West Superior street; A. H. Polinsky for a second-hand store at 511 West Superior street; Louis Christensen and Alex. Longmair, for an employment office at 17 Fifth avenue west; Henry Reinfield, for a saloon at 232 Lake avenue.

The council approved of the action of the board of public works in awarding the cement and tile sidewalk contracts to Thompson & Dunlop, the lowest bidders.

A report presented from the board of fire commissioners stated that its estimate for the department expenses the coming year is \$95,336. Attention was also called to the need of a fire tug, to cost about \$40,000, with \$4000 for maintenance, and \$14,000 for two new fire boats to replace Nos. 4 and 6.

A petition was presented by thirty-five taxpayers, asking that the sprinkling on London road, between Fortieth and Sixtieth avenues east, be discontinued and save the petitioners unnecessary expense, as they regard sprinkling as useless with the present condition of the road.

## TO OUST THEM

W. D. Willard Begins Suit to Clear His Ground.

W. D. Willard, owner of property on West Second street upon which it is proposed to locate Lerch's livery barn, has brought suit in the municipal court to cause the removal of certain dwellings now located on the property.

Unlawful detainer proceedings have been begun against John Bernier, John Benzo and Padriotti Fortunato, who claim to hold the property by virtue of a recently executed three-year lease. It is reported that the Italians are backed by other property owners of the neighborhood who are opposed to having the livery barn in that district.

Under the terms of the lease made by Mr. Willard with the three Italian tenants the lease could be set aside by him on forty-five days' notice and on a payment of \$30.

Bernier is making the strongest fight, he claiming that he has a right to the property for three years and that he has paid and Willard has accepted a

year's rent in advance. The case will come up for hearing on Friday.

## STRUCK A HOUSE.

Lightning Entered the Home of E. Wakefield.

The residence of E. Wakefield of 613 Nineteenth avenue east was struck by lightning yesterday afternoon about 5 o'clock. The bolt entered one of the upstairs rooms and passed out of the back of the house after tearing things all to pieces on the upper floor and descending to the lower floor. One bed room was a total wreck and the bedstead was a mass of kindling wood. There were four people in the room at the time and they, although shocked, rushed out of the house. Fire broke out in the dining room but people near at hand rushed to the rescue and put out the flames.

## WILLIAMS BOUND OVER.

Must Answer to Charge of Smuggling.

The hearing of H. Williams, clerk of the Bon Ami, charged with smuggling whisky into the United States, was held yesterday afternoon, before United States Court Commissioner Pressnell, and he was bound over to await the action of the grand jury at the October term of the federal court. He gave a bond in the sum of \$500 for his appearance at that time.

## A SUBSTITUTE.

Frozen Custard Takes Place of Ice Cream.

It takes more than a lack of cream to make an ice cream famine in Duluth. Although there was almost no sweet cream in the city yesterday, ice cream was nearly as plentiful as the hot weather and everyone had all of the cold refreshment that they could want. There are tricks in all trades and the ice cream business is no exception to the rule. As soon as it was seen that there was no ice cream likely to be brought into the city during the day, ice cream makers put on their thinking caps and by 4 o'clock all of the soda fountains were selling ice cream and good ice cream. It was frozen custard in this case and served the purpose for which sweltering Duluthians wanted it very well. It was cool and it was sweet and there was plenty of it. One firm got out more than 100 gallons of the stuff during the latter part of the morning and had its motor running all of the day freezing the custard.

The concerns in the city that supply the cream announced this morning that although they did not have quite as much cream as expected, they would have enough, so Duluth may resume her usual benign aspect since the hot weather has moderated and the ice cream famine broken.

## Gas Overcame Him.

A workman employed by Waterworth & Fee, the street contractors, while engaged in replacing gas pipes in front of Smith & Smith's drug store this morning, was overcome by escaping gas. He was pulled out of the excavation by his fellow workmen and restored after a short time.

## Medical Society Meeting.

The summer meeting of the Inter County Medical society of Wisconsin is being held at the West Superior hotel here, although it is not an organization with which Duluth men are connected. Some of the Duluth medical men will probably be present. The society is composed of physicians from the counties in the northern part of Wisconsin. Doctors from Eau Claire, Milwaukee, Menominee, New Richmond and West Superior will take part, reading papers on subjects of inter-

est to the medical fraternity. The local West Superior society will furnish entertainment and clinical material for the visitors.

Constipation neglected or badly treated, leads to total disability or death. Rocky Mountain Tea absolutely cures constipation in all its forms, 35 cents. Ask your druggist.

## Will Leave Duluth.

William M. Barrett, who has been in the newspaper business at the head of the lakes for a period of more than ten years, leaves tomorrow for a visit to his home in Le Sueur, Minn., after which he will take the management of the Lawler Window Washer company, with headquarters at Minneapolis. There is no more popular man in the city than Mr. Barrett and during the time that he has been in Duluth he has made a host of friends who will regret his departure exceedingly and will wish him all of the success in the world in his new field. Mr. Barrett has lately been at the head of the circulation department of the News Tribune.

## What Doctors Say.

Unsolicited Endorsement of a great physician has been given

Smith's Green Mountain Renovator.

The merit of SMITH'S GREEN MOUNTAIN RENOVATOR was searched into by physicians connected with the Journal of Health, New York City, in which the following article appeared, and so indisputably was its merit proved that this well known publication does not hesitate to endorse this great BOOY BUILDER. We will quote from Dr. S. J. Allen's article. He says:—

"The best way for a layman to insure his own protection in using proprietary medicines, is to depend upon the advertisements found in Hygienic Journals. Place faith only in such preparations as Smith's Green Mountain Renovator, as a sure cure for rheumatism, dyspepsia, kidney and liver troubles, bladder and urinary affections, and all diseases arising from an impure or impoverished condition of the blood. The commendation here bestowed on this tried and true specific is given gratuitously and on account of the satisfactory showing when under an investigation."

DR. S. J. ALLEN,  
New York City.

We have the Sole Agency for this medicine here and guarantee every bottle we sell.

## VERY SAD DOWNFALL

"Prince" Alfred Arrested  
In New York as  
Irresponsible.

Man Who Was Once Noted  
For His Immaculate Dress.

He Was Also Known as  
an Authority on  
Gastronomy.

New York, July 16.—Alfred Craggett, known fifteen years ago in all the principal hotels and restaurants in the city as "Prince" Alfred, because of the faultlessness of his dress and the elaborate courtesy of his manner, was locked up in the West Thirtieth street police station Sunday night because he was unable to take care of himself. He is now 69 years of age. All his former grandeur is gone, and there is hardly a trace about him of what he once was.

Coming from a good Southern family and graduating from a Tennessee college, upon his arrival in this city he entered a prosperous tea house in Front street, which was conducted by his father. In time he succeeded in the business and made money rapidly. He supplied tea to the leading hotels, and for many years lived at the Hoffman house, the Victoria and the Murray Hill hotel. He gave a great deal of attention to his dress, and his costume was always immaculate and of the latest style. He was also recognized as an authority on gastronomy, and his opinion was always received with respect.

Though his business yielded him an immense income, he spent it as fast as it came in, and when the business went to pieces he was left penniless. He then became a wine agent, and for a time he made a success of this, but finally this failed and he was forced to seek assistance from friends.

Frank Work carried him along until it became evident that assistance of this kind was doing him no good. About a year ago some of his friends raised a fund of \$2000 to send him to a sanitarium in Westchester county. He was discharged several months ago, and seemed to be much improved, but he soon lapsed into his old habits.

Although he fell into the habit of sleeping in the parks or wherever he could find shelter in case the weather was inclement, he still tried to keep up appearances, and would always be one of the hotels where he had been known in his prosperous days to arrange his toilet and dine. Many of the attendants knew him and were glad to do what they could to help him. Policeman George W. Fletcher, who the former "Prince" at Twenty-seventh street and Sixth avenue and took him to the station. He was arraigned on a charge of intoxication. The magistrate looked sadly on him and let him go.

**REFORMERS IN PRISON.**  
**Are Arrested on a Charge of Extortion.**

New York, July 16.—Frederick Bruce Russell, who sometimes writes "reverend" before his name, and who is president of the State Law and Order League, as well as editor of the State Sentinel, the organ of the league, was arrested on a charge of obtaining \$2 by means of extortion from Harnett Muller, a saloon-keeper. Henry A. Smith, a detective in the employ of the league, was also arrested on the same charge. The prisoners were arraigned in Essex market police court and held for examination in \$500 bonds each. They had been unable to obtain bail up to a late hour last night, and occupied cells in Essex market prison.

Russell has figured in the newspapers on many occasions, the last time on May 2 when he complained at the West Thirtieth street police station that he had followed Justice Jerome and Col. Robert Griener Morrow after they had raided several gambling houses in the tenderloin and had seen them drink whiskey in a broadway restaurant at 4 o'clock in the morning.

## NOTHING TO SAY.

**Trust Officials Refuse to Discuss Strike.**

New York, July 16.—President Charles M. Schwab, of the United States Steel corporation and the other officials of the company now here declined today to publicly discuss the strike situation. Mr. Schwab has been in conference with J. Pierpont Morgan and others, but no hint of their attitude or conclusions has been given to the public. It has been reported that there would be a general conference on the subject here, and also that there was a move afoot for the settlement of the strike, but confirmation or denial of the reports could not be obtained at sources of authority.

## OFF THE TRAIL.

**Robbers' Friends Fooled the Sheriff's Posse.**

St. Paul, July 16.—A Dispatch special from Malta, Mont., says: The various sheriffs' posses searching for the Great Northern train robbers have abandoned the chase and are returning home, only a few Pinkerton detectives and the posse guarding the southern boundary of the "Bad Lands" remaining. It is now believed that friends of the robbers circulated the reports of their supposed whereabouts, being surrounded, etc., for the purpose of throwing the officers off the trail.

## ORDER TO EXAMINE ACCOUNTS.

In the matter of the Estate of Samuel S. Walbank, Deceased.  
On reading and filing the petition of Kate Walbank as executrix of the estate of Samuel S. Walbank, deceased, representing among other things, that she has fully administered said estate, and praying that a time and place be fixed for examining, settling and allowing the final account of her administration, and for the assignment of the residue of said estate to the parties entitled thereto by law.

It is ordered, that said account be examined, and petition heard by this court, on Wednesday, the 7th day of August, A. D. 1901, at 10 o'clock a. m., at the probate office in the county court house, in the city of Duluth, in said county.

It is further ordered, that notice thereof be given to all persons interested, by publishing a copy of this order once in each of three successive weeks prior to said day of hearing, in The Duluth Evening Herald, a daily newspaper printed and published at the city of Duluth, in said county.

Dated at Duluth, Minnesota, the 16th day of July, A. D. 1901.  
By the Court,  
W. G. BONHAM,  
Judge of Probate.

(Seal of the Probate Court of St. Louis County, Minnesota.)

**JAPAN IS MAGNANIMOUS**

**Withdraws Her Request For Increased Chinese Indemnity to Aid Negotiations Which Seem to Be Thoroughly Blocked.**

Washington, July 17.—In a spirit which has aroused the keenest admiration of the state department, the Japanese government has met the difficulty growing out of the preference of her request for an increase of her indemnity by withdrawing that request. The result is a substantial loss to Japan. She asks originally for \$2,000,000. This figure was more moderate than any of the powers which played any prominent part in the Chinese campaign and represented the barest expense of the undertaking. It was fixed upon the idea that payment was to be made in cash by China. Confirmed with the loan payment, the Japanese government asked that her allotment be increased to \$2,000,000 in bonds to make good the loss she would suffer through the sale of the bonds. As soon as some of the other nations found that the allotment, as originally fixed, was in danger of being disturbed they came in with increased demands and thus it is that Japan, finding that insistence upon their demand will block the negotiations at this phase, has withdrawn her request for the present at least. It is safe to assume that the United States government will do what it can to secure compensation for Japan in some other way in the future.

Mr. Rockhill, our special commissioner at Peking, has been instructed to give the assent of the United States to the discussion of the proposition to increase the Chinese customs duties in order to provide means for the payment of the indemnity. Our government is still opposed to this project and the instruction is sent only in deference to the universal wish for a speedy conclusion of the negotiations at Peking. It is learned that the hitch in the negotiations, the most baffling that has yet occurred, is due entirely to the issue raised as to the increase of customs.

**STAND BY STRIKERS.**

**Workmen Will Not Handle Non-Union Productions.**

Elwood, Ind., July 17.—It was announced today that the Tin Plate Protective association will stand by the Amalgamated association and refuse to work plates in any "steel trust" mill made or sheared by non-union men. This announcement was made by President George Powell of the Tin Plate Workers' Protective association, who said: "We made agreement with the American Tin Plate company, which begins today and runs until July 15, 1902. This agreement we are legally bound to

respect. The Amalgamated is fighting for the vital principle of unionism, and this principle is worth fighting for. While we shall strive to live up to our agreement, we shall positively refuse to allow our men to work plates made or sheared by non-union men, if we know it."

**PENSIONS GRANTED.**

Washington, July 17.—The following pensions have been granted: Original—Melburn Parsons, of Buttram, \$6. Increase—Asa Peck, of Little Falls, \$8.

**NEW POSTMASTER.**

Washington, July 17.—(Special to The Herald)—J. N. Aday has been appointed postmaster at Swan River, Itasca county, vice W. J. Doyle, resigned.

**SCORCHING**

**Weather Is Still Torrid In Many Cities.**

**Deaths and Prostrations at St. Louis.**

St. Louis, July 17.—Today started in with every indication of being a scorcher. At 8 a. m. the government thermometer registered 84.

There have been several prostrations during the past twenty-four hours, and one death, that of Professor Bernhard J. Neumann, who for forty-two years acted as organist of St. Mary's German Catholic church.

Omaha, July 17.—Indications in this city are for another scorching day, with high humidity. The temperature at 7 a. m. was 71. Two prostrations are reported.

Showers were reported during the night in the South Platte district, breaking the protracted drought. In that section and lowering the mercury 15 to 20 degrees. Eight other counties in Central Nebraska also reported a fairly good rainfall, the heaviest being in Adams, Franklin, Kearney and Harlan counties, where an inch of rain fell.

of thirty-eight days. It is doubtful whether the rain came in time to do much good.

In Kansas City, at 10 a. m., the temperature was 84, with indications of light local thunder storms.

La Crosse, Wis., July 17.—The terrible heated spell, which has been sweeping over the state since a hot oppressive night, has been broken by a terrific rain and electrical storm this morning. The temperature has ranged between 82 and 97 degrees for a week. The rain will be a great benefit to crops in this vicinity which were on the verge of ruin owing to the dry hot spell.

Chicago, July 17.—At 10 a. m. today the temperature was 85, following a hot oppressive night.

A brisk southwest breeze is affording considerable relief.

Columbia, Mo., July 17.—Rain has been falling in Columbia and throughout Boone county since 3 p. m. yesterday. It has not yet reached sufficient depth to be of much value to crops. At the government station here a hopeful view is now taken of the crop situation.

Topeka, July 17.—Last night was the hottest of the season, with a minimum temperature of 85 degrees. The temperature at noon was 98. No rain fell in the city, although heavy thunderstorms prevailed twelve miles west.

**MANY MINES ARE IDLE**

**Almost a Complete Cessation of Mining Operations In the Lackawanna Valley Owing to Strike of Stationary Firemen.**

Scranton, Pa., July 17.—There was an almost complete cessation of mining operations today in the Lackawanna valley because of the strike of stationary firemen. Less than a half dozen mines managed by individual owners and the group of Delaware, Lackawanna and Western railroad mines in the West Scranton district were the only ones in satisfactory shape for running when the whistles blew this morning. The small owners had granted the 8-hour demand and their men at the Lackawanna mines refused to quit, being affiliated with the United Mine Workers of America and not with the Stationary Firemen's association.

Only six Delaware and Hudson collieries are in operation throughout the Lackawanna valley. The Erie Railroad company's mines, employing 12,000 men, located about Pittston, Avoca, Dunmore, Jermy and Forest City, are shut down today. A serious condition confronts this company at its Glenwood colliery at Jermy, where it had been fighting hard against a flood which has submerged all the workings and has reached nearly fifty feet up the shaft. All Ontario and Western mines, employing 7000 men in the Lackawanna region, are idle. With the pumps idle, the flooding of most of the mines is threatened.

**CHAMBERLAIN IS ANGRY**

**Sir William Vernon Harcourt's Pessimistic Speech In House of Commons on Boer War Aroused the Colonial Secretary.**

London, July 17.—In the course of debate on the financial bill in the House of Commons this afternoon, Sir William Harcourt (Lib.), criticised the government's financial policy, and said the persons believing the statement that the Boer war will fail after the termination of the year are living in a fool's paradise.

Sir William's remarks, which were throughout, undoubtedly pessimistic, drew angry interruptions from Joseph Chamberlain, the colonial secretary. The latter, in the course of his reply to Sir William, said that the situation in South Africa. He said nobody doubts the war is going to be a long one, but he said that he has been thoroughly beaten and shall have to retire to his private life. He said that the Boer war is a long one, but he said that he has been thoroughly beaten and shall have to retire to his private life.

**COGNIZANCE**

**Of Lynchings at Erwin Taken By the Italian Government.**

Washington, July 17.—The Italian government has taken cognizance of a recent attack at Erwin, Miss., in which it claimed two Italians were lynched and a third seriously wounded. The facts have been communicated to the foreign office at Rome, and the Italian embassy here has made representations to the state department. At the same time the Italian authorities are pursuing an investigation of their own through their consul at New Orleans and their consular agent at Vicksburg, Miss., which is not far from the scene of the alleged trouble.

**A MENACE.**

**American Boot & Shoe Competition In Austria.**

Vienna, July 17.—Deputy Bauman has been commissioned by the representatives of the boot and shoe trade to question the Austrian government as to what it intends to do with regard to the threatened invasion of the boot and shoe market by an American syndicate. The local boot and shoe men consider that American competition menaces the very existence of the whole local industry.

**CALL FOR CORONER.**

Des Moines, July 17.—A special from Glenwood, Iowa, says: County Coroner Whitman has been summoned to a farm near this place, where a man, whose name has not yet been obtained, committed suicide and fired his house. Three bodies are reported to have been taken from the ruins.

**HER BOW CUT OFF**

**Steamer Tremont of the Joy Line Is Badly Damaged.**

**Was Run Down By the Steam Yacht Wild Duck.**

**Passengers Were Removed In Safety By Passing Vessels.**

New London, Conn., July 17.—With forty feet of her bow cut clean off in a collision with the steam yacht Wild Duck, at midnight, the steamer Tremont, of the Joy line, which left Boston yesterday for New York with 300 passengers, was towed into New London and beached today. All her passengers had been transferred to other steamers in the sound and continued their trip to New York.

Capt. Wilcox of the Tremont says the night was perfectly clear and the steamer was proceeding on her usual course when, about twelve miles west of Cornfield light, a schooner-rigged steam yacht was made out off the bow. The officers of the Tremont supposed that the yacht would pass astern of the vessel, as her course seemed to be on a line diagonal to that of the Tremont. No danger was thought of until the yacht had approached to within a quarter of a mile, when she was hailed from the Tremont and no answer was received. When too late, the Tremont attempted to change her course to avoid the impending collision. The ship grew the yacht struck her about thirty feet back of the port bow and entered diagonally across, coming on the starboard side. The force of the impact was sufficient to throw passengers from their seats, and caused great excitement among them for a time, but the officers of the Tremont maintained discipline, and aid was quickly at hand. Both the steamer City of Worcester and the City of Lowell were nearby and promptly went to the assistance of the Tremont. Soon as the extent of the Tremont's injury was known, the City of Lowell ran alongside the disabled boat and quickly effected. The City of Lowell was bound to New York and resumed her trip as soon as it was seen that the Tremont had all the assistance necessary.

Tremont remained on board their vessel and accepted an offer of the steamer New Hampshire for assistance to New London. In tow of that steamer the Tremont reached here today.

Immediately after the accident the steam yacht backed away and left immediately, coming into New London harbor early today. From ashore it appeared that she had sustained considerable injury to her stem. Capt. Wilcox insists that if a proper lookout had been in the yacht the collision would not have occurred.

The cargo of the Tremont will be removed during the day.

The accident to the Tremont is the second misfortune that has come to the Joy line fleet within three weeks. Since July 1 the yacht has been chartered to United States Senator Aldrich of Rhode Island, who, with his wife and daughter, were on board last night making a trip from New York to Narragansett Bay. Senator Aldrich said he and his family were asleep when the collision occurred and were awakened by the crash. The plates of the yacht's stem were indented and bent to one side badly, and the bowsprit was carried away.

The schooner-rigged steam yacht Wild Duck is an iron vessel, owned by Gen. Francis V. Greene of New York. Since July 1 the yacht has been chartered to United States Senator Aldrich of Rhode Island, who, with his wife and daughter, were on board last night making a trip from New York to Narragansett Bay. Senator Aldrich said he and his family were asleep when the collision occurred and were awakened by the crash. **SURPRISED.**

**Commander Had Reason For Bringing Concord From Alaska.**

Seattle, July 17.—Lieut. Commander Minot when seen aboard the Concord declined to be interviewed regarding the press dispatch from Washington regarding the return of the Concord from Alaska without orders from Washington. He read the dispatch with the greatest interest and expressed his surprise at its content. He said he hardly knew what to say about this dispatch. He said he had just received a telegram from the navy department asking me to explain fully by letter the reasons for bringing the Concord to this port, but I have not yet prepared my answer.

It will be impossible for me to say anything pending instructions from the navy department more than that I have an explanation to make officially which I am confident will be entirely satisfactory to the department.

Commander Knox is still aboard the Concord, but will probably be detached from the vessel and taken to a hospital in this city tomorrow. His health has considerably improved within the last few days.

**THE RIFLEMEN.**

**Interest Increases at the San Francisco Shoot.**

San Francisco, July 17.—Interest in the national handshoot increases daily. The various ranges were crowded with riflemen yesterday and today promises to add to the number of competitors for the handsome prize money now housed in the temple of gifts at Shell Mound park. The weather was perfect for the shoot. The weather was perfect for the shoot. The weather was perfect for the shoot.

**ENORMOUS**

**Is the Daily Loss Caused By Steel Strike.**

**Many and Varied Interests Are Crippled.**

Pittsburgh, July 17.—According to figures compiled by the Pittsburgh Dispatch the steel strike is daily costing the three companies involved \$210,000 and the workmen \$156,000. It is estimated that in the daily loss of nearly 22,000 boxes of tin plate a day, the American Tin Plate company is daily losing over \$90,000, while the loss to the canning companies, unable to secure their material, is enormous in addition. Practically no stocks have been carried and consumption has kept pace with the production for some little time past. About 700 tons of the 1000 tons daily production of the American Sheet Steel company is being lost, and this represents a loss each day to the combine of at least \$50,000.

The loss to the gas stove manufacturers is also great, as the mills are closed, which make a specialty of stove iron. This is the heavy season for making steel hoops, bands and cotton ties are being lost daily by the American Steel Hoop company by reason of the strike, and this represents a daily loss in money of \$70,000. It is estimated that the men are losing in wages \$150,000. The tin workers will lose in addition \$6000 daily.

In addition to all of these losses the many and varied industries crippled now and in prospect represents losses to the men of large sums that cannot be computed now. The Amalgamated Association men are said to have a fund of over \$200,000 with which to keep the strike going, and the many Amalgamated men employed in the various mills still operating will go a great way toward keeping the sinews of war in good condition.

**FINISH FIGHT IN WEST**

**San Francisco Strikers to Be Supplied With Funds and That City Be Center of Iron Workers' Labor Troubles.**

San Francisco, July 17.—San Francisco is to be made the strike center of the United States, so far as the iron workers are concerned. A statement made by Thomas L. Wilson, fourth vice president of the International Association of Machinists says:

"We have the assurance of the international grand lodge that the funds will be forthcoming for a finish fight in San Francisco. Eighty per cent of the men out on strike in the East have been granted their demands, and 20 per cent

of the men have returned to work at the old schedule. It is our expectation that we will call the latter out within a year and have them on an equality with the others."

In addition to the machinists and other connected with the American Federation of Labor, the International Association of Machinists and local organizations is to be asked, propose to raise a strike fund of \$100,000 a week, which will be sent to San Francisco to carry out the plans of the strike leaders, who are confident that with this amount at their disposal success is assured.

**THE LAST OF ITS KIND**

**The Coming Trial of Earl Russell Causing Great Inconvenience and Will Probably Result In Change of Statutes.**

New York, July 17.—Emphatic protests are heard against the expensive trial rendered necessary by the survival of privilege when a peer is charged with a felony, says a London dispatch to the Tribune. Some of these press remonstrances are probably caused by the difficulty of securing seats when the court officials are reserving every available place for the privileged classes. Not only will the state be involved in a large expense by the preparations for Earl Russell's trial, but the judges of the king's bench division will be brought

in from asile towns at great inconvenience and the formal functions of the higher courts will be temporarily suspended. Many sensible people consider that the game is not worth the candle, and advocate an immediate revision in the statute so as to render another trial by peers for felony impossible.

The peeresses have claimed the seats reserved for them, and there will be a large number of peers. One peculiarity of this trial by a jury of peers is that several relatives of Earl Russell will pass judgment upon him. There are so many anomalies that it is likely to be the last trial of the kind in England.

**FAILURES.**

**Attempts to Observe the Eclipse of Sun Proved Valueless.**

San Francisco, July 17.—Professor E. C. Barnard, formerly of the Lick observatory and now connected with the Yerkes observatory at Williams Bay, Wis., has recovered the total eclipse of the sun on May 18. Professor Barnard reports that all the astronomical expeditions sent out by various bodies were failures in a great measure. They have added little to the stock of astronomical knowledge. This result is due to the cloudy weather that prevailed at all the stations but one, which happened to be imperfectly equipped because it was expected the clouds would be thickest there.

**QUEEN PROSTRATED.**

**Alexandra Affected By the Intense Heat.**

New York, July 17.—It is unofficially reported in London, according to a dispatch to the Journal & Advertiser, that Queen Alexandra was prostrated by the heat and consequently arrangements for her visit to London were upset. The extreme weather affects even the dignity of the queen, who has been obliged to be obliged to remove their ponderous wigs. Their example was followed by barristers for the first time, the absence of wigs during court proceedings has shocked the conservative voters who were it has added greatly to the comfort of bench and bar.

London, July 17.—Queen Alexandra will arrive in London at 9 o'clock tonight. She intended to come yesterday afternoon, but the journey was postponed on account of the heat.

St. Petersburg, July 17.—During operations with a military balloon near Schlisselburg, on an island in the Neva, twenty-one men and one woman of this city the balloon exploded and killed one person and injured twenty were injured, several fatally.

**BENEFIT FUNDS.**

**Youngstown Workmen Will Contribute For Strikers.**

Youngstown, Ohio, July 17.—The Amalgamated workers in the Youngstown mills of the Republic Iron & Steel company have met and decided upon a policy for collecting strike benefit funds from their members. They have notified President Shaffer that if the plan is acceptable to him they will each donate one day's pay every two weeks to the strikers' fund. About 800 men agreed to this, which will net about \$3000 a month. The workers are also rapidly securing jobs in their mills for the striking steel hoop men.

**MEN RESUME WORK.**

**Striking Laborers at Rochester Granted Demands.**

Rochester, July 17.—After nearly nine weeks' idleness the striking laborers engaged in municipal contract work resumed work this morning. Nine houses signed the agreement, only two of the contractors remaining firm in their declarations not to grant the men their demands.

The men are granted 20 cents an hour for any extra work, and time and a half for overtime and double time on holidays.

## AT WEST DULUTH

W. S. Pollock has returned to West Duluth from Spokane, Wash., for a visit with his family. Mr. Pollock contemplates locating in the West and may return to Portland, Ore., as soon as he disposes of his West Duluth property. He is very enthusiastic in his praises of Spokane, and says that it is one of the liveliest cities in the country, where hard times are unknown. Mr. Pollock says that rents are quite high there now and many of the people going to Spokane from the East buy a lot, 50 by 160, and build a cheap sort of a house in the rear end at a cost not exceeding \$150. They live in this until they have money enough to build a good house on the front of the lot. When such little shacks are built rose bushes are planted beside them and inside of two years the buildings are completely covered up in a lower of roses. The effect, says Mr. Pollock, is very pretty. He was at a rose fair a few days ago and saw one rose blossom that would fill his hat. The arched roses, however, are not so fragrant as the smaller ones grown in this state. Mr. Pollock says that the people of Spokane count on good weather from the middle of March until Christmas. Spokane he characterizes as a city of well-dressed people, very evident signs of its prosperity.

**INSTALL OFFICERS.**  
The Duluth auxiliary lodge of the Odd Fellows held a meeting last night and had installation ceremonies. The officers installed were: Noble grand, Mrs. Wallender; vice noble grand, Mrs. Andrew Mayne; treasurer, E. W. Lashner. After the installation exercises a banquet was held, followed by a dance, and the festivities lasted until a late hour. A very enjoyable time is reported.

**A LIVELY STORM.**  
Dan McDonald, who was a visitor in West Duluth yesterday from Webster's Sliding, reports some peculiar circumstances connected with the storm that passed over this city on Monday afternoon. Mr. McDonald lives on a farm about five miles from the end of the street car line at Lester Park. When the storm struck his place it developed into a rain and hail storm and a cyclone all combined. The wind played havoc with the birch trees in the vicinity and tore up some of them as though they were toothpicks.

**DID SOME DAMAGE.**  
Edward Dornedy, who is camping with his family at Pike Lake, came in yesterday for a short business visit and returned in the evening. Mr. Dornedy says that the heavy rain and hail storm of Monday afternoon did considerable damage to the farmers out on the Pike Lake road, the rain and hail beating to the ground a large part of the hay and the potato vines. Mr. Dornedy says that Pike Lake is a very popular resort for camping parties this year.

**OPEN AIR CONCERT.**  
Tomorrow evening the K. of P. band will give a grand open air concert at the band stand, at the corner of Bristol and Fifty-sixth avenue west. These open air concerts are very popular in West Duluth, and with the proper weather conditions there will be a large audience of people out. The program is as follows:  
March, "Second Regiment".....Rose

Potpourri, "Happy Minstrels".....Lang  
Waltz, "Columbia".....Holzmann  
Overture, "Jolly Robbers".....Suppe  
Selection, "Forge in the Forest".....Michaelis  
Patrol, "America".....Meacham  
Characteristic, "Cocoanut Dance".....Herman  
Medley overture, "Harvest Days".....Tilger  
"Star Spangled Banner".....Tilger

**Attention, Sir Knights.**  
All members of West Duluth No. 2, K. O. T. M., are requested to attend the funeral of our late Brother Sir Knight Tony Vetta, Thursday morning 7:30, at residence, No. 5, 3135-first avenue north, West Duluth.

### WEST DULUTH BRIEFS.

Toney Nettis, of 129 Sixty-first avenue west, died yesterday. The funeral will take place from his late residence tomorrow morning.

The water main at Fifty-fourth and Euclid lodge will confer the second degree this evening.

The Water main at Fifty-fourth and Euclid lodge will confer the second degree this evening.

The W. C. T. U. ladies, with their families and friends, will picnic at Oatka beach Thursday, July 18.

The Misses Millar arrived on the steamer Japan last Sunday morning from Detroit. They are visiting their aunt, Mrs. A. C. La Due, of 5613 Highland street.

H. W. Green, who was last week arrested on the charge of practicing dentistry without a license, was examined in municipal court yesterday and held to the grand jury. Bail was fixed at \$50, which the defendant furnished.

A large bull dog belonging to Frank Schultz went on the war path yesterday afternoon and bit the ear of a cow belonging to Mrs. Johnson, of Sixty-first avenue west. Lieut. Briggs has ordered the dog muzzled.

Ice cream freezers and refrigerators at cost prices at Wieland & Wade's. The water main at Fifty-fourth avenue west, which broke early yesterday morning, was repaired by 3:30 o'clock in the afternoon, and the thirty West Duluthians were again refreshed.

Edwin Knight, accompanied by his young son, Manley, were in West Duluth yesterday on their way to Port Arthur. Mr. Knight was formerly in partnership with S. C. Murphy and left here six years ago. He now resides at St. Johnsville, N. Y.

Hammock sale now on at Wieland & Wade's.

The steamer Mary Mann and a covered barge can be chartered by outfitting parties. Address Capt. Mann, 522 Sixty-first avenue.

**Mrs. Winslow's Soothing Syrup**  
Has been used for FIFTY YEARS BY MILLIONS OF MOTHERS FOR THEIR CHILDREN WHILE TEething, with PERFECT SUCCESS. IT SOOTHES THE CHILD, SOFTENS THE GUMS, ALLAYS ALL PAIN, CURES WIND COLIC, and is the best known remedy for DIARRHOEA. Sold by all druggists in every part of the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup" and take no other kind.

Itchiness of the skin, horrible plague. Most everybody afflicted in one way or another. Only one sure and safe cure, Doan's Ointment. At any drug store, 50 cents.

Juniper ale produces sound sleep.

### NOT MUCH SYMPATHY.

**Objectors to Assessment May Get Little.**

There was no session of the board of equalization this morning, an adjournment having been taken yesterday to this afternoon in order to give the range commissioners a chance to get here to the meeting.

Several of the objections of people who are credited with having made money out of Consolidated stock and other mining propositions were slated to be heard this afternoon, but they appeared to be little disposition among the members of the board to give them relief. The members say that it is so seldom that this class of property gets assessed that they would like to see it go through for the novelty of the thing. It is never reported by the owners, even though they may swear that their return is a true one.

### A Small Cyclone.

Settlers in the neighborhood of Arnold postoffice, about five miles north of the city, report that the storm that struck Duluth Monday afternoon in the shape of a smart shower that cooled things off, appeared there in the shape of a small cyclone. It did not strike any buildings, but it cleared away a path in the woods not very long or very wide, coming up the big trees and twisting things up in a manner that showed that it possessed a good deal of force.

### General Vaccination.

In a few days, it is reported, the state board of health will issue an order requiring the general vaccination of children. Health Commissioner Robinson says that he does not understand that this order will apply to Duluth until the public schools open in September.

In the southern part of the state the smallpox has reached the proportions of an epidemic, while in Duluth and this vicinity there is not enough infectious disease of any kind to speak of.

### Had It Out In Jail.

Joseph McKee and Thomas Jones tried to settle personal differences in a somewhat vigorous manner down on the Bowery last night. They were locked up and Jones begged the police at headquarters to let him have one more chance at McKee. During the night they came together again behind the bars and Jones regretted having made the request. He was a badly whipped man before the headquarters men could interfere. This morning both were sent to jail for ten days.

### WETMORE'S GELATINE

Granulated or shredded; 50 cents at all grocers

### Cragscroft Calendar.

An artistic calendar has been issued by Cragscroft as a school for young ladies. The calendar is a publication of ten large pages profusely illustrated, showing views, both interior and exterior, of the school and surroundings. Full details of the management and courses of study are given and altogether the publication is a very pleasing one.

### Removed.

C. H. Swannell has removed his tailoring business from 111 West Superior street to No. 19 Fifth avenue west.

Tom Reed cigar is proving a winner for us and will prove a winner for you if you will give it a chance.

## TRAGEDY.

**Remains of Farmer, Wife and Child Found In Ruins.**

Greenwood, Iowa, July 17.—In the embrace of a smoldering farmhouse, two miles south of Greenwood today, the bodies of Frederick Fourheim, his wife and their six-year-old child, were found. The woman and child had been killed with a razor, their throats having been cut from ear to ear. A shotgun and a razor lay beside the body of Fourheim. A ragged hole in the man's head showed that he had undoubtedly killed his wife and the child, set the house on fire and then committed suicide. No reason is known for the tragedy.

## POSTPONED!

J. B. Culver post's Fond du Lac excursion which was to have been tomorrow is postponed till further notice. Tickets already sold will be good when excursion is given.

## NOT EXEMPT.

**Railroads Must Still Stamp All Receipts Given Out.**

Washington, July 17.—Commissioner of Internal Revenue Yerkes has held that the exemption of express companies from giving stamped receipts for goods received by them for transportation made by the act of March 2, 1901, amending schedule A of the act of June 13, 1898, does not apply to railroads. This act, it is held, applies only to persons, companies or corporations engaged in carrying on an express business exclusively. In the case in point the railroad company will be required to give stamped receipts to milk shippers.

### TIE UP THREATENED.

**Labor Leaders Say Cards Must Be Inspected.**

Shamokin, Pa., July 15.—Five hundred men and boys went on strike at Hickory Ridge colliery today because the Union Coal company would not permit a committee of united mine workers to inspect cards of workmen on company lands. Labor leaders threaten to tie up all of the Pennsylvania Coal company's collieries in this district, as well as in the Wilkesbarre and Shamokin regions until the company permits the inspection of cards at the various collieries. The Pennsylvania company controls the Union and Mineral companies, which employ 5000 men and boys in this region.

Builds up the system; puts pure, rich blood in the veins; makes men and women strong and healthy. Burdock Blood-Bitters. At any drug store.

Oatka hop this evening.

## A JLTED MADEN

**Katherine Alward Brings Suit For Breach of Promise.**

**Isaac Green, Street Railway Conductor, Is the Defendant.**

**Miss Alward Alleges He Is Married And Asks \$2,000.**

Katherine Alward, a seamstress, living at 3910 Grand avenue west, has brought into the district court a complaint of breach of promise against Isaac Green, a conductor in the employ of the Duluth-Superior Traction company. She claims that after they had agreed to be married, and all preparations had been made, he backed out, and she asks \$2000 damages.

In her complaint, which was filed in the office of the clerk of the district court this afternoon, she says that on April 28, 1900, they became engaged to be married, at a date to be mutually agreed upon later. Afterwards April 17, 1901, was fixed upon as the date for them to be wed. During March and the first ten days of April of this year all the preparations for the happy day were made, she says, including the renting of the house in which they were to live. She herself laid out \$150 in her own preparations, most of which expenditure, she says, was rendered useless by the breach of promise that came later.

The matter was publicly announced, she says, but on April 11 he said he would not marry her, and he has since continued to persist in his refusal. This has subjected her to great disappointment and mental anguish, she says, as well as to public contempt.

Miss Alward says that on June 8 Green was married to another woman, whose name she does not know. The plaintiff alleges that Green is pretty well fixed. She does not know the exact amount of his holdings, but on information and belief she fixes his wealth at \$7000.

She demands damages for her injured feelings in the sum of \$2000. J. H. Whitley is her attorney.

The plaintiff has taken precautions against any of her friends or family. Garnishment proceedings have been commenced against the First National bank and the St. Louis City bank, in the West End, in both of which institutions it is alleged that Green has money.

Green is a street railway conductor in the West Duluth line, and the plaintiff is also well known in West Duluth. The defendant has a reputation of being fairly well off in this world's goods in spite of his lowly occupation.

## IN SAMAR.

**Over Twenty Points Have Now Been Garrisoned By Army.**

Manila, July 17.—An outline of the operations in the island of Samar has been furnished the correspondent of the Associated Press by Maj. Noble, adjutant general of the department of the Visayas. According to this information, over twenty points in Samar have been garrisoned, although there are no roads on the island. Gen. Hughes has penetrated into the interior in all directions, and has ascended the various rivers. In these operations the general was greatly aided by the navy gunboats Paragon, Benito Legazpi and Cardenal, the Princeton acting as supply ship to the smaller vessels. Gen. Chaffee, acting upon recommendations of Gen. Hughes, has ordered the construction of several trails across the island to connect points now occupied by his forces with the Americans. The influence of the insurgent Gen. Lucban, who has long headed the revolution in Samar, has waned, and none of Lucban's various roving bands possess more than six or seven rifles.

Friends of the insurgent Gen. Malvar, who is still at large, have telegraphed former insurgent leader Trias, now in Manila, that Malvar is willing to surrender to the Americans. Brig. Halterman, a Belgian, had been sentenced to be hanged, having been found guilty of delivering money and supplies and otherwise aiding and abetting the Philippine insurgents. Upon commendation of Gen. Wade, Halterman's sentence has been commuted to life imprisonment.

Washington, July 17.—Commissioner of Internal Revenue Yerkes has held that the exemption of express companies from giving stamped receipts for goods received by them for transportation made by the act of March 2, 1901, amending schedule A of the act of June 13, 1898, does not apply to railroads. This act, it is held, applies only to persons, companies or corporations engaged in carrying on an express business exclusively. In the case in point the railroad company will be required to give stamped receipts to milk shippers.

## COLLIDED.

**Coastwise Steamer Runs Down New York Ferry Boat.**

New York, July 18.—The Staten Island rapid transit ferryboat Westfield, on her way to this city from St. George, Staten Island, with 100 passengers, was in collision, off Governor's Island at 12:15 p. m., with the steamboat Howard Carroll, of the Starin Transportation company's fleet, which had a number of passengers aboard, bound to Glen Island. The Carroll struck the ferryboat amidships, almost disabling one of her paddle wheels. The Carroll had her bows damaged and was compelled to return to her pier on North river. The Westfield made her slip at the Battery in safety and landed her passengers.

Hop at Oatka this evening.

## CARNEGIE GIFT ACCEPTED.

New York, July 17.—The board of trustees of the Carnegie library today accepted the \$2,000,000 gift of Andrew Carnegie for sixty-five libraries.

### NEGRO CONFERENCE.

Hampton, Va., July 17.—The Hampton negro conference opened here today. Many prominent educators, both white and colored, are in attendance. Nothing of importance transpired at the morning session.

## CUMMINS LEADING

**Republican "Machine" In Iowa Is Threatened With Defeat.**

**Leaders Bending All Efforts to Prolong the Struggle.**

**Must Keep All In Field For Fear of Break.**

Des Moines, Ia., July 17.—It is but little more than three weeks until the Iowa republican state convention will be held, and in that time the "machine" faction in the gubernatorial fight, must overcome the greatest odds by which it was ever confronted if power and prestige are to be maintained.

This wing of the republican party is denominated "machine" for the reason it has been a powerful factor in the politics of the state for many years, so much so, indeed, that the candidate for a high office in each of the determining influences rarely proceeded with his campaign without first securing the approval of the machine leaders who were some of the ablest men in the state. The organization ramifies every county in the state.

The first action of the machine was in the state convention last year, when Gilbert H. Harritt was nominated for the office of treasurer and secretary of state, respectively, over the candidates that were put forward by the machine. This defeat came shortly after the close of the session, when the machine leaders had snatched victory out of defeat and thereby established the belief that they were invincible.

The man who had been defeated in the senatorial contest was the central figure of the movement that overpowered the machine in the gubernatorial fight, and followed, and this fact made the disaster the more grievous.

Last spring, when the governorship became the subject of discussion, this same man—Cummins—announced his candidacy, and, naturally, it met with the bitterest opposition on the part of the machine.

Cummins, on the day he announced himself a candidate for governor, publicly defied the machine, referring in pointed speech to two of its leaders, one of whom, he said, had demanded that he eliminate himself from the race for governor or suffer political extinction, and the campaign from that hour has been of the most desperate character.

Cummins at the beginning surprised the machine by capturing a number of counties in the western district, and every one of the seven counties was bitterly contested, with the result that two—Madison and Warren—were taken from Cummins. And in the Second district, which was supposed to be for Cummins, the machine placed its full strength, although it all the machine has been centered upon a candidate, a point which some of the workers are now claiming was a mistake.

The convention has been chosen of three-fourths of the delegates to the state selected Cummins has more than one-half, and his instructed list is much larger than those of all the other candidates combined. The figures follow: Cummins, 65; Harritt, 14; The number of unaffiliated delegates whose preference is unknown is 25. Cummins has almost enough first choice votes to nominate.

If the machine leaders can prevent the

## BURNING.

**Town of Marshall, Mo., Is a Prey of the Fire Fiend.**

Kansas City, July 17.—Marshall, Mo., a town of 5000 inhabitants on the Chicago & Alton road, ninety miles east of Kansas City, is reported to be burning. At 1:30 p. m., the correspondent of the Associated Press wired:

"The town is on fire and the people are almost hopeless. The New York store, one of the principal buildings near the river, and the east side of the square is burning. The fire is practically, no water."

At 11 o'clock communication with Marshall from Kansas City was destroyed. Just before the Chicago & Alton office for this city let its wire at 1:30, the following was received from Marshall:

"The fire is burning in the New York store at 11 o'clock and soon destroyed that building. The rest of the public square has been asked from Slater and a special train bearing the fire fighting apparatus is en route to the town."

No aid had been asked of the Kansas City fire department up to 2 o'clock. Not a drop of rain has fallen at Marshall in over a month, the temperature has remained at the 90 mark for ten days past, and everything is as dry as tinder. All vegetation has been literally burned up. Marshall is in Caline counties in the state.

At 2:30 p. m., the fire was reported under control. The following buildings were reported to have been destroyed: New York store; Road company's house; Harritt's carpenter house; Bank's grocery store and several smaller buildings. Loss about \$50,000.

Dance tonight at Oatka.

## LOST LOVE

**For Husband While He Was In the Philippines.**

Washington, Ind., July 17.—Capt. E. Rose Smith, who was a member of Company D, One Hundred and Fifty-ninth regiment, during the Spanish-American war, and who afterward was a captain in the Thirtieth regiment in the Philippine Islands, has been granted a divorce by Judge Houghton.

Capt. Smith, 3 years old, enjoyed the distinction of being the youngest captain in the United States army. He was married at Fort Sheridan, Ill., to Miss Elva J. Johnson, of this city, two weeks before his departure for Manila as a captain in the Thirtieth regiment in the Philippine Islands, she had lost the city to await her husband's homecoming.

Last April the youthful commanding officer returned to Washington and opened a grocery. A few days ago he filed suit for divorce, stating that when he returned from the Philippines he found his wife indifferent to him, and when he returned she told him that she had been married to a man who she said was her husband during his stay in the Philippine Islands she had lost love which she formerly had for him.

PLANT IDE.

Steubenville, O., July 17.—The steel hoop employees at Washington who opened last night, went out at midnight and the plant is idle today.

**22c**—Women's knit Umbrella Drawers; trimmed with mercerized lace; sizes 4, 5 and 6; regular 45c Drawers.

**35c**—Women's 50c French Lisle Vests; fine mercerized finish; prettily trimmed with silk lace and tape; no sleeves.

## RINGLING.

Some Features of Great Circus Coming Next Week.

Everybody is waiting in delightful expectancy for the coming of the Ringling Brothers' great circus next Friday. The Ringling show this year is crowded with new features, the best the world affords. Some of the features of this show concisely expressed are as follows:

Miss Amelia Peasey, who heads the list of great lady riders, is declared by the most experienced experts of Europe and America to be the greatest equestrienne the world has ever produced.

The three Marvels are a new feature, are acrobats, contortionists, grotesque pantomimes and expert barrel vaulters, and their performance has been a distinct hit.

The Garbott troupe of nine acrobats, direct from Italy, is a new feature. The marvelous performance given by these great acrobats has created a universal sensation.

Ringling Bros.' great canvas pavilion covers more than twelve acres, and constitute a veritable city of tents. The main mouth, hippodrome, amphitheater, is the largest ever constructed, and is absolutely impervious to rain.

It requires five trains of double length railroad cars to transport the Ringling Bros.' great circus from city to city. If placed end to end, these trains would cover nearly a mile of track.

O'Brien's famous sixty-one horse act is one of the sensational features of the season. This is the greatest number of horses ever seen together in one performance.

The Holloway trio of high-wire acrobats have created a sensation. These clever performers execute acrobatic feats in mid-air that other acrobats hesitate to perform upon the ground. It is the only act of the kind ever seen in the United States.

Ringling Brothers have many new and notable zoological specimens this season, among others a half-dozen royal Bengal tigers, a pair of rare black tigers, a horned horse or equi, a li-horned rhinoceros, a pair of Nile-burn hippopotami, and many other interesting animals, including thirty trained elephants.

## GROCERS' OUTING.

Superior Merchants Having Their Annual Picnic.

The eighth annual picnic of the grocers of West Superior is being held today at Solon Springs, Wis., and the stores in that city are pretty generally closed for the day. The morning train carried a large number of people to the Springs, and the attendance promises to be larger than at any previous picnic. Duluth is well represented at the picnic today, many people taking advantage of the excursion rate to visit Solon Springs. The Duluth grocers will hold their annual picnic at the same point on the first Wednesday in August, and the committees are planning to make the affair a large one. There was no annual picnic by the local grocers last year. Solon Springs is on the Omaha line about forty miles from Duluth.

## SHEEP AND GOAT RANCH.

Iowa Man Will Start One Near Superior.

A sheep and goat ranch is to be started by an Iowa man in Douglas county, Wisconsin. W. Howard, of Marshalltown, Iowa, recently brought a carload of Angora goats to that county and is planning to start a goat and sheep ranch there. He has been placed near Bennett siding in the immediate neighborhood of Lake Minnesota. In the entire carload there were 112 goats, of which 111 are ewes and one is a "bull." Mr. Howard owns 6000 acres of land in Douglas county and the putting in of the goats is the start for a goat and sheep ranch that will be one of his biggest things in an agricultural way. Mr. Howard is now getting things in shape for the bringing in of the sheep and has several acres of rye, corn and millet which he is raising for the use of his sheep. Next spring he will bring in 500 of the latter. The Angora goats were brought here direct from Peterson, Iowa, and have been placed in the care of F. A. Howard.

## MAY GET A BATTERY

Movement Under Way Toward Organizing One in Duluth.

Considerable Enthusiasm Already Among Young Men.

## EX-CAPTAIN OF ARTILLERY

Here Who Will Go In.

Either a battery of artillery, a detachment of cavalry, or an independent company of infantry, may be organized in Duluth within the next few months. Since the mustering out of Company G there has been considerable talk of replacing it with another organization. This act of the State Guard authorities, instead of injuring Duluth from a National Guard point of view, may be the best thing that ever happened. It may give to this city the third battery of artillery of the State, and the first detachment of naval reserves. It is proposed that the new organization be called the "Duluth Artillery," and that it be composed of the Company G, and sailors and soldiers of the Spanish-American and Philippine wars. This act of the State Guard authorities, instead of injuring Duluth from a National Guard point of view, may be the best thing that ever happened. It may give to this city the third battery of artillery of the State, and the first detachment of naval reserves. It is proposed that the new organization be called the "Duluth Artillery," and that it be composed of the Company G, and sailors and soldiers of the Spanish-American and Philippine wars.

## THE NEW LAW

Register Lotgren Looking Into Workings of Torrens System.

Register of Deeds Lotgren is in Minneapolis to consult with Register of Deeds M. W. Fitzgerald of Ramsey county and George R. Merrill, register of deeds of Hennepin county, on the Torrens abstract system, which goes into effect this fall. They will consider the matter of adopting uniform blanks and books which are necessary under the law, and arrangements for the purpose of such supplies will be made. The matter of the number of books needed for the first registration will also be taken up. Until it is known how largely property owners are going to take advantage of the law it will be hard to tell how many such supplies will be needed. In Chicago, it is said, there have been but 400 titles to come under the Torrens system since its adoption there.

## SINK HOLE FILLED.

The Eastern Minnesota Has Trouble With One.

Second Vice President D. M. Philbin of the Eastern Minnesota road says that the company has succeeded in overcoming the big sink hole on its cut-off road, about two miles north of Stony Brook Junction. The sink-hole was not discovered until the work trains began to run over it, when the roadbed for a distance of 700 feet began to sink. The company was put to a very large expense in filling the hole, and the indications are good for a continued run of heavy shipments. The heavy rains of the past two weeks have raised the various logging streams of the district, and some of the rivers are said to be higher than for several years past. Log driving is in progress both on the north shore and on the southern shore of the lake. There is a brisk demand for river-drivers. Many large-sized rafts are on the way to the mills at the head of the lake, and the weight of the ore trains. It is expected that the ore trains will be running over the road before August.

## WANTS FRANCHISE.

Black River Falls Company Petitions Superior.

At a meeting of the city council of West Superior last evening the board of public works was instructed to view Tower avenue between Third street and Sixteenth street, for the purpose of fixing the amount to be assessed against the abutting property, should the street be repaved with cedar blocks. Another matter discussed was the ordinance granting a franchise to the Black River Falls company for the erection of poles and wires for transmitting electricity from the falls to the city, a distance of about fifteen miles. The company is comprised of Duluthians, among whom are Sheer, Nuts and William Burgess, who were present with their attorney last evening to explain the intention of the company, which is to supply the city of Superior with at least 1200 horse power for the use of manufacturing plants, at a cost about one-half that now being paid.

## Wise Picnickers

...Take...

## GRAPE-NUTS

Ready Cooked, Delicious and Most Nutritious.

## FOR PICNICS.

In making up lunch for picnickers, some form of substantial food that cannot easily be injured in transit should be supplied, and the most ideal article for that purpose is Grape-Nuts. This food comes in a 15-cent package, is already thoroughly cooked and can be used either dry or with the addition of some milk or cream. This food is used by some picnickers in frying fish, for it adds a delightful flavor and is naturally superior to the ordinary crumbed crackers or corn meal for this purpose. In addition to the convenience of Grape-Nuts Food, its high nutritive food value should not be lost sight of.

## GROWING HEAVIER

Lumber Shipments For July Promise to Exceed June's.

Sixty Million Feet Expected to Be Month's Total.

## The Vesselmen Are Determined to Get

\$2.50 Rate.

Lumber shipments from the port of Duluth for the half month ending July 15 were nearly 23,000,000, and from the head of the lakes during the same period the shipments ran nearly 30,000,000 feet. The total shipments of lumber from this port in June were about 43,000,000, and from both Duluth and Superior were 56,000,000 feet. If the lumber continues to move down the lakes at the present rate the business for July will approximate 60,000,000 feet, and will be nearly 20,000,000 feet in excess of shipments over the lumber sent down the lake in June, 1900. Vesselmen say that charters are being freely made at \$2.50 a thousand, and the indications are good for a continued run of heavy shipments. The heavy rains of the past two weeks have raised the various logging streams of the district, and some of the rivers are said to be higher than for several years past. Log driving is in progress both on the north shore and on the southern shore of the lake. There is a brisk demand for river-drivers. Many large-sized rafts are on the way to the mills at the head of the lake, and the weight of the ore trains. It is expected that the ore trains will be running over the road before August.

## MAY RUN HERE

Milwaukee Road May Run Trains to Duluth.

It is reported from unofficial sources that the Chicago, Milwaukee & St. Paul company may be running its own trains to the head of the lakes within the next six months. This will be somewhat of an innovation over the present system of doing business and will give the company greater prestige here. If the move is really made, the Milwaukee road is now operating at the head of the lakes through a traffic agreement with the Northern Pacific road, the latter handling the business for the Milwaukee company. The agreement was made to run for a period of 99 years, it being stipulated that, beginning with the first of the year next, the trains of the Milwaukee company may run over the Northern Pacific tracks, and the Milwaukee company at the head of the lakes has been on such a scale during the past year as to give reason to believe that such a move will be made. The expressed satisfaction over the amount of business the Milwaukee road is doing, but will not say positively that the company will put on its own trains.

## Gets a Fortune.

Charles Fernandez, a well-known clear-maker, left yesterday afternoon for New York, from which point he will sail for Spain to claim \$15,000 recently left him by a uncle.

He was notified of his good fortune a few days ago and made hurried preparations for his trip abroad. Upon leaving yesterday he announced that he liked Duluth so well that he would return here as soon as he received the money.

Bridges, rivers, tunnels, mountains, builds cities, gathers up the scattered rays of one's ability. That's what Rocky Mountain Tea does. 35 cents. Ask your druggist.

**DULUTH The New Store DULUTH**

**Additional Clearance Bargains.**

**.. White Goods ..**

A magnificent variety of seasonable goods to go on sale Thursday, Friday and Saturday. We have too much of some lines. They have not been moving quite as rapidly as we would like—hence these "special clearing prices"—prices that ought to clean them all up the first day.

**Here they are:**

Nainsooks and Barred Lawns, marked at 8c and 10c per yard—about a dozen pieces. Clearing price for Thursday, Friday and Saturday, only **5c**

White Victoria Lawns, forty inches wide fine and sheer goods, marked as high as 18c and 20c, and worth it too—clearance price only **10c**

White goods, consisting of Checked and Barred Lawns and Dimities, Muslins, etc., generally sold as high as 25c per yard, clearance price only **10c**

Twenty pieces fine dotted Swisses—none sold for less than 25c, and some at 30c. They are first-class goods. All go Thursday at only **15c**

**DULUTH The New Store DULUTH**

## THE BEST EVER HELD

**Duluth Summer School Is Breaking All Previous Records.**

**Number In Attendance Is 145 With Six More Applying.**

**The State Superintendent Has Allowed Another Instructor.**

Duluth is now having a summer school that has broken all previous records both in the number in attendance and in the instruction given. Over a hundred and forty-five pupils are now at the school building every day, while six more applications are in, which will increase the number to 151. State Superintendent of Public Instruction, J. W. Olson, has given the Duluth school another instructor, B. B. Jackson, the superintendent of the Superior schools. Professor Jackson is a very valuable addition to the teaching force and is teaching geography, history and physics. He has specialized in these subjects so that the school is very fortunate in securing him.

During the last three days of hot weather the work in the school has gone on without hindrance, as the high school is one of the coolest places in the city and great enthusiasm is shown in the work by those attending. A series of entertainments for the last two weeks of the school in the city is being arranged and trips up the river and around the harbor will be enjoyed. The classes in geography will be taken through the docks, elevators and the larger wholesale houses of Duluth.

Thursday evening of next week, at the high school assembly hall, a very interesting lecture will be delivered by the Hon. J. A. Allen, of Pine City, Minn., on "Education, Its Practical and Ethical Value." Although primarily for the summer school students, the lecture is all interested in the subject are invited to be present, especially the teachers of Duluth. Mr. Allen is sent by the department of public instruction and aside from being a very interesting speaker, is thoroughly conversant with his subject, making the evening one of great value.

Duluth has the best place for a summer school in the country and the state department has been very accommodating in helping the Duluth school along in seeing that the best results are obtainable. Plans are already being made for the next year, when it is intended to have a six weeks' session with eight of the best instructors that Minnesota has.

The delightful climate and the beautiful building make Duluth essentially the place for the best school in the state. Teachers' examinations have been fixed by the state department to take place Monday, Tuesday and Wednesday, Aug. 5, 6 and 7. The examinations will be held at Tower, Virginia and Duluth, being conducted at the former place by Mrs. Morcom, at Virginia by Mrs. Cappelletti and here by county superintendent Park. On Aug. 5, the first day, the applicants will be enrolled. Spelling, professional test and reading will be the subjects for the morning with grammar and history in the afternoon. On the second day, Aug. 6, arithmetic and geography will be the subjects for the morning with physiology, music and drawing in the afternoon and on the third day, Aug. 7, the morning will be occupied by physics and geometry, while algebra, civics and physical geography or moral history will fill the afternoon.

The program for the teachers' professional certificates examinations will be held in the library building at the state university in Minneapolis Aug. 8, 9 and 10.

The new students enrolled since the second day are: Duluth—Mabel Cox, Flora D. Cox, Maude Miller, Addie G. Thayer, Mable De Vore, Flora Santoro, Ella Stinger, Nora A. Smith, Louis Starnes, Florence Gilbert, Alice M. Hall, Helen Rodell, Amanda Kellison, Ellen E. Miller, Fifth Spitzer, Mary E. Scott, Stella Berg, Doris McHolland, Hattie Vager, Emma I. Williams, Georgiana Wolf and Minnie Rhodes.

Clouet—Anna Swanson and Clara H. Tolson.

West Superior—Della Ovale, Proctorville—Catherine B. McCarty.

**DANCED ON THE ROOF.**

**Salvatore Drano Says That Disturbed the Peace.**

Salvatore Drano, who has a shoe shop at 112 West Michigan street, caused the arrest of three small boys this morning, claiming that they annoyed him by dancing on his roof. The boys are Will Martell, Harry Lemmon, and Arthur Palsant. Their hearing will be held in police court tomorrow morning.

Arrested McManus, a 15-year-old boy living at 1225 Lumber street, was arrested on complaint made by Louis Johnson, who says that while McManus didn't exactly steal a hot stove, he stole a heating stove and another stove, both valued at \$1.

Young McManus said that he was not guilty, when confronted with the charges of petty larceny, and was released on his recognizance to appear in court Saturday morning.

**Pure Cow's Milk**

Made sterile and guarded against contamination, from beginning to baby's bottle, is the perfection of substitute feeding for infants. Borden's Eagle Brand Condensed Milk has stood first among infant foods for more than forty years.

**Impaired Digestion**

May not be all that is meant by dyspepsia now, but it will be if neglected.

The uneasiness after eating, fits of nervous headache, sourness of the stomach, and disagreeable belching may not be very bad now, but they will be if the stomach is suffered to grow weaker.

Dyspepsia is such a miserable disease that the tendency to it should be given early attention. This is completely overcome by

**Hood's Sarsaparilla**  
which strengthens the bowels and digestive system.

## TEXAS OIL NEWS.

Pointers for Plucky People.

Gusher No. 16 came in Thursday evening, July 11. It is the well of the Columbia oil company. The well is not as great producer as the deeper wells, and there is some talk of drilling deeper. The oil gushed only 20 feet above the surface. The location of the Columbia well in Block 2, Gladys city, being about 50 feet northwest from Guffey No. 3, as shown in the partitioned by the Standard Oil & Pipeline company.

A lady wrote to the Saratoga Oil & Pipeline Co., 728 Andrus Bldg., yesterday, asking where she could subscribe for Texas Oil News. It is published every day now in two Minneapolis papers, two Duluth papers, one Fargo paper, one Ancon paper and occasionally in a Winona paper. It is true and new and intended to interest the people who know a good investment when they see one.

A great oil tank is being built opposite New Orleans on the Mississippi river looking forward to a great oil trade on the river. While this is only a beginning, it may yet mean crude oil shipments to the Northwest by river steamers.

The Guffey Petroleum company have announced that they will revise Beaumont oil for illuminating purposes. This is a very important fact, because it proves the practicability of taking illuminating oil from the Beaumont product, which has remained doubtful until now.

Full particulars about the Saratoga Oil & Pipeline Co. may be obtained by writing to 728 Andrus Building, Minneapolis, or to H. Bennett, 511 Manhattan Bldg., Duluth.

## ARE PESTS.

**Duluth Experiencing a Severe Attack of Mosquitoes.**

It is becoming quite the thing to build "smudges" during these warm summer evenings when the heat makes it desirable to stay out on the porch as late as possible. The rains, followed by hot weather, have brought out a million swarms of these and bloodsucking mosquitoes that are ravaging over the city, seeking whom they may devour. They are so plentiful and so hungry that it is impossible to sit out of nights with comfort unless there is some protection from their finger nails, seeking relief from the itching bites.

So many smudges were there last night that a full of smoke hung low over the city, particularly in the East End, and while the smoke drove the pests off many found it almost as much of a nuisance to breathe the smoke as to fight the mosquitoes.

A smudge is easily built. All that is necessary is a small pile of dry sticks, a bit of paper and a match. The sticks are piled up in a thick smoke is produced by piling green weeds on the fire, and then blowing on it to keep it burning. It is not so difficult to make as it seems, and the smoke is not often necessary in Duluth, and many people are not aware with the mystery of its construction.

**Excursion to Houghton and Hancock Friday, July 19th, on Steamer Argo.**

Leave Booth's dock 5:30 p. m. Returning, arrive Duluth early Sunday morning, giving all day Saturday in the Copper Country.

FARE \$5.00 ROUND TRIP, including meals and berth.

**IT FALLS OFF.**

**Superior's School Population Shows a Decrease.**

Superior teachers are in a ferment of apprehension. Superior's school population has fallen off nearly four per cent. This is according to the census returns of the people between the ages of 1 and 21 in the city that have just been turned in to Secretary Nichols of the board of education.

The falling off from last year can hardly be accounted for and although off in some of the wards, those where the increase was expected had a larger falling off in proportion. The figures show a total of 718 between the ages of 1 and 21, while last year the number was 802, showing a decrease of 84 or practically 1 per cent. In 1900 the census showed 707 of school age.

**J. B. Culver Post and Woman's Relief Corps WILL GIVE AN**

**Excursion to Fond du Lac**

on Thursday, July 18, leaving Fifth avenue dock at 9:30 a. m. Tickets, \$5 and 15 cents.

**Goes to Philippines.**

J. B. Hagberg, a young man living on Connor's Point and a recent graduate of the Superior normal school, starts tomorrow for the Philippines, where he has an appointment as a teacher. He will be joined in St. Paul by another young man from Black Earth, Wis., and the two will take a transport from San Francisco.

**Dance at Oatka this evening.**

**Gentry Brothers' Parade.**

The street parade presented by Gentry Bros. shows this season is twice larger than before. It is composed of nine sections, each one complete in itself. Numerous kinds of music are interspersed at intervals in the parade. Nearly every class is represented by some of its baby animal potatoes. Fine camels, ferocious monkeys, dainty ponies, pretty dogs and sagacious elephants make up one section which surprises the parade.

Most shows, to say nothing of the score or more of gold bedecked chariots and miniature domes. The consolidated parade of the Gentry Bros. shows is a sight worth seeing, and the little folks should not be denied this privilege. It will start from the show grounds, First street and Third avenue west, at 10 a. m. tomorrow, Friday and Saturday.

**AT PORT LEAVENWORTH.**

Kansas City, July 15.—Secretary of War Root and party arrived here today from Fort Riley, Kas. The party, which stopped here only between trains, was met by a committee of the Commercial club. Today was spent at Fort Leavenworth, where the party was met by a troop of cavalry and escorted to the post. After an inspection and a reception at the home of Post Commander Col. Lee, the party will leave this evening for Fort Omaha.

**Oatka dance this evening.**

## THE DAKOTAS

**Foul Play Suspected in Disappearance of Editor Wells.**

**NORTH DAKOTA.**

Litchville—Editor Hugh Wells, of the Litchville, N. D. Bulletin, has disappeared, and foul play is suspected. He is 22 years of age, and had no bad habits. He came from Lakston, Ind., in April, 1901, and established the newspaper at Litchville, built for him a new building, out of debt and had money on deposit in the bank. He is an expert violin player, and left with a violin in a fine leather case. He took no grip, but had considerable money. He was a healthy, muscular, well-dressed man, about 5 feet 11 inches high, light complexion, dark hair, blue eyes, hair bushy and parted in middle, nose straight, mouth and chin prominent, large mouth and wrinkles around mouth, smooth face. He will play the violin wherever he goes, and his playing will attract spectators.

Fargo—Another effort is being made to interest North Dakotans in the cigarette trade. Ten years ago the industry was booming and a number of Milwaukee capitalists took up the matter, but later experience demonstrated that the business was too great. A Mr. Edson, of New York, is here with a new cigarette combination. It is about 50 per cent chemicals. He will make a test of the fuel at a local heating plant and has interested some local people in the idea.

Ellendale—The Dakota county teachers' training school convened Monday morning. About sixty teachers are already enrolled. Professor Vernon F. Squires, of the Grand Forks university, is conductor, with Miss Sara Robb, of Jamestown, and McDonald, of Grafton, and Professor W. M. Lawlor, of Ellendale, as assistants.

Jamestown—In the case of the state vs. Charles Hennings, of Courtenay, for bastardy, a jury brought in the verdict that it is the father of the child of Marie Posey, of Courtenay, born last February. Judge Glaspell received the findings, \$10 per month for the support of the child for ten years. The court also ruled that the defendant give bond that he would make such payment.

Carl Thorne, arrested before Judge Glaspell and pleaded guilty to a charge of carrying a dangerous weapon, had been held in the county jail six days. The court took this into consideration and fined him \$1. Burns is an enforcement league spotter and is said to have some evidence against local blind-baggers.

Yankton—George Olson, government special agent for rural free delivery routes, left the city Tuesday morning, to make arrangements for three routes in the north and northwest and are twenty-four, twenty-five and twenty-eight miles in length. The carriers chosen are Warren Osborn, Simon Price and L. W. Colwell, and Frank Olson, all of Yankton. Twenty-six carpenters are fast completing the work on the routes. The routes are 17,000 feet of lumber have already been used in the work of the routes. Several live chains of lumber in addition to that already in the building will be needed to complete the work. The routes are to be carried in stock.

**IN MICHIGAN.**

**Man Suicides With Four Hundred Dollars in His Pocket.**

**Lake Linden.**—The residents of Lake Linden were treated to a strange spectacle Monday. As the body of Samuel Le Clair, who recently committed suicide, was being lowered into the lake, away parties were recovering the body of Joseph Knodel, who committed suicide by drowning in Torch lake.

The unfortunate man's coat, containing a check for \$400, was found on Knodel's body. The check was for \$400, and was immediately notified the authorities and a search was instituted. The body being found a few minutes later, Knodel was considered slightly unbalanced.

Houghton—C. H. Moss, cashier of the new Citizens' National bank of Houghton, has received the certificate of qualification from the controller of the United States currency, and business will be started as soon as the banking furniture arrives.

It is some time this week, and by the latter part of the month the new institution will be established. The Citizens' National is capitalized for \$100,000. Its officers are R. C. Poyer, president; C. H. Hall, vice president; and C. H. Moss, cashier.

Menominee—An insurance statistician furnishes the following figures on amounts of old life insurance claims paid in the upper peninsula last year: Baraga, \$100; Calumet, \$15,000; Escanaba, \$18,977; Hancock, \$7882; Iron Mountain, \$7500; Ishpeming, \$11,000; Ironwood, \$499; L'Anse-au-Loup, \$200; Marquette, \$73,069; Newberry, \$2350; Sault Ste. Marie, \$2500; St. Ignace, \$2000. During the year claims aggregating \$1,559,424 were paid in Detroit.

The largest death claim paid in the upper peninsula was that of S. Kaufman, Marquette. It was \$23,041. Some big life insurance policies are held in Menominee. Hon. S. M. Stephens carries over \$200,000, and William Holmes \$100,000.

Sturgeon Falls.—The remains of Frank Gohauer, a German, who resided in Vail, and who disappeared last fall, were found in the Menominee river. The body was in a ghastly condition, the head, one leg and one arm being missing from the trunk. It presented such an overpoweringly repulsive appearance that the rivers who discovered it were, for a considerable time, unfit for work as the result of the find.

Calumet—C. E. Lytle and T. W. Smith have been appointed general superintendent and assistant superintendent of the Hancock & Calumet railroad.

**HER DRESS IN FLAMES.**

**Hendricks Threw Girl Into a Watering Trough.**

Anderson, Ind., July 17.—While Bertha Martindale, aged 7, was going to Sunday school, she stopped in front of a store window for a few minutes. A little boy playfully struck a match, and it fell on her dress, setting it on fire. The girl was screaming and the little boy ran down the street, when David Hendricks, a young man in charge of a stable, rushed toward her and grabbed the little girl. He carried her to a trough of water and extinguished the fire. The girl was painfully burned about one side of the face. Hendricks was the hero of the city Sunday.

Blotched, rough, red, tender skin smoothed to satin softness, using Salsin Cream and Powder, 2c.

Are you thirsty and tired? Try Juniper ale.

**Dance this evening at Oatka.**

**Mill-end and mid-summer clearance sales.**

A sale to be a success must have actual merit—the values must be better than ordinary

—the goods must be of standard quality—there must be an enormous quantity and unstinted varieties. This sale is an unqualified success, for it meets every requirement. It fulfills every promise—it satisfies every corner, and they all go away speaking a good word to their neighbors about it. The weather is hot, and unless the bargains were extraordinary we are certain there would be small crowds and slow selling. But we are having a store full of people every day. The crowds come early and stay late. The sales are leaping ahead of a year ago. And the many good words dropped here and there among the crowds is a good indication that there will be still larger crowds the balance of the week.

There will be a slight change in the Bargain Counter arrangements the next three days. Other goods will be put on to take the place of the enormous quantities sold. We are offering a new sale of silks which begins tomorrow—in white goods there will be additional specials—a special sale of toilet articles begins in the morning—the shoe department comes out with a half dozen extraordinary offerings—there are special clearance prices just attached to many splendid things in ladies' underwear and hose and men's furnishings—and lots of good things in the cloak department we haven't offered before. You know we promised you at the start of the sale that we would have more surprises to offer as the sale progressed.

Bigger crowds will be certain to follow these additional offerings. The most agreeable time to trade is early in the morning. We are open at 8. Everybody welcome.

**Bargain Counter No. 1.**

Mill-Ends of Silklines, suitable for Comforts—all new patterns—good colors—these have scored a hit—worth 10c a yard—Mill-End price

# THE BLACK AND WHITE EFFECTS

Many Queer and Audacious But Charming Styles Are Seen—The New Louis XVI Silks Much Used.

New York, July 13.—Once upon a time, the story goes, there was a great fashionmaker who, chafing the casket of his overworked brain, exclaimed one day: "What shall I do next?" And then came by a plebeian horse, sooty black, with dazzling white spots, and he cried joyously: "I have it!" And then there came that incomparable combination, black and white, was born into the world.

This is the tale, as it is told in Paris, of the ever-renewed Worth, but whether it is true or not we do not know that everything else in nature has supplied hints for the fashion mongers, so why not the plebeian horse? His spots and eccentric splashes have been found becoming—to him—and when transferred to black and white to make them prove to be equally so to her.

If I were to enumerate all the queer, blotchy, black and white effects seen in race course toilet nowadays it would be an arduous pleasure. For they are charming, despite their audacity, and bigger, more astounding and startling than the flimsy medallions and dainty entre-deux of black lace that spread their loveliness over the organdie or

white vests and plain trimmings of black velvet, they have a very dapper air. A plain black or white mohair skirt is a pleasing accompaniment to these, and if you want to be very up-to-date you may tie a spotted ribbon about the band of your very narrow-brimmed sailor hat. But in no case must the manish hand be removed, since it is the thing for it to peep in and out under the scarf or veil that swathe the sailor brim. A really trimmed sailor, the article that runs to flowers and tulie, is another thing. And, of course, this would be distinctly out of place with anything but a very smart bodice.

However, there are some trimmed shirt waist silks in the market that seem very fine affairs, and better still, they are bargains of uncommon excellence, certain firms showing car loads of them at \$2 apiece. These are of the old-time sundown for breadth of brim. The garniture, which is of bias silk, is put on in thick stand-up folds about the brim, one of black and white usual, the other in pale blue or rose. Again the figured and plain trimmings will demonstrate only the end of the tail, with the rough straw seems very pretty, and it is wonderful how much it adds

## THE TAILOR MADE GIRL.

Transparent material for shirt waists are, this year, rivalled in the affections of the summer girl by white madras made in strictest tailor style. Though apparently heavy, these waists are cool, as the gingham is so fine and light, and with a white linen turn over collar and bat wing tie. Courtesy John Forsythe

muslin frock. But the silk race gown outstamps her more perishable sister, the new Louis XVI silks which run to tulle-trimmed gowns, wreaths and love knots, tend themselves lovingly to black and white treatments.

One of the moments is to combine into thin muslin with these silken charms. The gown proper will be of the silk with the mull or other thin gauze, in deep black, or pure white, but on in flounces, showing a narrow rill around the shaped sash, in the tucked yoke, and perhaps a rill of white under-sleeves. Sometimes a gown will be in two patterns of the silk, or striped with a flowered design or wreaths and bows, and there are figures sweet and charming enough to withstand the eccentricity.

In the stock of the black and white silk dress there is often a note of color for becomingness, a fold of puffed velvet, in coral pink or "blue celeste," that rarely radiant pale blue the war with China has introduced into our modes.

But apropos of wars, isn't it funny how they affect the passing fancy in clothes. When the North and South were throwing bombshells at each other, certain gaudy, awkward pieces of headgear, below Mason and Dixon's line, were called "gunboats." The term "rough and ready" sprang from fighting steel, and now all our hats (wicked high things they are, too), are called Culan, and the latest dress gauds, pinnas and house-brittle webs, like a fairy-spun grenade, upon which the moonlight has fallen—come to us from Manila.

Should the squeezed feet and pomatous looks of the Chinese ladies be thrust upon us, it is a reef may be taken in high heels without injury to their glory. The bootmaker understands: two "liffe" off each, no more magic than this. And when the shoe home the patent leather shoes will look as fine as ever with the Yale-blue spotted stockings, which have been supposed to be gaudy, great silken affairs of white muslin will now show foliage of inky shins, with glaucous dew drops frequently dotting the shining leaves.

Some pretty and inexpensive checked silks are seen in black and white, and when resolved into shirt waists, with

brilliantly. There is a peculiar style of pale beauty—but it must be real—white, looks adorable in white; but, as a rule, color is required to accentuate one's particular style. For instance, dark hair and blue eyes look their best when their owner is clad in pale blue; the brown-eyed brunettes look delightful in pale biscuit, while the fair, pale Marguerite should wear yellow and palest green.

There is much in color, and few women know how to make the most of it. Black is either very becoming or quite the reverse, though, on the whole, it is smart, especially for evening wear.

The Louis XV period in dress is more and more in evidence all the time. Flowered effects generally in silks, muslins and trimmings are convincing proof that this one page of time has been turned back for inspiration. Brocade silk insertions and motifs are set into lace gowns, and striped and plain muslins are trimmed with medallions of cretonne flowers set inside shaped designs of lace.

With the lace gowns inset with flowered silk, Louis XV coats are worn. These are a decided skirt the back, laid in plaits, as the wide belt in front is fastened with two or three bows, and a high black tulle skirt with a black tulle waist, and black tulle joined together with an open stitch. This sort of coat has a belt which is a wide band of black tulle, and the coat opens wide and turns back with revers of tucked batiste and lace.

These are the gowns, and better still, they are bargains of uncommon excellence, certain firms showing car loads of them at \$2 apiece. These are of the old-time sundown for breadth of brim. The garniture, which is of bias silk, is put on in thick stand-up folds about the brim, one of black and white usual, the other in pale blue or rose. Again the figured and plain trimmings will demonstrate only the end of the tail, with the rough straw seems very pretty, and it is wonderful how much it adds

to the black and white froul has an elaborate trimming of tucked lawn and guipure. A striking costume, which is one of the novel projections for New York, is a pale blue crepe de chine skirt trimmed with very white lace insertion. The blouse is of lace threaded down the front with black velvet ribbon, and the bolero is of black tulle edged around with the lace insertion.

A smart gown in blue linen is trimmed with stitched bands. The revers are of tucked silk, edged with embroidered batiste, and the blouse is of finely tucked batiste with a wide belt of white silk. Last, but not without interest in the weather, is the long yachting cloak of white serge, lined with primrose silk. Two of the three collars are of the same silk braided and finished with a band of the serge. The middle collar is of serge with the same decorations on the edge.

## NO CONTEST.

Lorillard's Heirs Will Try to Save Rancocas.

New York, July 14.—While a contest over the will of Pierre Lorillard, Sr., is still in doubt, the feeling is well defined that the celebrated New Jersey stock farm, will be saved to the name whose racing colors it has so ably served.

No one connected with the Lorillard family has authorized a statement that action will be taken to break the testate. Both Pierre Lorillard, Jr., and T. S. Lorillard deny that certain intentions of the family have been granted by them ever took place.

As has been said, the will, with the single exception of the Rancocas bequest, is wholly satisfactory to Mr. Lorillard's widow and children. The action they will take regarding the objectionable feature has not been decided upon.

That efforts will be made to prevent the literal fulfillment of the provision of the bequest there is but small doubt. Although the statement is made without direct authority, it is believed that no one will be left unturned in the attempt to prevent the passage of the bequest. It is pointed out that an attempt to break the will would in all probability result in success, it is expected that the friends of the family who are interested in the Rancocas will be gained by other means.

Mrs. Allen is said to be much attached to the Rancocas, where she has spent much of her time. That she is firmly determined, however, to face any action that may be taken, is not doubted. It is thought that she will accept other satisfaction in lieu of the bequest.

## BECAUSE OF THE HEAT

Mrs. George Gould Sleeps on Her Yacht.

New York, July 17.—Mrs. George Gould is taking a vacation on the yacht "Sandy Hook" every night in order that the invalid may have the benefit of the cool breezes from the ocean.

She is said to be in excellent health and the entire Gould family is on board the yacht.

Each morning the yacht leisurely steams to the upper bay and anchors off Liberty Island, when Mr. Gould goes ashore and to his office. He is then joined by his family, and the yacht returns to the harbor.

Dr. Kimball, the family physician, is in constant attendance on Mrs. Gould, and two trained nurses are at her couch all the time. The daily trips have been very beneficial to Mrs. Gould's health.

Mr. Gould generally leaves his office in the Western Union building at 5 p. m. He rides to the Battery, and then enters his launch, which steams out to the yacht. Anchor is then weighed at once, and the yacht starts on its way slowly through the Narrows. Sometimes the yacht, on calm nights, steams down the Jersey coast a short distance, always returning to the Sandy Hook anchorage.

## How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. Cheney, 1110 Co. Prop., Toledo, Ohio.

He, the undersigned, have known F. J. Cheney for the last fifteen years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligation made by him.

WEST & TRUAX, Wholesale Druggists.

WALDING, KINNAN & MARVIN, Wholesale Druggists, Duluth, Minn.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price, 50¢ per bottle. Sold by all druggists. Testimonials to be sent to F. J. Cheney, Toledo, Ohio.

Hall's Family Pills are the best.

## HER OUTING HAT AND STOCK.

The best shape of the year for outing wear is the one shown above. It is light weight straw, fitted on the left side by a band, and black velvet bow, and trimmed above by a drapery of black panne satin and a white breast.

**STRIKE OF THE FIREMEN**

Situation Remains About the Same in Coal Regions  
---In Some Localities Miners Have Taken Places of Firemen.

Wilkesbarre, Pa., July 18.—The third day of the stationary firemen's strike finds the situation about the same, although President Mulhally, of the strikers' association, reports large gains in the Lackawanna region. This is denied by operators, who claim the situation in the upper portion of the coal field is a little better than yesterday. More firemen are at work they say. The operators also have information that it is pointed to be a difficult matter for the strike leaders to get the men in the Hazelton region out. At strike headquarters they say it will not be difficult at all.

While all the mines that were idle in the Wyoming region yesterday are idle today, the companies seem to have slightly the best of it. They have increased the number of firemen at a great many of their collieries. At the Donkeyman mine, where there were men at work yesterday, sixteen are working today. Some of them were miners and it is said members of the United Mine Workers. The action of the miners has created not a little ill feeling among the striking firemen, but they say they are not discouraged. They claim the miners are with them and that while here and there a miner may take a strikers' place, there is no fear of a stampede. Some of the miners are willing to take firemen's places as they claim the firemen had no right to strike at this time. The Parrish Coal company, which yesterday signed an agreement to give their firemen shorter hours, were unable to work today because they could not get cars from the roads.

A bolt of lightning struck the wood-

work in the air shaft of the Stanton mine of the Lehigh and Wilkesbarre Coal company last night and gutted a large body of gas. Four heavy streams of water were sent down the shaft and at 9 o'clock this morning the fire was reported out. The company fought the fire with its own firemen.

Scranton, Pa., July 18.—The firemen who are members of the United Mine Workers will not be called out to support the men who have now tied up half the mines of the Lackawanna valley and territory from Pittston to Forest City. This was the outcome of an informal conference here today between District President Nichols of the Miners' and State President Mulhally of the Stationary Firemen's association. The firemen are provoked over this phase of the situation and are getting their fellow-workers to give up their membership in the Miners' union and join their own organization. It is asserted that 100 men will do so before the day ends.

The situation among the idle miners is unchanged today. The D. & H. company got the Vontsch coal mine into operation today with the co-operation of miners who last night decided to go to work and help to man the boiler rooms. None of the other companies show any increase in number of mines working. The indications today are that other local unions of the mine workers will take action similar to that of the Vontsch men. At the offices of the several general superintendents in this city there is a buoyant feeling that the strike cannot continue much longer. Meanwhile coal shipments from this region are being stopped in order to be ready for any emergency that may arise.

**MISSING.**

Some Fears For the Safety of the Yacht Beatrice.

Milwaukee, July 18.—A special from Racine, Wis., to the Journal says the yacht Cup defender Orion, the Beatrice and the Marguerite, which reached this port about 3 o'clock with sails blown away and disabled. The Beatrice has not been heard from since and it is feared she is either beached between here and Milwaukee or seriously disabled. The Orion after some repairs started for Chicago at 9 o'clock this morning.

**READY FOR RUSSEL.**

His Lordship Will Have Comfortable Quarters.

London, July 18.—In anticipation of the arrival of Lord Russell, the officials of Holloway prison have prepared for his reception one of the rooms formerly occupied by William T. Stead, the editor and member of the Jameson raiders. It is a commodious apartment in which his lordship can be supplied with his own.

**A FIGHT REPORTED.**  
Pittsburgh, July 18.—It is reported here that a fight occurred today at the National hotel between a non-union fireman and a union fireman. The non-union fireman is reported to have been shot and slightly wounded.

**BOUGHT DRY DOCK.**  
Washington, July 18.—The navy department has purchased the big floating steel dry dock, which lies in Havana harbor, from the government of Spain for \$155,000.

**SENTIMENT**

Is the Basis of Strike, Says Steel Trust.

**Will Not Arbitrate Present Difficulty.**

New York, July 18.—The following official statement, according to the Journal and Advertiser, has been given out by a member of the firm of J. P. Morgan & Co.:  
"The United States Steel corporation will not consent to any arbitration of the present difficulty. There is nothing to arbitrate. The company stands willing to agree to the demands of the men as to wages and hours. If there is any other question at issue, it is merely a sentimental one raised by the Amalgamated association."

Pittsburgh, July 18.—There were no features visible upon the horizon of the strike situation this morning which in any way indicated when the climax between the two contending forces will be reached. While there is no doubt that the Amalgamated people are making strenuous efforts towards organizing those mills that are accepted to be non-union and are meeting with some success, the other side is not resting, and is endeavoring to frustrate these efforts at every point.

The Amalgamated people denied yesterday that the mills at Wellsville could be started up, but in spite of this assertion dispatches from that place report at least a partial resumption. It appears, however, that the officials of Amalgamated association will make strong play today by holding a mass meeting at Wellsville, by which means they hope to bring all wavering forces over to their side. President Shaffer and three other members of the committee in their office today that they will leave for Wellsville after dinner.

As to talk of mediation on the part of Ohio state board of arbitration, nothing definite has been accomplished as yet. Secretary Joseph Bishop of the arbitration board has admitted his willingness to submit the matter at issue to mediation, but President Shaffer says there is no intention of doing so. The situation rests for the present until Mr. Bishop has been able to confer with the other members of the arbitration board upon the stand he has taken.

The situation here today remained practically the same as yesterday. No attempt was made to start the Painter mill, and no one could get the mill started. A number of men who were placed on duty yesterday to guard the mill property, but their duties were not onerous, as the strikers made no attempt to interfere with their work or trespass on the company's property.

Notices were posted during the night at this plant to the effect that all men who get their pay get their pay Saturday afternoon at 2 o'clock. Just what will take place when the men meet to receive their pay is hard to conjecture. No trouble is feared, but a report is floating about among the men that the strikers are planning to force the men regarding the stand they have taken.

Management of the plant continues silent.  
At Lindsay & McCutcheon's works in Allegheny, outside of a few men who were employed to care for the furnaces and to watch the plant, there was no work. A report is floating about that the men will be paid off tomorrow. This report is a rumor, but it is said that the firm will import negroes from Alabama, but it was not credited and was afterwards denied.

At Monongahela iron works, the men in the finishing department were closing up their work, having been notified that the supply of material will be exhausted in a day or two, when the plant will have to suspend entirely.

The Clarks Sons' plant, in Lawrenceville, in house workers are all at work at the Humbert plant of the American Tinplate company. The Amalgamated men are out. Repairs were begun today, but an effort was made to get the plant in operation with this work. Manager Stone of the Pittsburgh Tinplate works at Kensington, Pa., gained a slight victory when, after several conferences, he succeeded in getting his striking iron workers to return to work. The men had asked for an increase in wages. The mill managers, however, had refused to meet their demands, but promised to have a definite answer by Saturday, July 20. The men then agreed to a settlement.

It is not members of the Amalgamated association who are the trouble at Allegheny works. Manager Brookman of the local mill says he has no doubt as to the result. He says the mill will run right along and will be in operation in a few days.

**ITALY MAKES ANSWER**

Denies In a Positive Manner the Allegation of Secretary Gage That an Export Bounty Is Paid on Sugar.

Washington, July 18.—Secretary Gage now has before him a lengthy communication from the Italian government forwarded to him by the state department, relative to his order placing a differential duty on Italian sugar, because of information received that Italy paid a bounty on her sugar exports. Mr. Gage's order was issued about a month ago, and soon thereafter a brief declaration was made by the Italian authorities to the state department that Italy paid no export duty on sugar. This declaration has now been supplemented by a full presentation of the Italian position on the subject. The communication was in the subject, the communication was in the subject, the communication was in the subject.

**FROM NOME.**

The Steamer Portland Arrives Direct With Many Passengers.

Port Townsend, Wash., July 18.—The steamer Portland, from Nome, arrived here today with thirty-one passengers, including Dr. Newhall, vice E. M. Noden, resigned, and Mrs. E. M. Noden, and a chamberlain, vice Eli Feather, resigned.

**EPWORTH LEAGUE**

Twenty-Five Thousand Meet In Convention at San Francisco.

Meetings Were Formally Opened at the Mechanics Pavilion.

**Triple Devotional Exercises Inaugurated the Lengthy Program.**

San Francisco, July 18.—The Epworth league convention of 1901 was formally opened at Mechanics' pavilion today. For the past week the tide of travel has been toward San Francisco until the Epworth hosts, 25,000 strong, has been poured into the city ready for the opening services. Arrivals continued at all hours last night and in the early hours of this morning, but the last belated train was in and the last tired traveler had been given a warm welcome by the reception committee before the first number on today's program was called.

The great pavilion was decorated and ready. The last lack had been added and the last bit of color had been added in good time. The vast auditorium, with seats for 10,000 and the additional facilities for a chorus of 2000, which will give special concerts, presented a pleasing sight. The entire auditorium was canopied by American flags, while around the gallery railing red and white bunting was draped gracefully, with here and there shields of America and Great Britain, while their respective flags crossed above them. The stage was hung with gold-colored bunting, the state's color.

The throng began assembling early for the opening ceremonies, which began at 2:30 p. m., every one enthusiastic and happy. From the torrid temperature of the East to the cool breezes of the Pacific and a temperature of 60 was a welcome and exhilarating change to the people. If their looks and actions of today may be taken as evidence.  
At 11 a. m. the headquarters of the Lord's supper were held in the First Presbyterian, Central Methodist and the Howard Street Methodist churches. These meetings were purely devotional in character, but were attended by a crowd that taxed the capacity of the places.

At 1:30 p. m. a missionary conference was held at the headquarters on Larkin street. At the same time a business meeting of presiding elders and league officials assembled at the pavilion in order to prepare for the day's activities. When Chairman Filben ascended the platform and rapped for order at 2:30 p. m., every eye in the building had an occupant, while many others sought standing room. The vast audience greeted the chairman with the Christus salute, and then listened to the opening song service. Following is the official program of the day:

2:30 p. m.—Opening of the convention in Mechanics' pavilion. Rev. Thomas Filben presiding. Services, led by Rev. Robert Hubbard; devotion, led by Rev. Judson Hill; addresses of welcome by Governor Gurnea, Mayor Egan, Bishop Hamilton and Rev. J. C. Symonds, of Woodland. Responses, on behalf of the Methodist Episcopal church, by Bishop I. W. Joyce, Minneapolis; on behalf of the Methodist Episcopal church south, by Rev. H. M. Dubose, Nashville, Tenn.; on behalf of the Methodist Episcopal church of Canada, Rev. James Henderson, Toronto; on behalf of the Colored Methodist Episcopal church, A. C. Carter, Atlanta, Ga.

This evening three meetings will be held at the main pavilion, at the Alhambra theater and at the Metropolitan hotel. The principal theme at all these meetings will be "The Young People's Movement in the Twentieth Century," discussed by Rev. Charles H. Bayard Hatfield, of Minneapolis; Rev. Alonzo Monk, Nashville, and Rev. C. W. Willard, of Yonkers, N. Y., respectively.

**IS BETTER.**

Count Tolstoi Has Rallied From Severe Attack of Fever.

St. Petersburg, July 18.—Count Leo Tolstoi, who has been suffering from a severe attack of fever, rallied yesterday and was much better.

It appears that in spite of the prohibition of his doctors, Count Tolstoi insisted upon going out in the weather. He succumbed to an attack of malaria July 10. The following day his fever was much more violent and continued until July 15, when some improvement was noted in the count's condition. July 16 the count suffered a relapse, but strength diminishing considerably, his pulse beat as high as 150 in the course of the night, and his condition was extremely critical. Next morning he showed perceptible improvement. During his illness he constantly spoke of his work, and all his family were at his bedside.

**OFFICERS KILLED.**

Kitchener Reports Deaths of Prominent Boers.

London, July 18.—Lord Kitchener, commanding the British forces in South Africa, reports to the war office as follows: "The Boers who were killed in the Orange River colony."

**GOING TO MILWAUKEE.**  
Colorado Springs, Colo., July 18.—A delegation of Colorado citizens will attend the meeting of the grand lodge of the order in Milwaukee next week. They will depart for Milwaukee by special train and will arrive at the Rock Island. The delegation consists of the following: J. D. Chamberlain, vice Eli Feather, resigned.

**FOSBURG**

Opening of the Trial of a Remarkable Case.

**Young Man Accused of Killing His Sister.**

Pittsfield, Mass., July 18.—The trial of Robert Stuart Fosburg, charged with killing his own sister, May L. Fosburg, last August, was begun here today. The arrest of Fosburg caused a wave of excitement all over New England. The members of the Fosburg family house and attacked Robert Fosburg and his father, and that the young woman was killed by a bullet fired by a burglar.

The prosecution is based on the theory that the shooting was the result of a bitter family quarrel, in which young Fosburg, using his own revolver, shot his sister, although intending the bullet for another member of the family.

A jury was obtained in thirty minutes. The defense challenged but one man. The state challenged two.  
District Attorney Hammond began the opening address for the government with the statement that the jurors should consider the charge as manslaughter, for the case did not have the elements which constitute murder. If the girl was killed through angry care-

lessness on the part of her brother, or during the excitement of a family quarrel, he is guilty," said the lawyer. The government will show, he stated, that there were no intruders in the house that night. The night dress of Fosburg's wife was torn straight down the front and the hem was ripped. The furniture was broken and misplaced in two rooms. The casters on the older Mr. Fosburg's bed were broken. A lamp was overturned and a mirror and screen in the kitchen bedroom misplaced. The district attorney said the defendant had told a different story daily, and that he had showed nail holes for bullet holes. It would be shown that May Fosburg was shot by the 32-caliber revolver owned by the defendant, and that the revolver was held less than one foot from her body, as her night gown was burned and blackened with powder. The government, he said, need not and will not go into the question of the motive, as all it has to show is who fired the shot. During the noon recess the jury was given a view of the Fosburg house and grounds.

**WITH A FEARFUL CRASH**

Four Story Business Block at Grand Rapids Collapsed at an Early Hour, Fortunately Injuring No One.

Grand Rapids, Mich., July 18.—With a crash that aroused residents for blocks around, the four-story Luce building, at the corner of Monroe and Ottawa streets, collapsed at 2 o'clock this morning, doing damage estimated at \$250,000. Half an hour after the building was leveled, fire broke out in the heap of debris and caused considerable damage before it was extinguished.

The building was constructed in 1856. Recent interior improvements have necessitated removing some of the supporting walls and this, it is believed, have caused the accident. Friedman Bros., dry goods and department store and C. F. Billocky's crockery and glassware store, located in the building were completely wrecked. Had the accident happened during business hours the loss of life would have been heavy, as Friedman was one of the largest stores in the city. The only person injured was a child of John Connor of the fire department, who fell from a ladder and sustained internal injuries that may be fatal.

**RUSSELL PLEADS GUILTY**

House of Lords Finds That He Is a First Class Misdemeanant and Sentences Him to Three Months Imprisonment.

London, July 18.—Earl Russell, arraigned at the bar of the house of lords today for trial on the charge of bigamy, pleaded guilty, after lengthy arguments against the jurisdiction of the court.

The trial was carried on with all the pomp and circumstance of a state trial. The middle-age ceremony was the longest lasted an hour. Both the

**BUT FORTY**

Of Eight Hundred Machinists Struck at Reading Shops.

Reading, Pa., July 18.—Just before the whistle blew at 7 a. m. today, the signal for the men to go to work in the Reading railway locomotive shops, a coming railway locomotive, a coming railway locomotive, a coming railway locomotive.

Notice was given that a reply was desired by 10 a. m. as the men should go out by 11 o'clock if a favorable answer was not received. At the latter hour forty machinists left the shops. Over 350 are employed there. The company officials are pleased that so few machinists went out. The principal demands are that nine hours shall constitute a day's work, 12 1/2 per cent increase in wages, time and a half for all overtime, double time for Sundays and legal holidays and recognition of the union.

**FREAK OF MISSOURI.**

Is Pouring Its Waters Into the Platte.

Kansas City, July 18.—The Missouri river has cut its banks at a point eight miles south of Leavenworth, and is now pouring part of its waters into the Platte river. The bed of the Platte is gradually being widened and there is fear that the next few days the bed of the Missouri will be transferred completely to that of the Platte. An island, five miles long, and in some places nearly two miles wide, the change to the Missouri adopts the new channel this land will be transferred from Missouri to Kansas.

**FLED WITH CHILDREN.**

Salt Lake, Utah, July 18.—In an effort to prevent two orphans from being raised in the Catholic church, says a Spokane, Wash., special to the Tribune, Frank

**MICHIGAN**

Appropriations Recommended For River and Harbor Work.

Washington, July 18.—In the annual report of Capt. Charles Keller, in charge of river and harbor work for the Grand Rapids, Mich., district, appropriations for the next fiscal year are recommended in part as follows:

White Lake, Mich., \$35,000; Muskegon, Mich., \$38,000, of which \$72,000 is for completing improvements; Pentwater, Mich., \$4,600, of which \$22,000 is for continuing improvement; Ludington, Mich., \$125,000, of which \$60,000 is for continuing improvements; Manistee, Mich., \$45,000, of which \$33,000 is for continuing improvements; harbor of refuge at Port Huron, Mich., \$50,000, of which \$25,000 will complete existing projects; Charlevoix, Mich., \$51,025; Petoskey, Mich., \$66,000 for continuing improvements.

**WAS INSANE.**

Cause of Terrible Deeds of Farmer Fuerhelm.

Glenwood, Iowa, July 18.—A coroner's jury which has investigated the death of Mr. and Mrs. Fuerhelm and their child, has found that Fuerhelm, driven insane by heat and jealousy, decapitated his wife and her son by a former husband, with an ax, cut the throat of his four horses with a razor, burned his residence and barn and then shot himself after hanging his marriage certificate on the fence.

## WILL GO ON STRIKE

Firemen at Shamokin to Go Out on Friday Morning.

Twelve Thousand Men and Boys Will Be Made Idle.

Mine Workers Union Orders Firemen Members Back to Work.

Shamokin, Pa., July 18.—The local colliery firemen's organization received orders from headquarters, at Wilkesbarre, to go on strike tomorrow morning. There are fifteen collieries between here and Mt. Carmel, the men at all of them having been organized. If the tie up is made complete about 12,000 men and boys will be rendered idle. The strike of 500 employees at Hickory Ridge very ended today by the men having their working cards inspected away from the companies' property. They were advised to do this by United Mine Workers' officials pending the visit of a committee to the various companies to learn whether the operators will not in the future allow the inspection of cards on company property.

Scranton, Pa., July 18.—The executive board of district No. 1, United Mine Workers, in special session here this afternoon, adopted a resolution providing that all stationary firemen, members of the miners' union, who have quit work because of the strike of stationary firemen, shall be ordered back to work at once. Many of these men had deserted to join their trade organization. The action thus clearly defines the position of the United Mine Workers, and emphasizes the decision of Monday, that there will be no sympathetic strike ordered.

## AFTER THEM.

Government Is Pursuing Whisky Smugglers With Much Vigor.

Milwaukee papers bring further news of the arrest of James H. Walker yesterday in Wisconsin by Special Agent Charles S. Crain of the customs service, charged with smuggling. The Evening Wisconsin last evening said: "A warrant was issued for the arrest of Walker in Duluth, but it was lost in the mails. Where it is no one at this time knows, and in order to prevent possible escape upon the part of the prisoner, a warrant was obtained from the United States marshal for the northeast district of Wisconsin. There is no such district, and it is likely that the warrant will float around until it is finally returned to Duluth."

"Special Agent Crain said this morning that there was a great deal of smuggling prevalent along the lakes, and the government proposed to put an end to it. It is a comparatively easy matter for vessels to purchase goods in Canada and bring them into ports of the United States without detection. The duty of the tariff which the government is defrauded of in individual cases is comparatively small, but in the aggregate it is considerable. It is charged that there are many vessels in the habit of bringing liquor into the larger cities from Canada in considerable quantities."

"While it is exceedingly difficult to catch the smugglers, the government officials propose to deal so harshly with those they do catch that they will serve as a warning. At the same time the government has secret agents at work in the larger cities for the purpose of securing evidence against vessels and sailors who are under suspicion."

"One of the sailors on the Bon Ami is said to have turned state's evidence and much of the information secured by the government detectives has come through this confession."

## HAS NO SOLD.

Robert Whiteside Still Owns Fee Interest of Zenith Mine.

Robert B. Whiteside, who owns a quarter interest in the fee of the Zenith mine at Ely, says that so far as he is concerned and so far as he knows, the report about the sale of the fee of the property to the United States Steel company is not correct.

"I have had no chance to sell my interest," he said, "and I do not know what the other owners have done. If there has been any deal it is probably on the interest of the Harvey Iron company, which has owned an interest amounting to 66 per cent."

S. S. Curry, of Ishpeming, Mich., is the principal figure in the Harvey Iron company, and the fact that the report comes from that city would indicate a probability that a deal has been made for the company's interest in the fee.

**New Director Arrives.**  
Mr. and Mrs. C. W. Weeks arrived in the city today from Ottawa, Ill., to remain. Mr. Weeks is to have charge of the music at the First Methodist church and Mrs. Weeks will be the organist. Mr. Weeks will sing for the first time this evening at the weekly prayer meeting and next Sunday Mr. and Mrs. Weeks will be in charge of the choir and organ at the church.

**Daniel Mann Here.**  
Daniel D. Mann, of the firm of McKenzie & Mann, the Canadian railroad owners and contractors, was in the city yesterday looking at the improvements along the lake front. His firm intends

## Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

Air the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidneys.

Kidney trouble causes quick or uneasy heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first clearing your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits.

At all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Name of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

making extensive improvements along the water front at Port Arthur, and Mr. Mann was in Duluth to get some points. He returned to Port Arthur last night.

## CITY BRIEFS.

Thibault, undertaker, 31 East Sup. St., Kelley's hat hospital for sick hats. If you smoke a Tom Reck, you smoke the best cigar on the market. Dewey camp, R. N. A., will give a dance and musical party at the Casino on Friday evening, July 19. Tickets 25 cents.

Last evening Judge Gearhart married Miss Josephine Myrtle Hall and Robert D. Dwyer at the home of Mr. and Mrs. Dwyer, 1515 Broadway. The bride is the daughter of Mr. and Mrs. Dwyer, 1515 Broadway. The groom is the son of Mr. and Mrs. Dwyer, 1515 Broadway. The ceremony was performed by Judge Gearhart. The bride and groom were accompanied by their parents and friends.

A transfer of the title under the old land on the shore of Cedar Island lake, otherwise known as Ely lake, was made this morning in the office of the recorder of deeds. This is the property of the Ely Lake Land Company, which has been sold to E. J. Murphy, G. O. Robinson, F. H. Smith and R. D. Dwyer. The purchase price was \$10,000. The property is located on the shore of Cedar Island lake, and is bounded by the water on three sides.

Under date of July 3 a reply was made as follows: "I am greatly pleased that Clon Stewart should have so honored him as to sit for a bust for the Washington library, of which, if good, you may secure a replica."

"Recognition from the clans goes to the core of my heart as I am very proud of my Morrison Celtic blood."

**MYSTERIOUS BURGLARY.**  
Charles Freimuth Surprises a Thief at Work.

A mysterious burglary occurred last night. The fur store of H. C. Gross, at 106 West Superior, was entered and a \$250 seal-skin sacque stolen. Other valuable articles were strewn over the floor, and it would have been just as easy for the thief to have carried away several of the one he had stolen.

Charles Freimuth, who conducts the Parisian suit establishment in the same store, says that he saw the burglar disappear through the rear window when he entered the store about 11 o'clock last night.

He had forgotten an article of wearing apparel when he left the store last evening and was in the rear of the store, and he saw the burglar disappear through the rear window when he entered the store about 11 o'clock last night.

**MACCABEES.**  
Decide on Plan for Rerating Old Members.

Port Huron, Mich., July 18.—The supreme tent, Knights of the Maccabees, today decided that all old members must be rerated on the same plan as new members at the age at which they joined the order. This was done to have old members bear an equitable proportion of the expense of carrying them. It was also decided to allow the board of trustees to make investments in state bonds instead of confining them to government bonds. The Ladies of the Maccabees are also discussing the rerating question and have appointed a committee to confer with the supreme tent regarding the matter.

**TWO TO DIE.**  
Three Men Sentenced for Murder of Grocer.

Pittsburg, July 18.—"Jack" and "Ed" Biddle were sentenced to death in the criminal court today for the murder of Grocer Thomas D. Kahney, April 12 last and Walter Dorman, April 12, 1900. Biddle was adjudged guilty of murder in the first degree.

## LADIES OF HAREM

Were Responsible For the Fire In the Sultan's Palace.

An Intrigue Against the Lady Treasurer of Establishment.

Women Have Been Tortured to Obtain Confessions of Plot.

Constantinople, July 18.—Owing to the mystery and secrecy enshrouding all occurrences in the Yildiz palace, the real cause of the recent fire has only now transpired. The incident was the result of an intrigue by the ladies of the harem against the lady treasurer of the harem, of whom they wished to be rid.

At the instigation of the conspirators, a negro placed material for a conflagration in the corridor of the palace and some of the women have been subjected to torture in the hope of extracting confessions from them. The lady treasurer was not only dismissed, but she was imprisoned in the palace. Her relatives are influential and have been endeavoring to obtain her release. There have been numerous arrests in consequence of the attempt at the murder of the lady treasurer. Some of the women have been subjected to torture in the hope of extracting confessions from them.

## PROUD OF IT.

Andrew Carnegie Glad That He Is of Scotch Blood.

Andrew Carnegie, writing from Skibo castle, Argyll, Scotland, expresses keen pleasure that Clon Stewart of this city is to honor his memory by placing a Carnegie bust in the new public library.

About a month ago, Henry Taylor, chief of Clon Stewart, wrote to Mr. Carnegie, telling him of the desire of the Scotchmen in Duluth, asking for his sanction and any suggestions that he might be able to make regarding the proposed bust.

Under date of July 3 a reply was made as follows: "I am greatly pleased that Clon Stewart should have so honored him as to sit for a bust for the Washington library, of which, if good, you may secure a replica."

"Recognition from the clans goes to the core of my heart as I am very proud of my Morrison Celtic blood."

**BANK CLOSED.**  
German National at Chilton Wis. In Trouble.

Milwaukee, July 18.—A special from Chilton, Wis., to the Journal says: The German National bank of this city has been closed and Deputy Examiner Baetz is now in charge of the institution. A receiver has been appointed. The bank is in a very bad way. The capital is \$100,000. The assets are \$50,000.

**BOTTLE MAKERS.**  
Form a Combine and Will Raise Prices.

Wheeling, W. Va., July 18.—The latest combination to be formed is of flint glass bottlemakers. There are about fifty manufacturers of glass bottles in the United States and even one. It was formed today, was brought into the combination at a secret meeting held in Chicago, July 15. The capital is \$100,000. The assets are \$50,000.

**HOTEL BURNED.**  
Reported to Have Been Fired For Revenge.

Denver, July 18.—It is reported here that the Radcliffe hotel, cabins and other buildings controlled by the proprietors of the Grand Men lakes have been burned by a mob of seventy-five residents of Delta in revenge. It is supposed, by the killing of W. A. Womack by a game warden last Monday. The property loss is unknown.

**SHIP ON FIRE.**  
New York, July 18.—The full rigged ship Commodore W. H. Allen, in command of Capt. Merriam, with a full cargo of coal, was on fire at Hong Kong, China, which sailed from her berth this morning, has been at the harbor entrance off Genoa, carrying coal and other cargo.

**TO CHRISTEN MAINE.**  
Augusta, Me., July 18.—Governor Hill has designated Miss Mary Prentiss, of Portland, to christen the new Maine battleship, which is being built by the Cramps at Philadelphia.

**ESCAPED FROM JAIL.**  
Perry, Iowa, July 18.—McKay, one of the tramps who killed young Henry Carter, has escaped from the county jail at Adair during the night and has not been recaptured.

**AFTER THE NEGRO.**  
Dinwiddie, W. Va., July 18.—Benjamin Carter and Philip Bennett, whites, were charged with the murder of a negro, Henry Alexander, colored. A posse is pursuing the negro, who undoubtedly will be lynched.

**BECOMING ALARMED.**  
Dallas, July 18.—No rain was reported today in Texas and the intense heat of the past three weeks continues, cotton growers and stockmen are becoming much alarmed over the situation.

## HEAVY RAINS

Visit Various Sections, Doing Some Damage to Crops.

Columbus, Ohio, July 18.—A severe rain and hail storm visited the western part of the state last night, Preble county being the greatest sufferer. Corn and oats in that locality were almost destroyed.

In Wyandotte county the storm cut a swath a mile wide, carrying away nearly everything in its path. Crops were ruined, outbuildings were blown down and many orchards were uprooted. At the camp of the Sixth Ohio National Guard, near Newark, hundreds of tents were destroyed. Sgt. Maj. Ely was rendered unconscious by lightning. Col. C. C. Walker, adjutant, aged 16, was killed by lightning.

Indianapolis, July 18.—Heavy storms swept Indiana last night. Around Columbus, Kokomo and Union City hail is reported as having damaged the growing crops.

**CONSUL DEAD.**  
Horatio J. Sprague, the Oldest In the Service.

Gibraltar, July 18.—Horatio J. Sprague, United States consul at Gibraltar, and the oldest consul in the American service, died here today.

Washington, July 18.—A cablegram received at the state department today announced the death of Horatio J. Sprague, United States consul at Gibraltar, at that place. Mr. Sprague had been consul at Gibraltar since May 12, 1888. His son, Richard L. Sprague, is the vice and deputy consul at Gibraltar, and is jointly that used by the state department that he will be appointed to fill the vacancy caused by his father's death.

The Spragues are Massachusetts family and have held the Gibraltar consularship since 1858. Mr. Sprague was born in 1818. He was a connection of United States Senator M. A. Hanna.

Philadelphia, July 18.—Arthur Orr, builder of the coming presses used for printing the United States census in Philadelphia, is dead at his home at 101 North 2nd St., N. Y., aged 84 years.

For years he made a specialty of printing the census for the government, many of which are still in use. He also built the presses used by the governments of Mexico, Peru and Chile.

**MENTAL CONDITION.**  
of Healer Schlatter Is to Be Examined.

Washington, July 18.—Francis Schlatter, known throughout the country as a "villain" in having, at all times, been in the Central Union Mission authority, for creating a disturbance in the church, and for being charged with vagrancy. It is said steps will be taken to examine into his mental condition.

**BANK CLOSED.**  
German National at Chilton Wis. In Trouble.

## TO STOP FLOODS

Action Needed to Prevent Damage In the Red River Valley.

The Campaign Is to Be Carried On Before Congress.

Funds Are to Be Raised By Township Organizations.

Fargo, N. D., July 18.—The Tri-State Drainage association today adopted resolutions reciting the necessity of some governmental action to remedy recent flood conditions in the valley of Red, and petitioning congress for an appropriation to drain the valley and control the water supply at the sources so as to prevent disastrous floods hereafter. Township organizations on both sides of the river are called on to contribute funds to carry on the campaign before congress. Among the speakers were former Congressman Spaulding, of Fargo, and Michael J. Dowling, speaker of the Minnesota house. Before the convention adjourned sine die it was agreed to meet again in Wahpeton, N. D., not later than Oct. 15.

**ENOUGH STRIKE.**  
Milwaukee Machinists Return to Their Work.

Milwaukee, July 18.—Twenty additional striking machinists went to work today. The foreman in charge of the strike, Superintendent Edwin Reynolds said: "We only need about thirty more men to win. We will be filled up here." Mr. Reynolds left this afternoon for Scranton, Pa., on business.

At the Pawling and Harshbarger shops, it is said that nearly all their former machinists have returned to work. Flier & Stowell's men are not used in the strike. The strikers by a national organizer of the machinists that the men returned to work voluntarily so as to avoid the strike fund, is denied by a number of the men now on strike. They say they had enough strike experience.

## INFERNAL

Machine Worked Successfully But Wrong Man Was Hurt.

New York, July 18.—An explosive machine, sent to John J. Kieckhafer, Brooklyn, a clerk in the office of the police, was exploded today by Edgar Schroeder, a draughtsman in the same office. The machine was blown off at the wrist and his face and breast were mottled with dirt and blood. The machine was a dynamite or gunpowder machine. Kieckhafer was burned on the chest and arm.

The police arrested Benjamin Rosenblum on a charge of assault in the second degree. He was charged with the explosion of the machine. The machine was a dynamite or gunpowder machine. Kieckhafer was burned on the chest and arm.

**VIOLENT SCENES.**  
Brussels, July 18.—Violent scenes occurred in the chamber of representatives today during the debate on the question of the right of the Catholics to hold office.

**HIS PECULIAR GRASP.**  
Old man, who had been blind for years, was seen today in the street, grasping the hand of a young man, and saying: "I am blind, but I can feel your hand."

**THE QUESTION OF THE DAY.**  
The question of the day was the right of the Catholics to hold office. The debate was very violent and lasted for several hours.

## THE CITY ELECTION

Contest Comes In December Under Primary Election Law.

Candidates Must Announce Themselves By November 27.

Primary Election Will Be Held on December 17.

It seems to most people a little early for the discussion of candidates for office at the city election which is to take place next February, but not very many know that the campaign for the coming election will be waged in the early part of December instead of in January. This is for the reason that the next city election in Duluth will be held under the new primary election law which was adopted last winter.

Under the provisions of this law the primary election for the selection of candidates for each party will be held on Tuesday seven weeks preceding the day of election. As election day falls on Feb. 4, the primary election will fall on Dec. 17, and will therefore be one of the diversions of the holiday season. All candidates for office must file with the county auditor, twenty days before the day of the primary election, affidavits announcing their intention of being candidates for nomination at the primary election. The county auditor will make out a list of all candidates, post it in his office and publish it in the official newspaper of the county for two issues. This list must be made out fourteen days before the day of the primary election.

With the primary election to be held on Dec. 17, and the affidavits to be filed twenty days before that, it follows that they must be in the hands of the county auditor on Nov. 27.

Under the law all that any aspirant for nomination for mayor, alderman or any other office has to do to so before the people is to file his affidavit and pay the fee of \$10. The voters of the party whose nomination he is seeking will then decide whether they want him or not. No man whose name goes on the ballot at the primary election can be an independent candidate for the office sought for, should be unsuccessful.

The primary election law does not, however, bar out independent candidates. A man who does not go before the voters of the party at the primary election can get out petition in his own name and run as an independent candidate.

The man who regularly seeks a nomination and fails to get it cannot run anyway, however.

**TO KEEP THEM WARM.**  
Plans For Comfort of the Congressmen.

Washington, July 18.—Persons who visit the capitol building and are given the privilege of looking into the house of representatives would never recognize it as the place where so much legislation of such importance to the country has been enacted into law. Instead of the desks, chairs and other furnishings of the house, they would find a large room barren of furniture or floorings, in which are employed fifty mechanics and laborers, dressed in the customary garb of the laboring man. Some of these engineers are at work while the flooring, while others are mixing cement, and still others are supplying the workmen with the necessary material.

This the flooring is about three feet below a wooden floor which will be laid and upon which will rest the desks and chairs of the members. Inquiries as to the reason for having such expensive tile flooring, which will be entirely obscured by one placed above it, developed the fact that the tile will be used as one section of a "heat chamber." The walls of the building will form other portions of this chamber, and the floor of the house will complete it.

The reverse side of the chamber will be given two coats of tar and paint. This process will confine the heat to the chamber into which it is discharged by pipes. This chamber will be filled with heat during cold weather, and it will be supplied to the house by radiators placed in the floor. Many complaints were made because the old heating apparatus was not sufficient to maintain a temperature which made the chamber comfortable and the "heat chamber" is an experiment which the experts believe will prove successful.

## THE DAKOTAS

Melquist, the Missing Fargo Butcher Found In Canada.

NORTH DAKOTA.  
Fargo—Charles Melquist, the Fargo butcher, who mysteriously disappeared May 3, has been located at Grand Forks, British Columbia. It was thought he had been murdered, as his papers were found near a hole in the ground. The discovery now is that he skipped. Efforts were made that he might have been part of the plot, but he has joined him.

There was a larger attendance Wednesday at the meeting of the Tri-State Drainage Association, held at the hotel of the city of North Dakota, and others. Senator Handberg, who presided, was much interested in the possibility of the drainage plan and thought considerable money should be induced to assist in the work on a proper basis. The drainage plan was consolidated and is even more interested than residents of the Red River valley on the Dakota side.

Langdon—The court house was crowded when the Barry murder case was called on for trial. The trial was held in the afternoon, and was taken by the defense in argument. The jury was called in the afternoon, and the case was taken by the defense in argument. The jury was called in the afternoon, and the case was taken by the defense in argument.

Devil's Lake—Work on the new 3000-bushel elevator in this city is rapidly progressing. It is being built for Thomas G. Winters, of Minneapolis, who will erect the grain elevator on the site of the old one. The new one will be a large room barren of furniture or floorings, in which are employed fifty mechanics and laborers, dressed in the customary garb of the laboring man.

South Dakota.  
Lead—The city council has voted to construct a new sewer in the city. The sewer will be constructed in the city, and will be constructed in the city. The sewer will be constructed in the city, and will be constructed in the city.

Spencer—Cheshopere are doing a great deal of damage to hay and small grain in this vicinity. In some places the hay is being eaten off as bare as a floor and the grasshoppers are in countless numbers. The hay is being eaten off as bare as a floor and the grasshoppers are in countless numbers.

## SCHOOL ELECTION

Appearances Are That There Will Be But One Ticket.

Messrs. Washburn, Moe and Hendricks on the Slate.

Election Takes Place Saturday—Board Meets In Evening.

The annual school election will be held Saturday between the hours of 10 o'clock a. m. and 4 o'clock p. m. It appears now there will be but one ticket in the field and that will be elected without opposition.

The ticket that is now in the field and that seems to have a clear track with no opposition, includes the names of J. L. Washburn, John J. Moe and N. C. Hendricks, the first from the East End, the second from the West End and the third from West Duluth.

If this slate goes through the election will be to replace Director E. R. Cobb with John J. Moe, the well known West End business man, and Director S. L. Frazier with J. L. Washburn. It had been supposed that an opposition ticket might be in the field, with S. L. Frazier as one of the candidates, but it appears that he has gracefully bowed to the force of circumstances that prevented his becoming a candidate.

The strong demand from all quarters that J. L. Washburn be made a candidate practically settled one place on the ticket regardless of anything else. The fact that Mr. Hendricks is from West Duluth, and that he has been a very capable director and has served but a short time, left it certain that he would be one of the three, and that left one place to be fought for. When Director Cobb resigned in favor of Mr. Washburn it looked for a time as though the matter would be settled up easily, but the West End people did not relish this idea of taking one of its representatives on the board away, so the people of that section demanded that Mr. Moe be placed on the ticket.

This was a demand that it was difficult to refuse, so the ticket was filled up. So obviously are all these selections the result of public sentiment expressed prior to the election, that it would probably be impossible for any other ticket to meet this one, and all that remains is the formal ratification, which will take place at the polls Saturday.

The board will meet as formerly constituted Saturday night to canvass the returns and declare the election of the three directors, and the annual meeting and election of officers will be held on Aug. 2.

Washington, July 18.—Guides at the capitol were in despair today growing out of the fact that work has just begun of replacing the ceiling of statutory hall by a new one of steel. The old ceiling, the formation of which was responsible for the echoes, which have proved so interesting to the public, is being replaced by a new one of steel. ## TEXAS OIL NEWS.

Facts to Keep You Thinking.

A telegram from General Manager W. H. Brice of the Saratoga Oil and Pipe Line company, reads:

"Down three hundred eighty-two noon Monday" which means that the Saratoga well on Spindale Top heights was down 322 feet on Monday noon. That is nearly as fast as was expected. It may take a few days beyond Aug. 1 to strike the gusher. But then, what a few days?"

You can buy Saratoga stock today at 20 cents. It is quoted the Houston Oil Exchange at 40 cents asked and 35 cents bid. What shows what they think of it in Texas.

The announcement of the coming in of the Columbia is followed by the strike of the oil in the Manhattan—the sixteenth Street corner—is the near the Hogg-Smythe. The oil was reached with a 6-inch pipe at less than the supposed depth of 200 feet, which is supposed to lie over the lake or oil it may be that the well will be drilled deeper. The Manhattan is in the immediate vicinity of the Saratoga well; probably less than 200 feet away.

The sale of all its export business by the Shell Transport and Trading company, to the taken as an indication that the Standard Oil company is the owner of the Texas oil field. The Shell company is said to be in the possession of the oil field, and the Standard Oil company is said to be in the possession of the oil field.

The fact that Mr. Hendricks is from West Duluth, and that he has been a very capable director and has served but a short time, left it certain that he would be one of the three, and that left one place to be fought for. When Director Cobb resigned in favor of Mr. Washburn it looked for a time as though the matter would be settled up easily, but the West End people did not relish this idea of taking one of its representatives on the board away, so the people of that section demanded that Mr. Moe be placed on the ticket.

This was a demand that it was difficult to refuse, so the ticket was filled up. So obviously are all these selections the result of public sentiment expressed prior to the election, that it would probably be impossible for any other ticket to meet this one, and all that remains is the formal ratification, which will take place at the polls Saturday.

The board will meet as formerly constituted Saturday night to canvass the returns and declare the election of the three directors, and the annual meeting and election of officers will be held on Aug. 2.

## HE PLAYED THE RACES

Louis Kotte of Cincinnati Embezzled Sum of \$20,000.

Arrested on Complaint of His Brothers and Sisters.

Charge He Stole From the Estate of His Father.

Chicago, July 18.—Louis Kotte, son of late George Kotte, the wealthy Cincinnati brewer, is a prisoner at the central station, charged with the embezzlement of \$20,000 from the estate of his father.

Kotte, who is 24 years old, was arrested by Detective Sergts. Corbus and Sheehy at his boarding house, No. 148 Dearborn avenue. When taken to the central station he at first refused to discuss the case, but after talking with Lieut. Joyce he said he had used the money playing the races in Cincinnati, and that he would be able to settle the matter if given an opportunity by his brothers and sisters, who had caused his arrest.

Kotte was made administrator of his father's estate at the latter's death, and for a time managed it well. But he fell into the company of young men who were playing the races and soon became a race-track follower. For a time Kotte, it is asserted, was successful, but finally he began to lose money rapidly. Thinking he would be able to win enough money on a horse to put him even in his accounts, Kotte made a final plunge that cost him over \$5000. Disgusted with the troubles which the loss of money had brought him and the censuring which he received from his brothers and sisters, Kotte says he finally decided to leave Cincinnati. He went to Indianapolis and a few days later Chief Deitch of the Cincinnati police was asked to find and arrest him.

Believing Kotte would come to Chicago, Chief Deitch wired Capt. Callahan, asking him to look out for him. He also informed him that Kotte would be found in all probability, at No. 148 Dearborn avenue. Capt. Callahan detailed Detective Sergts. Corbus and Sheehy on the case. They found their man at the Dearborn avenue house. Kotte was taken before Lieut. Joyce, and he admitted being short some \$20,000, but claimed the matter could be settled, as his sisters had promised not to prosecute him. Kotte said he lived at No. 2378 Wheeler street, Corvill, a suburb of Cincinnati.

"How about the embezzlement of this \$20,000?" asked Lieut. Joyce.

"Well, I guess that \$20,000 will square me with my brothers and sisters. I spent the money in different ways, most of it through playing the races," he said. "I will willingly go back to Cincinnati and stand trial for embezzlement if the remainder of the family want to prosecute me, but I guess it will be settled without coming to trial."

Lieut. Joyce was pleased over the arrest of Kotte.

"This is a record-breaker," he said. "We received a telegram from Chief Deitch at 5:10 o'clock last night, asking us to arrest Kotte, and at 5:40 he was a prisoner at the central station."

DEAD BURGLAR.  
Killed By a Policeman at Ravenna, Ohio.

Ravenna, Ohio, July 18.—Night Police- man Richard B. Farley discovered burglars at work in a millinery store here early today. The officer entered the store and called upon the robbers to surrender. The latter, however, ran into the street and fired their revolvers rapidly at the officer, as they retreated. "Fair- play," they yelled, and the officer, who was unarmed, was eventually dropped dead, shot through the chest by a bullet.

One of the burglars eventually dropped dead, shot through the chest by a bullet. The other was taken into custody. The dead burglar is unidentified.

NOT A WORD  
Could Be Obtained From Carnegie Concerning the Strike.

New York, July 18.—Andrew Carnegie, on being approached at his home in Scotland by a representative of the Journal and Advertiser and asked to express an opinion with regard to the strike, formally declined to be interviewed. He was asked if he would inter- fere and replied:

"I must firmly refuse to do so." "On being asked if he considered the men right in their demands, he said: "I will not discuss the strike."

To the Pan-American Exposition at Buffalo.

The most popular railway from the Northwest to the great show at Buffalo will be the Chicago, Milwaukee & St. Paul.

It runs, every day, five beautiful trains from St. Paul and Minneapolis to Chicago, connecting directly with all Eastern lines.

## RAISES A QUESTION

A. Ammerman Puzzles Board With Reference to Steel Stock.

Claims It Is Only Assessable In New Jersey.

Matter Will Probably Go to the Courts For Decisions.

Is stock in the United States Steel company taxable anywhere outside of New Jersey? A. Ammerman, who is before the board of equalization seeking to escape paying taxes on the Consolidated stock he held last spring, or the proceeds of its conversion into stock of the United States Steel company stock, made the claim yesterday afternoon that his Steel company stock could not be assessed here because it is taxed in New Jersey. He claims that if it is assessed here it would be double taxation. The members of the board of equalization found this question as difficult to them as it would be to the average citizen, so they referred the matter to Associate County Attorney Crosby, who will report upon it later. Several of the members of the board thought that it would not be necessary for that body to pass upon such a question. They believed that it was a proper matter for the courts, so they were inclined to let the assessment stand and have Mr. Ammerman make his fight before the courts.

Mr. Ammerman presented a sworn statement that on May 1 he had no stock properly assessed in this state, and that he had no bank deposit in excess of \$7 in the state of Minnesota. E. L. Bradley complained that some of the taxes assessed to him were assessed both in the city of Duluth and the town of Duluth, as the property is properly assessable in Mr. Bradley's place of business, which is Duluth, the town of Duluth assessment will be cancelled.

One trouble with cutting down all these big personal property assessments that the city board of review made is that the county board of equalization is not empowered by law to lower the assessments of the county as returned. If any reduction is made it must be made on elsewhere, and if these large assessments are cut down the board may be troubled to find some place to add the amount of the reduction.

## TAKE IT UP.

Prominent Duluth Men Join the Eight-Hour Movement.

A number of Duluth's most prominent business and professional men have joined with the local labor organizations to bring about an eight-hour working day.

A meeting was held in the council chamber last night, for the purpose of talking over the eight-hour movement, but owing to the warm weather and the large number of other meetings in the city, the attendance was somewhat disappointing.

The Duluth league was not in session last night, but it will be within a very short time. G. L. Rockwell, secretary of the Minnesota Federation of Labor, has designated Henry Iworschak, vice president of the Federated Trades and Labor assembly, to lead the local league whenever he finds it advisable.

Before leaving for Minneapolis this afternoon, Mr. Rockwell said that he looked for a league in this city with a membership of from 50 to 100 and thought that the charter membership would be at least 100.

Among the prominent men who have joined in the movement are: Mayor Hugo, Bishop McGonigle, William C. Sargent, O. Hudson, Frank J. Craswell, John R. Naff, T. C. Phillips, C. W. Erickson, M. Burrows, Rev. J. J. Connelley, R. E. Jensen, William White, John Pantan, Henry Polk, William J. Sufel and Thomas E. Hill.

The local league is to be organized for the purpose of bringing about an eight-hour day for the employees and for the purpose of concentrating and making effective the strong and rapidly increasing sentiment throughout the entire country in favor of the shorter day.

Last evening's council chamber meeting was presided over by Mayor Hugo. In his introductory address, the mayor referred to many of the benefits of an eight-hour day, and declared that it made a man a much more desirable citizen, than in former days when men had to work long and had scarcely any time to spend with their families.

John B. Swift, a prominent labor leader of Minneapolis, said that the eight-hour movement was a great success in that city and that the league instituted there about a month ago had now a membership of 125.

Mr. Naff brought out the fact that a strong and new point in favor of the eight-hour movement. He referred to the fact that business men and others were willing to go a long way to induce a railroad or some similar concern to come to a city.

"Now, what benefit does the business man get from all this?" he asked.

The money all goes back to the stockholders of the concern, mostly outside the city and the business men do not get a cent. On the other hand the laboring man stays in the city and spends his money with the merchants, and whatever helps him, helps them. To me it is a plain business proposition, and I think that the Duluth business men should all do their best to further the eight-hour movement.

Frank Craswell and Thomas E. Hill also spoke in favor of organizing a league in this city.

Mrs. Winslow's Soothing Syrup  
Has been used for over FIFTY YEARS by MILLIONS OF MOTHERS for their CHILDREN'S COLIC, SOOTHING THE CHILD, SOOTHING THE ALLAYS ALL PAIN, CURES WIND COLIC, ALL the best known remedy for DIARRHOEA, SOOTHES the stomach, soothes the bowels, and is sold by all druggists in every part of the world. ## CLOSE CALL.

Small Boys Play Lynching With Almost Dismal Effect.

A small boy was nearly lynched by playmates on the East End yesterday afternoon. Had it not been for the breaking of the rope their frolic might have had a very serious ending.

The boys were holding a series of mock lynchings, hitting each other with such terrible blows as "killing three times" or "killing a hand of Indians."

They had a rope rigged up on the porch of a house at 126 Ringwall street. As fast as the charges could be preferred the boys were put through the motions of hanging.

The rope tightened about his neck and he could not get his arms free. In order to hang him for imaginary triple murder of Colostinski, he, however, cooled in standing off his playmates for quite a while and they were unable to get the noose over his head.

Finally one of the boys slipped the noose over his head and he was hanging. The boys who were in the crowd, which followed, Gissell, not feeling the rope about his neck, jumped off the porch. The rope tightened about his neck and he could not get his arms free. In order to hang him for imaginary triple murder of Colostinski, he, however, cooled in standing off his playmates for quite a while and they were unable to get the noose over his head.

## Triumph For American Commerce.

It is reported that an American syndicate may buy a leading line of British ships, conduct it in our usual style and carry an important part of the world's commerce with it. America always takes the lead in matters of this kind. It also leads the world in medicine. There is no tonic to equal the old reliable Hostetter's Stomach Bitters. It sets things right in the stomach. When this is done, the nerves are supplied with proper nourishment, adding tone and vigor to the entire system. It is a sure cure for dyspepsia, indigestion, constipation, biliousness, and kidney troubles, and a preventive for malaria, fever and ague. It is also a great blood purifier and should be in every household. Don't fail to try it.

## Excursion to Houghton and Hancock Friday, July 19th, on Steamer Argo.

Leave Duluth's dock 5:00 p. m. Returning, arrive Duluth early Sunday morning, arriving July Saturday in the Copper Country.

FARE \$3.00 ROUND TRIP, including meals and berth.

## Ingalls-Barker.

The marriage of Miss Ruth Ingalls and Edward Mortimer Barker took place yesterday afternoon at the home of the bride's mother, Mrs. Ruth Ingalls, of 36 East Fourth street. Rev. Dr. Ryan officiating. Miss Florence Williams sang "Oh Promise Me" after which the bride party entered to the strains of Mendelssohn's wedding march. The bride was given away by her mother. After the ceremony a dainty luncheon was served. The young couple will go to Buffalo and other Eastern cities on their wedding trip, after which they will be at home at 315 East Fourth street.

## A Close Call.

Yesterday afternoon about 4 o'clock a fire broke out in the store, forming the base of the bay window of the Night Guard club on First street and Third avenue west, fell and was broken into a thousand pieces on a street in front of a woman who was passing and directly on the foot where C. G. Barnum and a friend had stood in communication but a few minutes before.

## Low Rates to Chicago VIA EASTERN MINNESOTA RY.

\$15.55 round trip, account of B. Y. P. 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25. Good returning July 30, with privilege of extension to Aug. 31 by payment of 50 cents deposit fee. Full information at city office, corner Spaulding Hotel and Union Depot.

## WEATHER FIGURES

Some Statistics as to Summer Temperatures at Duluth.

Show That Sunday's Skyward Shoot Was a Rare Break.

July Generally Warmest Month of the Year.

Among other things that the Duluthian is always bragging over is the delightful climate at the head of the lake during the summer months, and a great deal has been done in the way of advertising it among the cities in the warmer belts to induce tourists to come this way. Since the hot wave struck the head of the lakes last Sunday, bringing two days of excessive heat, the press of some of the cities farther to the South and the East have fallen to the Duluthian's sarcasm. Reference, however, to the records of the local weather bureau, in charge of Forecaster Richardson, gives some interesting data regarding temperatures since the year 1874, figures that are not to be met. The records of maximum and minimum temperatures only go as far back as 1874, for it was in that year that the maximum and minimum temperature thermometers were established at the Duluth office.

Since 1874, a period of twenty-seven years, the mean average maximum temperature for the summer months, which are conceded to be June, July and August has been about 63. The mean average temperature for these three summer months was the highest in the years 1872 and 1873, when it was 65.3 and 65.2 respectively. There have been six seasons in the twenty-seven years that the mean average temperature of the summer has been 1.1 above 64, and one season, 1891, when it fell below 60. In that summer the mean average was 59.1.

There were eight days in summer of 1888 when the temperature fell to 59 or below. It is on record as the coolest summer. The summer of 1888 was nearly as cool, the average maximum temperature being 60.

From the records of the local weather bureau it is found that the highest temperatures for the summer months, as a rule, occur in the month of July, but there have been years when it was warmer in June, August and even in September. During the past twenty-seven years the highest temperature has occurred in July eighteen times; in September, three times; in June two times and in August once.

For some time past the papers have been full of accounts of the long season in the season twenty-seven years the average number of consecutive days at the head of the lakes with temperature 60 degrees or above has been two for the month of June, three for July and two for August. The record is compared with that of suffering Kansas. It is not an unusual thing to find a record of the lakes of a week to ten days of consecutive days when the temperature was above 80.

The fact that last Sunday, with its temperature of 88 degrees was the hottest not only of the season but probably the hottest on record here, has been referred to by the Duluthian as a matter of a little interest to know that when the mercury reached 99, on July 12, 1883, the Journal of the local weather bureau says that there was a breeze all day long, whereas on Sunday last there was not a breath of wind to help to relieve the situation. There has been a remarkable scarcity of breezes about the head of the lakes since a record of the local weather bureau says that there has been a breeze all day long, whereas on Sunday last there was not a breath of wind to help to relieve the situation.

## A WORSE FAMINE.

India Threatened With An Unparalleled Calamity.

London, July 18.—India is threatened with famine to an extent unparalleled in the history of the country, according to the British press.

Romeo Duet, a distinguished Anglo-Indian of the imperial revenue department. In an interview Duet said:

"England's oppressive and frequently illegal financial treatment of India is largely responsible for famine. Unless this system is radically changed, the Indian empire will live in a perpetual shadow of famine, with its attendant misery and death. The famine in Bombay has continued two years, and is entering on its third season. This is a condition absolutely unknown hitherto, and unless rains being relief it is impossible to foresee the bounds of the disaster. Practically the only remedy is to reduce the present iniquitous system."

## MINES AT MURPHY'S CAMP, CALAVERAS COUNTY, CALIFORNIA.

The second series of Beatrice Gold Mining Company stock is now on sale at the office of the company, 4 Exchange Building, Duluth, Minn., at

## Super Share

payable in 10 equal monthly payments of 5c per share, or at 45c per share all cash with application.

A new and promising vein has been cut in the tunnel, that adds great value to the property.

The company's mines are in a good stage of development, the mill will be in operation within three weeks, with ten stamps running, the ores are rich, and veins strong and permanent. 700,000 Shares of the stock (Par value \$1.00) will be left in the Treasury after present series has been sold.

## Do you realize the value of this stock as an asset?

Our consulting engineer says the mine will easily produce ten to twelve thousand dollars per month net as soon as the tunnel is completed.

A Duluth corporation, managed by Duluth men, with magnificent prospects. Get the best—Beatrice Gold Mining Stock.

MARGUS W. BATES, Agent.

against the man who has supplanted him in his wife's affections, and refused to disclose his name.

## IN MICHIGAN.

Menominee Chinaman Failed to Get Into United States.

Menominee—Charles Yoot, the Menominee Chinese laundryman, who left a year ago for his native country on a visit, reached San Francisco on the return trip recently and was refused admission to the United States by the agents. Menominee Chinese work and it is thought by some that their work has caused some of the blight to grain heads, especially where blight appears in spots.

Yoot was classified with the other Chinese men as a laborer, refused admission, and sent back to Tokio.

Abraham Skoway, merchant tailor, voluntarily filed a petition in bankruptcy. Liabilities, \$200; assets, \$100. Milwaukee and Chicago concerns.

Dr. Lund, of Marinette, through his attorney, Quinlan & Daley, has filed a petition for the city of Menominee that he be appointed receiver of the city of Menominee, which have been in the hands of the city of Menominee, sustaining injuries which have crippled the for life. He suffered a contusion of the foot, an abrasion of the knee, had a shoulder and hip joint badly bruised, and a left arm paralyzed and rendered useless.

Sault Ste. Marie—Officer Thomas Larke voluntarily filed a petition in bankruptcy. Liabilities, \$200; assets, \$100. Milwaukee and Chicago concerns.

Dr. Lund, of Marinette, through his attorney, Quinlan & Daley, has filed a petition for the city of Menominee that he be appointed receiver of the city of Menominee, which have been in the hands of the city of Menominee, sustaining injuries which have crippled the for life. He suffered a contusion of the foot, an abrasion of the knee, had a shoulder and hip joint badly bruised, and a left arm paralyzed and rendered useless.

Munings—R. G. Elliott, recently appointed postmaster of Munings by President McKinley, to succeed W. H. Closser, assumes his duties this week.

## ANARCHIST NO MORE.

How Mr. Dargazewski Escaped From Russia.

Omaha, Neb., July 18.—A timid little woman with the red cheeks and dancing eyes of the Russian peasantry has reached Omaha after a journey of 5000 miles to join her husband, Stephen Dargazewski, in a land of freedom. The young Russian was a member of a Moscow nihilist society, and escaped deportation to Siberia by a sensational escape from Russia to the United States.

Dargazewski was a cobbler in Moscow. Overhead his shop there was a club where the students spent beer and the street there was a struggle and Dargazewski escaped with several others. The young cobbler was the only one who survived.

Six months ago Dargazewski came under police surveillance, and one night the club was raided, a dozen incendiaries being captured. On the way to the prison there was a struggle and Dargazewski escaped with several others. The young cobbler was the only one who survived.

Today Schlitz agencies so dot the globe that when it is midnight at one it is noonday at another.

The quality by which Schlitz beer has won distinction has been its absolute purity. Every physician the world over will recommend Schlitz, the beer that made Milwaukee famous.

Phone 233, Schlitz, 35-40 Railroad Ave., Duluth.

London, England.

**YOU MAY NOT KNOW IT,**  
But others do, that we sell trunks, suit cases and satchels at actual wholesale cost.

Wide open every Saturday until 11 p. m.

M. S. BURROWS.

## BURROWS' RE-ORGANIZATION AND EXPANSION SALE!

Your presence in overwhelming crowds attests your confidence in the absolute truth of our announcements. We know—and you know—that it would be commercial suicide for us to attempt to trifle with that confidence. Some there are—doubtless—who imagine that the values quoted here are too great to be true—but they are not regular patrons of *The Burrows Store*. A visit will at once dispel the suspicion of a doubt as to the genuineness of the bargains enumerated here, as well as convince the most skeptical that the half is not told. Hundreds of other—and equally attractive bargains stare you in the face from every department of the store. It would take the entire space of this newspaper to enumerate and describe the host of extraordinary values at your disposal here in this Great Re-organization and Expansion Sale.

### Continuation of the wonderful Shoe Sale.

Hanan's and Burrows' \$5, \$6 and \$7.00 Shoes at \$3.50, 300 pairs Hanan's and Burrows' bench made \$5, \$6.00 and \$7 Shoes in all the new up-to-date lasts and styles—this includes all this season's light-weight Tan Shoes; none reserved; your choice here for only—

Men's stiff and soft hats—this season's latest styles and colors—\$3.00 and \$3.50—all qualities—  
\$2.15

## DRIVEWAY ON POINT

A Former Duluth Architect Writes In Its Favor.

F. W. Fitzpatrick Says Land Should Be Acquired Now.

Claims That Every Day of Delay Will Cause Regret.

To the Editor of The Herald:

Recent issues of The Herald tell me that there is opposition to Mayor Hugo's scheme of buying land for a driveway on the Point. Now, that is really too bad, and for heaven's sake do all you can editorially to get these short-sighted and over-economical objectors into line.

A driveway is about all the city can acquire now. Twenty years ago it could have gotten the whole Point for next to nothing; twenty years from now it may not be able to get even a driveway, save at fabulous expense. Ten or a dozen years ago a few of us there advocated a driveway on the lake shore and a park reservation the full width of the Point at Oatka. I remember making the drawings for the scheme; there was to have been a dock for pleasure craft on the bay side of the park, pretty gardens, shelters, etc., etc. the whole thing, purchase and improvements, would have cost but \$22,000! I don't know how much that driveway will cost you now, but rest assured, it will be money well spent. Then as now there were objectors, and, confound them, they won out and gloated over their victory against "municipal extravagance."

Yes, get that driveway, even if you have to go into debt to do it. Every day you delay will be matter for regret later on. That's one trouble with you Duluthians—I know your virtues and applaud them, but I will not hide your faults—you live too exclusively for today. Hang it all, think of your children's children a bit, at least in matters municipal.

I urge and advise this purchase now, even if you do not appear to gain upon improving it, as an old Duluthian, deeply interested in the city's welfare (and pretty deeply, yes, away down deep, in many of its lots), and as one competent to advise in such matters; a professional adviser whose services are at this time given gratis—you people have paid me enough in years gone by, when times were flush to improve (or mar) their property, public and private, to have preserved a rather wholesome opinion of the value of those services, too.

For years have I been engaged in correcting municipal bungles and shortcomings and shortsightedness, and I hate to see Duluth getting herself into the fix that she'll have to pay some fellow a fat fee to pull her out of it by and by. Take Washington, for instance, a beautiful city, yet, notwithstanding the 4700 acres of parks in the District, land will have to be purchased for \$6,000,000 or \$7,000,000 that could have been gotten twenty years ago for a song, to get things into conformity with the general plan of "redemption" virtually decided upon. You see, it is a little late in the day, and Washington will have to mend much and undo more that has been done, as well as do that which has not been done at all, but Congress has finally wakened up and appointed a commission of experts who hereafter will regulate all matters artistic, heretofore and control the improvements that must all conform to an established general scheme, carefully outlined and to be lived up to in every detail. It's the only way to do those things.

See what it has cost Paris, Berlin, New York, Cleveland and Minneapolis, for example, to correct errors of past administrations in the way of not getting park lands when they could have gotten them, and in things of that sort. Let me suggest something that perhaps you've already thought of. Create a commission or committee of citizens, who will serve without pay, and who will devise a general scheme of parks, connecting drives between existing systems, improving the boulevard, the Point, Lakeside, etc., etc. Let them be enthusiastic men, public-spirited and broad-gauged. Aided by technical experts—you sure can find one public-spirited enough to give his services free, too—they could plan for a hundred years to come, for as big a city as you'll ever have at the head of the lakes. (See how well "Enfant planned for Washington a hundred years ago. Would it be goodness that our predecessors had stuck as close to his plans in all things as they did to the general layout of streets that, as you know, are simply perfect.) Then let your park boards, your boards of public works and the other semi-political bodies come and go, but see that whenever they do make any moves, improvements, purchases or what not, that those are in conformity with that adopted plan. See that they never mar it; keep it always in sight and make everything done tend to its gradual development. Let there be no hap-hazards, no startlingly original schemes and deviations. Let that plan be your evangel, your guide in municipal improvements.

One more suggestion, my lastly. Ask good men to serve on that commission, active, bright fellows, but you should put one man on permanently, and that man is Roger S. Munger. No one there has done as much for the city, has made the personal sacrifices for the public weal, and has so persistently maintained, in the face of adversity and every other calamity, so public-spirited a devotion to your interests as has that man. And few men have better, more artistic yet practical ideas of what municipal improvements should be than he. I may add, too, that few men have been thanked less than he has been for what they have done for a city, and that without the slightest hope of gain or personal advantage. By all means put Munger on such a board. It will please him and be a rather late but acceptable testimonial of appreciation.

But, see, I started off to make a wee bit of a suggestion pro bono publico, as an "old subscriber" or something of that sort, and here am I pouring along in a regular sermon, a full-fledged epistle to the Duluthians! A bad habit is that sermonizing. I must break it off.

F. W. FITZPATRICK.  
Washington, July 16.

The Alaskan Nuggets is the best elgar we can make, or anybody can make, to sell at the nickel price.

## TEXAS OIL NEWS.

A Little Something to Think About

The Saratoga Oil and Pipeline company stock is a legitimate business investment. It is based upon the following facts which can be verified very easily.

First. There is known to be a large body of crude petroleum about 1000 feet underground at a place called Spindle Top Heights near Beaumont, Texas. This fact has been proven by sixteen casing wells which have been drilled to date.

Second. The Saratoga company owns in Texas a part of block 30 of Spindle Top Heights and has a well now drilling there which last Monday was down 23 feet, with a 12-inch pipe, and crews working night and day. This well is within 20 feet of the Hogg-Swayne well and within 500 feet of three other big gushers.

Third. The price of oil is about 10 cents a barrel just as it comes out of the well today. A good sized producer will pour out at least 2000 barrels a day or produce \$20,000 a day. Some people put the production more than twice as great, but this is conservative.

Fourth. The Saratoga well should strike oil and bring a production of at least 20,000 a day about Aug. 1, or a few days later. This amount, if they divide it at 6 per cent on a capitalization of \$7,500,000, but the Saratoga well is capitalized at only \$1,000,000 and stock is now offered at only 30 cents a share, which would equal a capitalization of only \$300,000, of which 30 per cent is still treasury stock, cutting down the capitalization to \$200,000 at the present time.

If you get stock in a producing oil well in Spindle Top on the basis of \$20.00 for the well and land, you will be buying a bargain. But the Saratoga company also owns over 1000 acres of all lands on leases, some of which are almost certain to produce great wells. Do you wonder Minneapolis, Duluth, North Dakota and Montana investors are buying Saratoga stock? Write to the Saratoga Oil and Pipeline company, 84 Manhattan building, Duluth, J. H. Bennett, agent.

## TOURNAMENT.

The Tennis Club Is to Begin One Next Week.

The Tennis Club has arranged for a tournament to begin Saturday of next week. All of the local players who are active participants in the game will enter and a fine series of contests is looked forward to. There will be singles and doubles and the men have been arranged in two classes according to their ability. The preliminaries will be played a week from tomorrow and the winners will compete later on with each other and play down to a final decision. The drawing for the singles resulted as follows:

CLASS A.  
Grady vs. Ingalls.  
Anderson vs. Billson.  
Davis vs. Gridley.  
Shannon vs. Payne.  
E. K. Smith vs. Robbins Anderson.  
Cleveland vs. Graf.

CLASS B.  
F. W. Paine vs. Boulter.  
Dancer vs. Brown.  
Miller vs. Peet.  
Gall vs. W. G. Crosby.  
For the doubles the drawing resulted as follows:

CLASS A.  
Billson and Gridley vs. Davis and Graf.  
Ingalls and Cleveland vs. Anderson and Payne.  
Grady and Shannon vs. Robbins Anderson and E. K. Smith.

CLASS B.  
F. W. Paine and Boulter vs. Ritzinger and Crosby.  
Brown and Peet vs. Dancer and Gall.  
Miller and Ames vs. Edison and Griggs.

## ALL FRUITS.

The list of fruits on Michigan street is now practically complete, since new apples and grapes arrived. The grapes, the first of the season, arrived this week, and though they are not in very large quantities and the price is very high, they are good grapes, for they come from Georgia, where a good many good things are grown. For the detection of Northern palates. Grapes are quoted at 30 cents per 10-pound basket, but a little later they will be selling for much less than this.

Strawberries have run so low that they are no longer quoted on Michigan street, though there are a few boxes left in the retail market. Most people, however, have eaten their last strawberry shortcake for this year.

The warm weather has resulted in an increase in the price of eggs, which have gone up from 11 1/2 to 12 1/2 cents up to 13 1/2 and 14 cents. This is because coops have been light during the warm weather, and shippers have been a little chary about sending out large quantities of eggs.

Lemons still continue on the upward grade. Messina are now 36 to 40 per box and California lemons are 42 to 48. Some of the meat is higher. Veal is up 1-cent per pound, and pork loins are now 10 cents instead of 9 cents.

## THE GENTRY SHOW.

It Shows Constant Improvement—Crowds Attend.

Gentry's dog and pony show is the best that has ever been seen in Duluth, and although it has shown in the city several times before, this year, with all of the additions and improvements, it seems that it could not be made any better. In the afternoon yesterday the audience was composed principally of children, with their mothers and big sisters, but in the evening there were a great many men who went to see the beautiful little ponies and dogs. After the performances the children are allowed to ride upon the ponies, and it is one of the greatest treats of their lives to sit up and be carried around by a pony hardly as large as themselves. One little 5-year-old, chubby and round, did not want to mount the smallest pony because she thought that she was too heavy for him. Gentry will be here this evening and will give performances to-morrow afternoon and evening. The tents are at the corner of Third avenue east and First street on the lot lying east of the Armory.

## HALF PRICE

Begins Tomorrow on Ladies' Tan Shoes and Oxfords.

WIELAND SHOE COMPANY.

### CARES FOR THEM.

How Frank Gentry Uses His Employees.

Frank H. Gentry, manager of Gentry's trained animal show, left yesterday afternoon for the Omaha for Bloomington, Ind., to accompany the body of the colored boy who was drowned while bathing at Stillwater last Sunday. The

boy's home is in Bloomington, where the Gentrys have a large farm, and Mr. Gentry will take the body back for burial.

As an instance of how the Gentrys take care of their people may be mentioned the fact that Mr. Gentry took with him yesterday an old and faithful retainer of the show who is crippled with rheumatism and has no place to go. He will be placed on the farm as a pensioner.

Before leaving Mr. Gentry settled for

the doctor's bills of the boy who was bitten by a monkey yesterday afternoon, and settled the matter up with the boy's father. The show people were very much annoyed at the incident. They say that while they take every precaution possible, boys continue to experiment with the animals, and it is unavoidable that such accidents should sometimes occur.

Juniper Ale contains no injurious gases.

### AMUSEMENTS.

SIXTH AVENUE THEATER.  
The Gipsy Stock company played "The Prince of Lovers" to another big house last night at the Sixth avenue theater. The show given away last night was won by James McLaughlin. Tonight the company will present the big scenic production of "The Woman in Black" with scenic effects and all new specialties. Another watch will be given to the one holding the lucky number. A watch is being given away every night.

### Division Engineer Here.

Col. S. M. Mansfield, division engineer of the United States, in charge of this division is in the city on a tour of inspection, the first he has made since he took charge of the district. Yesterday afternoon Capt. D. D. Galliard took him over the improvements under way at the head of the lakes and today continued the inspection of the local work. From here Col. Mansfield will go to St. Paul and inspect work in that district.

## TRADE TO BE FREE

That Is What Board of Trade Wants With Canada.

Resolution For Untrammelled Free Trade Is Passed.

Thought That It Will Be of Benefit to Duluth.

The Duluth board of trade, by a resolution passed this morning, has declared for free trade between Canada and the United States. The resolution was the result of the appeal of a Boston commercial body, which asked that the Duluth board pass a resolution declaring for reciprocal commercial relations between Canada and the United States.

The Duluth board saw the Boston commercial body and went there one better, declaring for absolute free trade. The resolution, which was drawn up by the board of directors and submitted to the board at a meeting held this morning, is as follows:

Whereas, the increased export trade has been a large factor in industrial and agricultural prosperity of the United States; and

Whereas, trade with Canada, our nearest neighbor, is now hampered by needless, useless, and in many cases obsolete, conditions that are working an injury to a large number of American people and doing none of them any good; be it

Resolved, that it is the opinion of the members of the Duluth board of trade that absolute and untrammelled free trade with Canada would be to the lasting benefit of the American people, and that the Duluth board of trade send the president of the United States the following petition:

The Duluth board of trade gratefully recognizes your interest in all questions of trade relations with foreign nations, earnestly petition that such steps as are necessary be taken to prepare, on the basis of equivalent concessions, a reciprocal trade agreement between the United States and Canada, and that the same be brought before congress at its next session.

It has been the belief among many Duluth people that there is every reason why a Duluth body should support such a resolution as this. They argue that free trade with Canada would, as has been pointed out a good many times, mean that Duluth would become headquarters for the trade of a vast portion of the Canadian Northwest, thus adding greatly to the wealth and prestige of the city.

The great objection undoubtedly will come from the lumbermen. The former would make a very decided kick. The difference in the cost of lumber would probably more than make up for anything the farmer might suffer through grain to the northwestern states. The lumbermen would not like such a deal a bit.

The Duluth board was unanimous in approving the resolution given above.

**IMPORTANT ORDERS.**  
Washington, July 19.—Postmaster General Smith today issued two orders of importance to the rural mail service throughout the country. One is designed to avoid the duplication of service in some sections by both star and rural free delivery service and the other limits the private enterprise in which carriers may engage while performing their official duties.

## MAKES HIS REPORT

Capt. Gaillard Recommends Appropriation of \$459,727 For Harbor.

Would Complete All Dredging Under Continuous Contract.

And Wishes to Begin Work on Wisconsin Entry Piers.

Capt. D. D. Gaillard, government engineer in charge of the river and harbor improvements of the Duluth district, has recommended a government appropriation of \$459,727 to carry on the improvements in the Duluth harbor during the next year.

This amount includes enough to complete all dredging under the continuous contract, which called for the removal of 21,000,000 cubic yards of harbor bottom.

The report of Capt. Gaillard was made public by the war department at Washington today. It contains valuable information and important recommendations regarding the improvement of harbors and rivers of Lake Superior.

He reports that the total amount expended to date in dredging the harbor and widening and rebuilding the Duluth ship canal piers and finishing of the canal piers under the continuous contract amounts to \$1,488,034.

In the recommended appropriation of \$459,727 for the Duluth harbor improvements he recommended a sum for starting work on the Superior entry piers, which will probably be rebuilt on the same plan as the new ship canal piers at the end of Minnesota Point.

Under the appropriation recommended, Ashland comes in for \$65,000 worth of improvements during the next year, of which \$50,000 is for continuing the present improvements. Marquette harbor is to get \$60,000, of which \$50,000 is for improvement. The harbor of refuge at Grand Marais, Mich., comes in for a recommendation of \$105,000.

**CITY BRIEFS.**

Tibbets, undertaker, 31 East Sup. St. Kibbey's hat hospital for sick hats. If you smoke a "Tom feed" you smoke the cigar on the block.

The case against Arthur Pennasunt, Will Martell and Harry Leneau, charged with free trade with Canada, was heard in the court of the Superior court yesterday afternoon in police court.

A blazing gasoline stove was being examined in the Sargenta restaurant, Michigan street and Sixth avenue west, at 10 o'clock this morning. A fireman extinguished the blaze without damage or injury.

Special sale on Tarrats tomorrow. 129 West Superior street. A marriage license has been issued to Isaac Acorn and Mary Kankanen.

Judge of Probate Boutin has received word from the Purpus Falls Insane asylum that the parole of Peter Holmberg, who was sent there from this county, J. H. Ostrander, the well known Chicago politician, will be at the Spaulding hotel next week from Monday noon.

A very interesting game that is to be played tomorrow is one between the Duluth Grays and the Board of Trade teams at the driving park. The Grays have Al Cummings back with them now.

The grand larceny case against James J. Schube was discussed in police court this morning. A. G. Cummings was found guilty of keeping an unlicensed dog. His case was continued till tomorrow morning and if by that time he has not paid the fine he will be committed to jail.

The grand larceny case against James J. Schube was discussed in police court this morning. A. G. Cummings was found guilty of keeping an unlicensed dog. His case was continued till tomorrow morning and if by that time he has not paid the fine he will be committed to jail.

### 35c Men's Hose at 25c.

We offer tomorrow the following special value in Men's Hose in plain colors and fancies:

Men's Cotton Hose, in striped and embroidered effects, in blue and black, red and black and a handsome thing in black and white; also the plain drop rib, in tan, red and black. Regular 35c. Tomorrow, 25c.

## RIBBONS

We carry highest grades only, but prices are brought down to the level of the cheaper sorts, that probably accounts for this largest Ribbon business in Duluth. Prices run this way:

Beautiful quality of Satin and Taffeta Ribbon, with colored stripes, in the following colors: Red, light blue, pink, lavender, white--5 inches wide--60c a yard.

Wide Soft Ribbons, just the thing for collars and belts--in fancy stripes, pink, blue, green, turquoise, lavender, navy, red and yellow--5 inches wide--50c a yard.

Parisian Striped Ribbons, in black and white and turquoise and white--6 inches wide--50c a yard.

Liberty Satin Ribbons, in black, white, cream, pink, blue, violet, old rose and red--4 $\frac{1}{2}$  inches wide--45c a yard.

Black and Gold Ribbons for belts and collars, in fancy and plain--4 inches wide--50c and 60c a yard.

Wash Taffeta Ribbons, in all the wanted spring colors. No. 60--25c a yard. No. 40--20c a yard. No. 22--15c a yard. No. 16--10c a yard. No. 12--5c a yard. No. 8--2c a yard.

Narrow Black Velvet Ribbons, Satin back. No. 1--30c a piece. No. 1 $\frac{1}{2}$ --20c a piece--10 yards.

A full line of Black Velvet Ribbons, Satin back, from No. 2 to No. 60--at lowest prices.

## CLIMBING.

Mercury Again Getting Up Toward the Record Point.

"From the sudden rise in temperature today, I would assume that Duluth has been promoted to the banana belt," remarked Forecaster Richardson of the local weather bureau, as he wearily wiped his brow and dropped a piece of ice into the mercury to keep it from boiling.

At 11:30 p. m. today the government thermometer registered 82 and the mercury was still rising. The 82 mark was the minimum temperature on Monday last, so that by this evening it is almost the assurance that even last Sunday's mark is likely to be equalled or exceeded.

Last night was the coolest evening experienced at the head of the lake for a week past, the lowest point reached during the evening being 58.

At sunrise, however, the mercury commenced creeping upward and at 7 o'clock it registered 62 degrees. Even then the forenoon was fairly cool until 11:30, when the wind, which was in the northeast, suddenly switched to the southwest and though brisk, it was laden with huge bunches of heat from the warmed-up sections of the middle West.

But what is worse, the forecaster can promise nothing better than last night, and the sun is shining brightly today. It is a prospect to bring joy to the ice men, but the hundreds of excursionists from down in Minnesota will not have any bugaboo of cool breezes to carry back with them unless the signs fail.

## MURDER SUSPECTED.

Milwaukee Cooper Believed to Have Killed Wife.

Milwaukee, July 19.—John Cooper, a cooper living at 1815 Bond du Lac avenue, is in jail on suspicion of having murdered his wife, Selma. Her claims he found his wife at the foot of the collar steps yesterday, while accompanied by John Furchard, he was going down after a drink of whiskey. Neighbors told the coroner that they heard a woman scream, "John, don't kill me," and a boy named August Boerger, residing nearby, saw Cooper choking the woman. These statements, with the fact that physicians found marks of violence on the woman's throat, the coroner considered evidence enough to warrant the arrest of Cooper. The woman was Breier's second wife and is alleged to have been the cause of Breier's separation from his first wife three years ago.

## SILKS

12.25 Satin Foulards, 75c. 85c Twill Foulards, 65c. Wash Silks, 35c. Tomorrow only.

fact that physicians found marks of violence on the woman's throat, the coroner considered evidence enough to warrant the arrest of Cooper. The woman was Breier's second wife and is alleged to have been the cause of Breier's separation from his first wife three years ago.

Only one heat of heat was reported this far. This occurred between Second and Third avenues west shortly after noon and the sentiment was re-estimated soon enough to be sent where he could have a little care. The case was not serious.

A number of the postoffice carriers appeared in shirt waists today for the first time. The department some time ago gave permission for the carriers to appear in shirt waists, specifying something as to the style they should be. The Duluth men hardly expected to have to avail themselves of the privilege, but they have been driven to it by the excessive heat of this week.

## DIABOLIC OUTRAGE

Baltimore, July 19.—Gen. Felix Agnus, publisher of the Baltimore American, has written the following letter to President McKinley which was mailed:

"William McKinley, president, Canton: Macley's history of the navy is the standard in use at the naval academy. In the third volume just issued, the historian charges Rear Admiral Schley with being a coward, a liar, a caltiff, an incompetent and insubordinate.

In an interview in the American this morning, Macley, the historian, who is a navy department clerk, classed as a laborer and attached to the Brooklyn navy yard, says that proofs of this third volume, which should have told the most glorious story in all our naval annals, were submitted to Secretary Long and Admiral Sampson and approved by them in advance of publication; also, that Long put him in his present position after he had read and approved this scurrilous attack upon Admiral Schley. These proofs were also submitted to Admiral Dewey.

Why ought we need to convince any fair-minded man that a clique in the navy department has conspired to traduce the hero of Santiago and that the conspiracy was carried into execution while that brave and gallant officer was suffering expatriation on the fever infected coast

## All of our Millinery at HALF PRICE.

Your choice of any of our beautiful trimm'd hats are being sold at exactly half regular prices and you know half price here means exactly what we advertise—Mid-summer stock changing is the cause—

## Shirt Waist Suits

Ready-to-wear.

## New Black Dress Skirts

In all-wool Broadcloths and Venetians—advance Autumn shape, having the deep flare flounce—they are trimmed in various ways with satin or silk on velvet. All the linings and the workmanship in our Skirts of course are known to be of the very best. The prices of these new dressy Skirts are \$8.75, \$9.50, \$11.50 and \$14.50. In complete assortment and all sizes.

of fine India Linen, very neatly made, the waist being tucked all over the front and skirt tucked to match--\$4.50 of Grass Linen Suits, Skirt and Waist, tucked, trimmed with straps of stitched Irish Linen--\$5.50. Summer Wash Suits of silk finished chambray, in rose, helle and blue, with silk hem, home embroidered--\$6.75. And then \$7.50, \$9.50, \$11.50, \$13.00, \$15.00 and \$18.00.

of South America, this should furnish it. Will you, Mr. President, in view of all this, all quickly by and permit these conspirators to continue their diabolical work? Every justice-loving American appeals to you to intervene in the name, and for the sake, of fair play. Next to being right all the time, which no man never was, the best thing is to find out as soon as possible that you are wrong and to act yourself immediately.

"PUBLISHER BALTIMORE AMERICAN."

Washington, July 19.—The secretary of the navy has decided that the third volume of Macley's history of the American navy shall not be used as a text book at the naval academy unless the objectionable language it contains in characterizing the action of Rear Admiral Schley shall be corrected.

HE WAS BEGGING.  
London, July 19.—Benjamin Tallman, who claims he was "chief constable for California" for twenty-five years, has been arrested here for begging. He was discharged.

LIGHT RAINS FALL.  
Kansas City, July 19.—There was little rain in the southwest last night. Scattering showers have fallen in Western Missouri and Southern Kansas. At Wichita a thunder storm is reported, while Enid, Okla., fifty miles south of the Kansas line, reported a light rain. Rains also were reported at Kansas City. At 10 a. m. the temperature in Kansas City was 91, 3 degrees hotter than at the same hour yesterday.

Washington, July 19.—The secretary of the navy has decided that the third volume of Macley's history of the American navy shall not be used as a text book at the naval academy unless the objectionable language it contains in characterizing the action of Rear Admiral Schley shall be corrected.

### IS SELLING.

Lumber Beginning to Find Considerable Sale Now.

"Things are things" in the local lumber market this week. Norway pine is reported especially active and for this time of year is a good market. The Leasure Lumber company has sold a fine lot of about 3,000,000 feet of this lumber at \$12.50 per thousand, the highest price on record so far this season. The lumber, however, is said to be of a very high grade. Of the amount sold the Leasure company has about 1,500,000 feet already sawed. The lumber has been sold to Chicago parties and will be sent down the lake as soon as it is ready to ship.

There have also been some sales in white pine of various grades amounting to several million feet. C. R. Ash has sold about 1,000,000 feet this week at fair prices. Eddy & Gynn, last Saturday sold a good-sized lot to Chicago parties. Several other sales are still pending, but will be closed up by tomorrow night.

### THE RAISE.

Stockpiles Tax Will Add Nearly \$600,000 to Valuation.

It is difficult to determine what the effect of the action of the county board of equalization in placing the assess-

### Another tempting offering in White SHIRT WAISTS.

The coolest, daintiest styles; some are quite plain, others very elaborate; all are beautiful and the variety is great enough to meet the tastes of all. The prices too are remarkable for these Waists are now at the height of popularity.

### HAS BEEN IN INDIA

Former Duluth Pastor Home From Long Missionary Service.

Tells of the Terrible Conditions During the Famine.

The Selfishness of People Makes Their Relief Difficult.

Rev. Ben N. Mitchell and wife, who have been in the missionary field in India for the last eight years, and who were in that country during the two famines, are in the city for a few days before going to visit relatives in Illinois. During the time that Mr. Mitchell was in India he had charge of one of the government kitchens, but became so troubled with insomnia that his memory failed, necessitating his return to this country for rest and recuperation.

Eight years ago Mr. Mitchell was pastor of the First Christian church in Duluth, but left to take up the missionary work in India. Rev. and Mrs. Mitchell

were located in the very heart of India, and in the midst of the famine district, a village named Bina. At the hospital kitchen, over which Mr. Mitchell had charge, 3000 helpless people were fed regularly, while 2500, who were able to do a little work, were given light employment by the British government, such as road building, reservoir making and digging wells, bringing them enough food to keep them alive.

The causes of the famine, Mr. Mitchell said, were three in number, the weather, caste and the selfishness of the people. In the first place, the rain did not fall during the rainy season in sufficient quantities to put the ground in shape to raise crops. "The soil of India is different from any that I ever saw in any place, and I believe that there is no other in the world like it," said Mr. Mitchell. "It is, you might say, very black earth, mixed with glue, which, when wet, forms a very sticky although wonderfully fertile soil. We have three seasons in the central part of India, the cold, hot and the rainy, the hot preceding the rainy, baking the ground until it has great, immense cracks in it. The rainy season starts about the middle of June and lasts three months, raining almost all the time. This puts the ground in a condition to raise fine wheat, but when the rain does not show up there is absolutely no way of raising any crops whatever. In the northwestern part of the country they have a system of irrigating canals, which is much better than in the central parts, so that they do not have the fear of a drought that we do."

"Before the first famine, which occurred in the summer of '97 and '98, India had for years of bad crops and the people were in no condition to fight against a famine. The English official at that point kept the state of affairs quiet for some time, but as soon as the home government heard of it it took every means in its power to fight it off and established government kitchens. The inhabitants, however, were very loath to enter them, because they have such a strong feeling of caste, and were afraid of being placed with people of lower degree than themselves. However, the government did everything in its power to respect their religion, and when the second famine came there were none who had any scruples against

going into the government kitchens.

"The Indians are strict vegetarians, and none but the lowest class will touch meat under any circumstances. Most of them would rather die than eat meat, so that we were forced to feed them rice and grains. Cholera broke out, which added to their distress, and although not so many died while in the camp, thousands perished on the way, and I hardly ever rode through the jungle without coming across skeletons which the jackals had picked clean. My wife took 600 orphans and sent them to various orphanages of all denominations during the second famine. Then the Indians have absolutely no idea of sympathy and are supremely selfish. They would never help each other unless they thought that it would bring them some good in their next stage of life, and I will say right here that I see no way out of the famine, except by Christianity. While they have their own religion caste will reign, and the problem would be much easier to solve if this feature were eliminated. They will have that selfishness which will not permit them to help their neighbor, so that it is very difficult for us to help them."

"I understand that in this country the English are criticised for their management of the affairs of India, and I want to say that they have done all in their power and deserve credit instead of censure. The English are very grateful for the help they received from this country during this famine, and I myself impressed it upon the minds of the natives, whenever I gave them any food, clothing or money that I received it from this country, that it was given by the people across the sea, who were cleanliness whatever, and disease and famine are a great deal more difficult to cope with on this country so long, and I see so much of the suffering, that I have been in the country so long, how I think the trouble could be remedied except, as I said before, through Christianity."

"Mr. Mitchell will preach at the First Christian church Sunday morning, at which he says that he will not say much of India. It always makes my head ache whenever I think of those fearful times of famine and desolation," said he, "and my memory is not what it

used to be when I try to think of the people in that country. Still it is a great deal better than it was, and I will be all right after a little while."

Bridges, rivers, tunnels, mountains, builds cities, gathers up the scattered rays of one's ability. That's what Rocky Mountain Tea does. 30 cents. Ask your druggist.

### OVERLOADED.

Complaints Against Ferry Launch Running to Oatka Beach.

Complaint has been made of the big crowds that are carried on the little gasoline launch on the ferry line between Oatka beach and Connor's Point, West Superior. Last Sunday was a big day for the launch, and Superiorites, flocked to the point in immense numbers, some believing that they would find relief from the very warm weather that prevailed on that day. The gasoline launch, which is owned by a West Superior man, did a rushing business. The business part of it was all right, but the

### LIBERALS

New York, July 18.—Invitations to the Liberal club, which began with a select imperial circle, have now been extended to all the Liberal members, but only some thirty have signified their intention of attending, most of the others holding the opinion that the dinner is inappropriate. It is believed that Mr. Ashcroft will not continue himself to the war or to Lord Rosebery's name, but will suggest a definite aggressive policy on which the Liberals can unite for the restoration of influence of the party. Interest is heightened by the fact that, contrary to the expectation of the Liberal members, Mr. Rosebery intends enlarging upon or explaining his arguments in the manifesto, which is owned by a West Superior man, did a rushing business. The business part of it was all right, but the

### Bargain counter No. 1.

Neckties, string ties, and small lot of ladies' neckwear to close at each... **5c**

## SEVERAL TO COME

Next Three Weeks Will See a Number of Excursions.

Great Northern to Bring Large One In Saturday.

Another Is Already Arranged and Northern Pacific Plans One.

The next three weeks will be preeminently one of excursions into Duluth from the farming sections of the Dakotas and Southern Minnesota. The Great Northern company will open tomorrow its excursion season with trains from Evansville, Sioux Center, Metairie, Milaca, Hinckley and various points in Central Minnesota. From advice received at the local office from the agents along the Great Northern line, the indications are that the excursion will bring about 1200 people into the city. Every effort has been made to advertise the excursion in the section of the state from which they will come, and the pleasures of Duluth as a summer resort have been extolled.

The Duluth Improvement association has been active in the matter of sending advertising literature into all the towns that will be affected by the excursion, and a systematic plan has been carried out to get the people thoroughly acquainted with Duluth's immense interests in the industrial world and natural beauty spots for recreation and amusement. Arrangements have been made to care for as many people as can possibly be brought on this excursion. Whether 1200 or 2000, they will find places to eat and sleep.

Various means of entertainment for the visitors while in the city have been discussed, and it is the general opinion, based on experience of the past, that nothing will be more attractive to

Leads them all. Viking Flour stands for the highest in art of Milling Products. Perfect machinery, skilled milling and best QUALITY Wheat makes it sweet, pure and strong. It is a prize winner everywhere.

**GRONSETH & OLSEN,**  
401 and 403 East Fourth Street.

## THIS SALE is one of the Big Successes for which The Glass

Block is famous. Prices have overcome all obstacles placed in the way by torrid weather, and the liberal patronage all this week demonstrates that we have the good will and confidence of the public. The Mill-End Sale positively closes Saturday night, for the mill-end offerings have become almost exhausted, and tomorrow the crowds will be so large that what yet remain will go. There are pronounced reductions in many lines of goods tomorrow, for which the popular demand is great—merchandise heretofore selling at regular prices. We offer exceptional inducements to economize. This sale is one of a series of efforts on our part to unceasingly sell goods at a closer and, at all times, narrowest margin of profit. We strive to avoid misrepresentation of every kind. Only trustworthy merchandise is bought and sold. The Glass Block is becoming more generally recognized by the great majority of the buying public as the *safest*, most *satisfactory*, and *best* trading place at the head of the lakes.

Gents' washable Summer Neckwear, made of fine woven fabrics, nice assortment—Club or String Ties—**5c and 10c**

Narrow Four-in-Hands and English Squares—**19c**

High Band Shield Bows and Batwings—**15c**

Men's fine Lisle ribbed Summer Socks, not done three good days work with a small crew. At the rate the work is moving now it is doubtful if the street will be repaved before snow flies. It certainly will not unless there is much faster work done.

This morning there were signs that the street railway company was about to begin laying the concrete which is to be laid on the tracks. It was taken some time to harden and then the tracks will be ready for use. The work of repaving the street will be completed by the end of the week.

The street railway company has been very free during the past few days to the effect that the street shall like pure in the work of tearing up and relaying the track on East Superior street. The contractors who have the work of paving the street can do nothing until the street railway company has the track fixed more than to meet the curb and since the work on the street began has not done three good days work with a small crew. At the rate the work is moving now it is doubtful if the street will be repaved before snow flies. It certainly will not unless there is much faster work done.

## AMOUNT IS FIXED

Mine Stock Piles Assessed at Fifty Cents a Ton.

Attorney Crosby Holds Steel Stocks Assessable If Owned Here.

Board Also Fixes Valuation of Duluth-Superior Bridge.

The board of equalization finished up the work yesterday afternoon and adjourned, after raising the assessment on the stockpiles at the iron mines to 50 cents per ton. It was estimated that the iron companies would not object to this, and the range commissioners all seemed to think that the assessment was at right. It was not known yesterday afternoon what the raise amounts to, but it was estimated that it practically doubled the assessments on the stockpiles.

This was done after some discussion, and it was a compromise with Auditor Halden's suggestion to assess the stockpiles at 10 per ton. The commissioners who in turn have valued the stockpiles as open mines as stockpiles changed their minds during the noon hour and decided to waive the point. Most of them came to the conclusion that the point was untenable anyway.

Wilson G. Crosby, the board's attorney, presented an opinion to the effect that stocks in the United States Steel company, which is a New Jersey corporation, are taxable here if their owner lives here.

It had been claimed by A. Ammerman, an extensive owner of stock in the steel trust, who wanted to escape assessment on his holdings, that the board took no action on his request for a reduction of his assessment from \$50,324 to \$200. Instead, it passed a resolution definitely condemning all assessments made under the head of stock and bonds other than bank stocks. This means, as stated yesterday, that if the old-timers insist on their objection they will have to appeal to the courts.

The assessment on the Duluth half of the work yesterday afternoon and adjourned, after raising the assessment on the stockpiles at the iron mines to 50 cents per ton. It was estimated that the iron companies would not object to this, and the range commissioners all seemed to think that the assessment was at right. It was not known yesterday afternoon what the raise amounts to, but it was estimated that it practically doubled the assessments on the stockpiles.

## IT IS ISSUED.

Report of Episcopalian Committee on Bible Marginal Readings.

The formal report of the committee appointed by the general convention of the Protestant Episcopal church in 1895 to consider and report what, if any, marginal readings for the English version of the Old and New Testaments the general convention may authorize for its use in the churches.

The committee on marginal readings in the English version of the Old and New Testaments the general convention may authorize for its use in the churches.

The committee on marginal readings in the English version of the Old and New Testaments the general convention may authorize for its use in the churches.

## VERY SLOW.

Street Railway Work on Superior Street Is Dragging.

Comments have been very free during the past few days to the effect that the street railway company has been working very slowly.

This morning there were signs that the street railway company was about to begin laying the concrete which is to be laid on the tracks.

It is Bound Over.

Harry Young, under suspicion as being somewhat of a house prowler, was bound over to the grand jury yesterday afternoon in the sum of \$500 bail. He will be given an opportunity to explain why he wandered about the apartment of Anton Schutte, over 20 West Superior street, about a week ago. His attempted explanation at the preliminary hearing yesterday only served to strengthen the suspicion of the authorities that he is a prowler.

## THE WEEDS.

A Campaign Against Them Is to Be Begun.

Down with the weeds! After weeks of education along civic educational lines the city officers finally persuaded many property owners to remove tin cans and other rubbish from their lots. Now they desire to have all weeds removed.

Mayor Hugo, in speaking of the weed nuisance yesterday said that it spoiled the appearance of laws to have big piles of rank weeds growing on all sides and the seed blowing over the property of the persons who have an endeavor to keep their lots looking trim and beautiful.

He suggested that it was easier and less expensive to cut down the weeds than to remove tin cans and suggested that the newspapers take up the campaign against weeds.

Tom Reed clear is proving a winner for us and will prove a winner for you if you will give it a chance.

Children's fancy colored Parasols, plain and figured with or without ruffles—at each—**25c**

500 Children's Parasols—Saturday, each—**10c**

Ladies' and Misses' Fancy Parasols at Half Price.

## BEATING A FARE.

What Persistent Effort Was Able to Accomplish.

Street car conductors on the West Duluth line were up against a strong proposition seeking free transportation, this morning. Down in West Duluth he boarded a car apparently in great pain and announced that his leg was broken. When the conductor went to collect his fare he said that he didn't have a cent and was on his way to the hospital. He writhed in apparent pain when the street car man told him to get off and succeeded in creating considerable sympathy among the passengers. He was put off down on Onondaga street.

The next car he worked the same game with the same results, only this time he was put off in his car. The next time he was put off was at Garfield avenue, and the last time he was put off was at Superior street near Third avenue west walking along as if he had never thought of a broken limb.

## ECZEMA.

Eczeema sets the skin on fire. The acid poisons in the blood are forced out through the pores of the skin, causing intense redness, burning and itching. So terrible is the itching at times, especially when the body is overheated, that the almost distracted sufferer feels that he could tear the skin to pieces, and that he must scratch or go crazy. He knows from experience that this only makes matters worse, but, made desperate by the terrible burning and itching, he is for the time being indifferent to after effects. There are several forms of Eczeema, the moist, or weeping kind, that comes in little pusules which discharge a watery, sticky fluid, which dries and peels off in bran-like scales. So profuse is the discharge at times that large scabs or crusts form, which scales. So profuse is the discharge at times that large scabs or crusts form, which scales. So profuse is the discharge at times that large scabs or crusts form, which scales.

### THE WEATHER.

United States Agricultural Department.  
Weather Bureau, Duluth. Synopsis of weather conditions for the twenty-four hours ending at 7 a. m. (Central time) July 19.—Light showers or thunderstorms over Duluth, Western Ontario, Western Texas, Atlantic and Gulf states. Thunderstorms continue high in the Central valleys. It is somewhat cooler this morning in the Lake Superior region and generally warmer over Montana. The barometer remains low over New England and Montana, and high over Gulf states, the lake region, Washington and Oregon. The winds in the lake region are generally easterly and light to fresh in force.

Local forecast for twenty-four hours from 7 a. m. (Central time) July 19.—Light showers or thunderstorms over Duluth, Superior and vicinity. Partly cloudy and warmer tonight and Saturday with possibly local showers of thunderstorms. Fresh easterly to southerly winds.

H. W. RICHARDSON, N. J.

Chicago, July 19.—Forecast until 8 a. m. tomorrow: Wisconsin—Generally fair, night and Saturday, slight changes in temperature. Minnesota—Generally fair tonight and Saturday, with possibly local showers of thunderstorms. Iowa—Generally fair tonight and Saturday, with possibly local showers of thunderstorms. North and South Dakota—Generally fair and continued warm tonight and Saturday. Upper lakes—Light to fresh easterly winds; generally fair tonight and Saturday.

**Civil Service Abuses.**

The committee of the council of the national civil service reform league has just made public a statement as to the abuses that exist in the appointment of the 357 employees at the national capital under the patronage of the house of representatives. The statement goes into detail to show that many of the employees who are paid good salaries for services which are supposed to render to the government are in fact doing nothing but loafing about the capitol for several months in the year, and that their salary checks are mailed to them. It shows, further, that many of the employees are carried on the rolls of the capitol as being entirely capable of performing them, and also that certain of the employees contribute portions of their salaries to other employees who are supposed to have "pulls" which entitle them to this additional remuneration. This would be a bit sensational if it were not for the fact that the whole matter was investigated by a committee of the house, which investigated the matter at the last session of congress. The subject was raised somewhat on the floor of the house during the closing session. The report of the civil service reform league comprises nothing in addition to what has already been established by the committee of the house appointed for the purpose. It is admitted that the system in vogue is not a good one. Now that the public has become aware of the facts in all probability there will be changes made at the next session of congress—just enough at least to satisfy the objectors.

In view of the fact that some of the Southern states have practically disfranchised the negroes, by an educational qualification which they cannot meet, an enterprising country teacher in one of the back counties of North Carolina proposes to make voters at a cost of 5 cents apiece. He has issued a circular in which he sets forth his plan, and the result of Saturday schools. He believes that with a corps of teachers he can teach colored men in Saturday schools alone so that by 1902 any colored man of fair ability, industry and earnestness, will be able to read and write the constitution of North Carolina, the constitution of the United States, and also learn addition, subtraction, multiplication and division. These four fundamental rules in arithmetic will enable the majority of workmen to make and keep all their state, there would be no need of disfranchising any constitutional voters. It is a large job that this teacher proposes to undertake, but great results often have small be-

ginnings. In this way the educational qualification may prove a good thing for the negroes.

### THE SCHOOL ELECTION.

From present appearances there will be only one ticket in the field at the school election on Saturday—that bearing the names of J. L. Washburn, John J. Moe and N. C. Hendricks. This is an excellent ticket, being composed of business and professional men of high standing in whom the people have full confidence that they will maintain the efficiency of Duluth's schools, know all over the country as among the best, while at the same time checking any tendency to extravagance and safeguarding the interests of the taxpayers. It is a well balanced ticket in respect to the localities where the candidates reside, all sections of the city being thus assured of representation on the board. Mr. Washburn resides in the eastern section, Mr. Moe at the West End and Mr. Hendricks in what is known as West Duluth. They are all good business men and also well equipped to discharge the varied duties that devolve upon school directors.

The fact that there is only one ticket in the field at present should not cause the voters to stay away from the polls. Every qualified voter should feel it his duty to turn out and vote. Women are eligible to vote at all school elections and they should not neglect this opportunity to manifest their interest in the schools. The polls will be open on Saturday from 10 a. to 4 p. m. These are rather inconvenient hours for the majority of voters, particularly the workmen, but they are fixed by the state law and cannot be changed by the school board. The members of the legislature from this city might secure an amendment to the existing law at the extra session next winter, so that the polls at school elections shall be kept open during the same hours as at the city or state elections.

### HEAD OF THE FAMILY.

A righteous decision has been handed down by a judge in Virginia. It is hardly in accord with the dictum of the Apostle Paul, but he was a crusty old bachelor and his views on the rights and duties of wives are not accepted by even the most devout members of the church. The Virginia judge has advanced a married woman to be the head of a family. Here are the facts:

Not long ago Mrs. Marion H. Richardson, of Plover Point, Va., who kept store, ran the village postoffice and was the breadwinner of the family, filed a petition in bankruptcy. At the same time she claimed the \$2000 homestead exemption that the state constitution allows to heads of families in such cases. When the case came before Justice Wadhill, of the United States circuit court of appeals, he took a different view. He held that a woman may be the head of a family legally as well as actually.

"When an intelligent, active, industrious, frugal woman," he said, "marries a man who, instead of coming up to the standard of a husband, is more dependent, who acknowledges that he is only a helpmate to his wife, obeys her instructions, pours his little earnings into her lap, acknowledges her to be and always to have been the head of the family, and leaves her his support, it would be contradictory of fact and an absurd construction of law to say that he, and not she, is the head of the family and deny to her the benefits intended for the family and the separate estate she has accumulated, because the title is in her and she lives with him."

This is plain justice, and it is also probably good law, as Justice Purnell has a high reputation as a jurist.

### ORDINARY BUSINESS METHODS.

Our consuls are informing the government in their reports that the growing export trade of this country is to be kept up against the combined and energetic efforts of Europe to regain it, ordinary business methods must be employed. Whatever prestige American goods have secured abroad has been purchased at the expense of the consumer at home. To get a foothold in foreign markets the American exporter has banked on the protection of the American market with the high prices that it insured for the bulk of manufacturing output, while with the remnant—the odds and ends of American production—he has gone to the markets of the world with prices to suit occasions. This can not last and can be of no benefit if it did last. A foreign market maintained for the benefit of the foreman, the expense of the consumer at home, may do as an experiment, but will fail as a policy. The warning from the consuls is timely. It dovetails with the advice of Minister Wu given some months ago. That astute observer told the Southern manufacturers that if they wished to invade China with their cotton goods they must first ascertain the needs of the Chinese market. Further, they must consider Chinese prejudices in every particular, because the market for a class of goods might be spoiled by a mere trade mark that happened to be offensive to some latent prejudice of the race. The Chinese, according to Wu, need a coarse cotton cloth which can be put on the market at a certain price and must be cut in certain lengths. It will be useless to attempt to introduce, except slowly, any new colors or textures among the common people. The first thing then to do in securing a foothold in China is to send the commercial drummer there to ascertain what is wanted. Then make goods as close as possible. After the trade is established, the drummer can introduce samples of proposed innovations. What is true of China is true of every other country. There are certain national prejudices which must be ob-

(Copyright, 1901, by W. R. Hearst.)  
The Man's Widow sat in the Other Woman's parlor talking it all over. "So it was an old story," said the Man's Widow. "I only want to know exactly how things were, you know." "Yes," said the Other Woman. "It was an old story. It began before you were even engaged to him." "I wonder what he married me for?" "I've always wondered that," said the Other Woman. "Did he wonder too?" said the Man's Widow. "Oh, yes," said the Other Woman. "We were married three years," said the Man's Widow, "and all that time." "Oh, no," said the Other Woman. "Not all the time. I didn't see him for six months after you were married. I tried so hard to keep away, but—"

"That was good of you," said the Man's Widow. "The Other Woman glanced sharply at the Man's Widow. 'Are you going to faint?' she said. 'I think I'll go now. You've told me all I care to hear. I am glad you have been so frank. Some women might have lied to me about that. You have been very good.' The Other Woman rose and opened the door and the Man's Widow out, and the Man's Widow stepped into her carriage and said to the driver: 'Take me to the nearest telegraph station, please.' When she reached the telegraph station she went in and wrote out a message. This is what the message said: 'If H. Carroll, Cheyenne, Wyo.: Have reconsidered. When will you be here?' She then went home, and she was very comfortable. The Virginia judge has advanced a married woman to be the head of a family. Here are the facts: Not long ago Mrs. Marion H. Richardson, of Plover Point, Va., who kept store, ran the village postoffice and was the breadwinner of the family, filed a petition in bankruptcy. At the same time she claimed the \$2000 homestead exemption that the state constitution allows to heads of families in such cases. When the case came before Justice Wadhill, of the United States circuit court of appeals, he took a different view. He held that a woman may be the head of a family legally as well as actually.

served. It would be useless to attempt to sell wooden shoes in New York or the English heavy walking shoe in Paris. The boot of the northern riverman would find but little sale in Texas. The superior locomotive of the United States are discredited in England—they are not English. We may be able by offering goods at a price that will attract the buyer, to dispose of a small amount, but to get the market and hold it, we must manufacture the articles that the people are used to and which they think they want. To create a taste as well as a market is a task too great even for the United States to undertake.

There is no question that the spirit of combination and community of interests have driven out of employment many thousands of our best business men. What are these to do? They have spent their lives, many of them, in mastering one vocation and it is difficult to change professions late in life. The law of competition, however, opens up another field in their line. The power of capital gained by the formation of the trust will enable the American manufacturer to invade the foreign market. No one now denies this fact. It is being done already in a crude way. What is needed to make the proposition complete is the transfer of all those thrown out of employment in the contraction at home, to the wider commercial field represented by the world-market. The American drummer must be sent abroad. Under the old combines the home market will take care of itself, but the foreign market must be worked up and held. Who is so able to do both as the commercial drummer? Ordinary business methods are required. Indeed, the demand is imperative.

### IT IS UP TO MR. GAGE.

From information obtainable outside of official circles it is evident that Russia desires to be friendly with the United States in spite of the opposition of Secretary Gage. M. Mengo, a son-in-law of Mr. Witte, the Russian minister of finance, president of the Bank of Commerce at Kief and head of the largest sugar refinery in that city, was in London the other day and said to a correspondent: "I don't think there will be any protracted trouble over the sugar duties between the United States and Russia. The amount of sugar exported from Russia to America is so small that it will be useless to attempt to retaliate. Unless there is something behind this matter it ought to be settled without any difficulty. America and Russia should be good friends always. We buy American machinery in preference to any other, and our trade relations are of the best. There is nothing that we should quarrel over. Of course I cannot say what the two governments may have in their minds about this matter, but I speak simply of the Russian people, who are most friendly to

### HE CRAVED DEATH And Starved Himself After Fasting Forty Days.

Lancaster, Ohio, July 19.—Shimon Nogge, a retired farmer, aged 88, after several months' illness, concluded that he wanted to die, and forty days ago began fasting, saying he would starve himself to death. He ate practically nothing and died on the fortieth day. He gathered around the county jail the family that the customary funeral services be dispensed with in his case. He said he wanted no preaching, praying or singing over him. His wishes were complied with, and only a verse of scripture was read and his body was laid in the grave. He leaves a comfortable estate.

### WERE WHITE MEN.

**Assaults of Vernon Newton and Miss Davis.**

Kansas City, July 19.—Had the mob which gathered around the county jail last Friday night, clamoring for the lives of Joseph Robinson and "Bull" Holland, the negroes suspected of assaulting Vernon Newton and Miss Grace Davis, accomplished its desire, it is probable that great wrong would have been done. From the evidence produced at the preliminary hearing, it appears that the three negroes who were under suspicion are the guilty persons, and it seems possible that the assault on young Newton was committed by three white men and not by negroes. This has not been thoroughly established, but sufficient evidence was

brought out to cast a doubt as to the color of the assailants. The court room yesterday was crowded, the spectators being for the most part negroes. They were inclined to be boisterous when anything favorable to the two defendants was brought out, and when a witness stated that three men seen following the couple were white and not negroes, there was a demonstration bordering on applause. Scores of witnesses, all negroes, testified that the negroes were at Robinson's home when the assault took place.

### CARNEGIE WILL PAY.

**Heirs of Mother's Benefactress to Reap Reward.**

London, July 19.—Andrew Carnegie has developed the almost existence of a romantic debt the iron philanthropist's family left behind when it emigrated to the American land of plenty fifty-three years ago. Henry D. Lennox, a resident of Glasgow, asserts that his aunt loaned Mr. Carnegie's mother 11 shillings (\$2.75) to help defray the family's ocean passage, receding the promise of payment when fortune should smile on the Carnegies. Mr. Lennox calculates that, at the rate of 5 per cent compound interest, the little obligation has grown to \$44,000. He suggests that, if Mr. Carnegie can spare the change, he might be disposed to pay member his old friends. Mr. Lennox says: "When the Carnegies left Dunfermline they were so poor that the mother had to borrow money to take them to the ship. The father, a humble joiner in Dunfermline, while the

other is a maiden lady engaged in a small drapery business in Birmingham. Don't you think that if Mr. Carnegie knew this he would be willing to do handsomely by his mother's friends?" Harry Wellington Wack, general manager of a company whose services as a collection agency Mr. Lennox has enlisted, informed your correspondent that the matter has been seriously investigated by Mr. Carnegie during his present visit to his Highland estate of Skibo, and that he has decided to settle a very comfortable endowment on the heirs of the family of his benefactress.

### ACCEPTS COMMISSION.

New York, July 19.—Cornelius Vanderbilt has accepted a commission as lieutenant in the Twelfth regiment, N. Y. S. New York, and the formality of an election will be ordered at once by the colonel in command.

### LILLIAN GREEN DYING.

New York, July 19.—Miss Lillian Green, the well known actress, is dying. It is feared in Roosevelt hospital, from typhoid fever. Miss Green came to New York July 10, from Chicago, where she had been acting, and the next day was removed to the hospital.

## DULUTH A PARADISE

Prof. Walter, Clairvoyant, Finds It a Very Easy Place.

Leaves With Cash and Diamonds Aggregating Large Sum.

Touches a "Count" For a Good Bunch of Sparklers.

Trouble in large, warm, throbbing waves pulsates along the trail of "Professor" Walter.

The "professor" is a purveyor of conversation, information and ghostly guests from beyond the sky. In other words, he is a seer, a fortune teller, a clairvoyant, a medium.

At his bidding, and for a fixed stipend collected by him, restive spooks rise from the pale realm of shades and disport themselves in ghastly glee. The ghostly train walked, night before last, and is reported to have taken several thousand dollars with him. A statuesque brunette vision that accompanied him wore \$400 worth of diamonds the property of a foreign nobleman temporarily residing in Duluth.

It is impossible to estimate the amount of money the clairvoyant and trance medium secured during his fleeting six weeks of residence at 314 East Fifth street.

Some of his dealings with verdant persons are calculated to make the whitest of cheeks glow with envy while others in which he took all the earnings from people that could not afford such an investment, had streaks of pathos romping through them.

Only one person is said to have gotten ahead of the "medium." Into the house on East Fifth street wherein "Professor" Walter held his seances came recently a widow. The long crepe veil and the coquettish widow's cap would have indicated her to be a less experienced than those of the medium.

"You wish a message from your husband," he tentatively.

The widow bowed and stammered a cascade of rippling tears with a black "wedded" handkerchief.

The medium entered his den, from which, shortly after, with mysterious rapids, the dark slits there emerged a white garbed wraith.

"Is that you, George?" sobbed the widow.

"Yes, it's me," was the answer, couched in Stygian syntax. After a few ghostly coquetries the spirit advanced and planted a tangibly material osculatory salute upon the widow's lips.

There was too much for earthly clay in that salute, and the widow was moved to pinch her spectral spouse to be sure it was only a ghost.

There was weird outcry and the display of a muscular pair of arms, which tore off the gauzy garments of the hereafter, the "spirit" revealing himself as still an inhabitant of this muddy vesture of decay.

The largest amount of money secured by "Professor" Walter, so far as known, is represented in the \$400 worth of gems and circulating medium which he estranged from the foreign nobleman.

The count met the professor, who agreed to give him a tip on the wheat market, accepting this tip the count made money. He then went to the market for another tip, and was informed that he would have to go into a trance over a certain amount of money before he could get next to the grain market.

The count left \$200 in cash, and the next day got his tip, but no money. He played the wheat market and lost.

The professor informed the nobleman that the spirits had given the wrong answer, but it is a fact that the nobleman handed over \$400 worth of fashers and he has not seen them since.

To a person enjoying sanity, it seems impossible that people will put their trust in or hand their money to diamonds, they might be induced to give a straight tip for the next day if popularly approached. With that the nobleman handed over \$400 worth of fashers and he has not seen them since.

Most of the callous were women. One woman, who is rather prominent in the East End, visited him nearly every day at the door twice a day. It is not known how much she was roped in for.

Persons living in the neighborhood of 314 East Fifth street say that one afternoon last week they counted twenty persons going into the house of "Professor" Walter inside an hour.

From the number of complaints that have been flooding into police headquarters since the medium's mysterious departure, the "professor" must have struck a regular Klondike.

His brassy vision were seen leaving the house about 10 o'clock Wednesday night. It is supposed that they went toward St. Paul, but there is no trace of them. The "professor" pinned a card on the door just before leaving, saying: "Will be back in half an hour."

Yesterday people that had left money with him began calling and waiting. It was not until late in the afternoon that they began telling their troubles and suspicions to policemen, and then it leaked out that the ghost had walked.

Four women chatted vigorously but not cheerily in police headquarters at money. One had given the medium \$40, another \$25, another \$14 and another \$2.

All declined to give their names, fearing publicity. They claimed also to have come from West Superior, though one of them is known to have a husband and family in this city.

The woman that lost the \$25 said that while she didn't believe in clairvoyants, she thought she would call on "Professor" Walter just for the experience.

He informed her that he was the world's greatest clairvoyant and medium, and that he could tell her where to find a treasure if she would but leave a slight contribution for him to work over during the night. She left the money and the next day he gave her back the money, with some sort of an explanation which, while mysterious, was entirely satisfactory. She then voluntarily offered to let him try again. That's where she lost out.

At the time of the famous "Dr. May" episode last year the count had sought to bar clairvoyants from practicing in this city by fixing a very high license. It seems, however, that the medium has brought out these facts. They can be made use of and added materially to the comfort of the user.

## THE STATE SCORES

Gains an Important Victory In Celebrated Fosburg Case.

May Show at What Distance Powder Will Stain Fabric.

Dr. Paddock Tells of Autopsy on Body of Victim.

Pittsfield, Mass., July 19.—The prosecution gained what may prove to be an important victory, although at present it is not determined in the Fosburg manslaughter trial today, when the court announced that evidence bearing on the distance at which powder stains can be made upon certain fabrics by the discharge of a revolver may be admitted if the prosecution shall produce competent evidence to that effect.

Dr. Paddock, medical examiner of Pittsfield, continued his testimony today, though suffering intensely from a heart affection to which he is subject. He described in detail the manner in which the numbers of the Fosburg family were dressed. Then he said young James Fosburg met the doctor down stairs and later came to the upper room. Dr. Paddock asked him if he had seen any burglars. James said he had not.

Dr. Paddock said it was extremely dark in the house and around it so dark, he said, that he was unable to recognize a man with a lantern who was two feet away from him. Dr. Paddock said he asked Beatrice Fosburg if she saw any burglars and she said she had not. She told him she was standing behind play when the shot was fired and that she immediately went to the farther end of the room to turn on the electric light. She said she saw no one save the members of the family.

Dr. Paddock told of the injuries, alleged to have been sustained at the hands of robbers, by the Fosburgs, father and son. He said Fosburg, the elder, was injured on the knee, his rib cracked and was much disfigured about the head. The younger man had a contusion on the neck.

The doctor then told of a second visit to the Fosburg house, made at 8:30 a. m. The family, he said, were at breakfast. The doctor announced that he had come to hold an autopsy. Robert Fosburg, the defendant, arose from the table and objected to this proceeding. His father, however, interrupted, saying: "Don't interfere, let the law take its course."

At this point, the report of Dr. Paddock as medical examiner of the autopsy on the body of Miss Fosburg was offered in evidence. Counsel had a tilt because of Dr. Paddock's difficulty in reading his own writing. Finally the evidence was admitted.

**Feeding to Fit.** The growing child has a changing need, but a perfect milk can never go amiss. Borden's Eagle Brand Condensed Milk is the acme of substitute feeding. Send for "Baby's Diary." 71 Hudson street, N. Y.

Constipation neglected or badly treated, leads to total disability or death. Rocky Mountain Tea, a purely curative constipation in all its forms. 35 cents. Ask your druggist.

## CONFIDENT.

Baseball Team Certain of Making Fine Showing Sunday.

The Duluth Fashions baseball team starts out with the brightest prospects for its first game Sunday with Superior. All of the Duluth men are in the best of condition and ready to put up the game of their lives. They are working extraordinarily hard. Manager Van Praagh, and if Superior is beatable she will be beaten this time. It will be seen that by the consolidation the Duluth team has an exceptional string of heavy hitters, and it will be a very cold day indeed unless they get an average of a couple of hits apiece.

Staub, who will pitch for the Fashions, is a corner and with the die-hard drop and out-throw to bewilder the awning jumpers. Bennett will play in right field. He is particularly fitted for this place, as a faster outfielder than "Si" cannot be found in Duluth.

The Duluth team will have Booth, he of the mighty left arm, to face Sunday, and although they expect no serious difficulty in getting a few hits, the chances are that mighty few will get their bases on balls. If anything happens, it will be a pitchers' battle.

The Duluth team have been getting out for practice during the week and are in better form for fast ball playing than at the present time than they have been since the season commenced. Van Praagh is going at the bat, and although he had to practically resurrect baseball in Duluth, he seems to have done what he promised and in a much shorter time than anyone expected. The fans will be out to the park in full force Sunday, as the game promises to be the most interesting and gingery one that has been seen here so far.

The only game that threatens to surpass it during the year in regard to the number of brilliant plays made and home runs knocked is the game scheduled in the near future to take place between The Herald and the News Tribune.

The grounds have been put in the best of condition for the game Sunday and there will be no crowding around the catcher.

### PAYING ROAD ORDERS.

County Treasurer Is Again Doing This.

For the first time since early in May the county treasurer is paying up road orders. Orders to the amount of \$200 or \$300 are outstanding and drawing interest, payment having been refused because the road fund was nearly available the treasurer will pay all such orders, and a notice will be published calling them in and notifying the holders that interest on them will not be paid any further now that the road fund has money with which to pay them.

**WON KING'S MEDAL.** London, July 19.—In the rifle shooting contest held at Bletley today under the auspices of the National Rifle association, the king's silver medal was won by Comber, of the Surrey volunteers, with a score of 189.

## CALLS IT UNFOUNDED.

Duluth Man Talks of Michipicoten Story.

A telegram from Sault Ste. Marie says that one Julius George, a prospector, has "jumped" the big Helen iron mine at Michipicoten, owned by the Clergue syndicate. The story goes that the Clergue syndicate had no patent on the mine, he was operating under a mining license.

### FIRE AT CAMBRIDGE.

Minnesota Town Has a Bad Conflagration.

St. Paul, July 19.—A fire at Cambridge, Minn., between midnight and 4 o'clock today, caused a total loss of \$5,000, the principal losses being the Mercantile, P. O. Peterson, Prospector's drug store, the general stores of Alfred Smith and J. J. Johnson, Chomard's saloon, Sauer's jewelry store, and C. M. Johnson & Co., clothing, insurance, etc.

**APPEALS TO STATE.** Denver, July 19.—William Radcliffe has appealed to the state to protect his property at the Grand Mesa lakes. He says that armed men are in possession and threaten to kill his employees if they do not leave Delta county. The trouble arose out of the killing of W. A. Womanek by a game warden. It was reported yesterday that the hotel property at Grand Mesa had been burned out of revenge.

## A COOL PROPOSITION

And a Sure One.

The Body Does Not Feel Heat Unpleasantly If You Use

**GRAPE-NUTS.**

### KEEP COOL FROM PROPER HOT WEATHER FOOD.

People can live in a temperature which feels from ten to twenty degrees cooler than their neighbors enjoy, by regulating the breakfast.

The plan is to avoid meat entirely for breakfast; use a goodly allowance of fruit, either cooked or raw. Then follow with a saucer containing about four heaping teaspoonsful of Grape-Nuts, treated with a little rich cream. Add to this about two slices of entire wheat bread, with a meager amount of butter, and serve one cup of Postum Food Coffee.

If one prefers, the Grape-Nuts can be turned into the cup of Food Coffee, giving a delightful combination. By this selection of food the bodily energy is preserved, while the hot, carbonaceous foods have been left out. The result is a very marked difference in the temperature of the body, and to this comfortable condition is added the certainty of easy and perfect digestion, for the food is readily worked up by the digestive machinery.

Experience and experiment in food and its application to the human body has brought out these facts. They can be made use of and added materially to the comfort of the user.

117-119 West Superior St. **The New Store** 117-119 West Superior St.

**WE** are closing out our Crockery and Tinware Departments to make room for Dry Goods, and everything must be sold out this month, and all these goods in our basement will be sold at a discount of twenty-five, thirty-three and one-third and fifty per cent off.

Now is the time for you to buy Crockery, Glassware, Hardware, Tinware, Toys, Lamps, Trunks, Telescopes, Etc., Etc.

license for two months and was content to leave Duluth several weeks before its expiration. When he rented the house at 314 East Fifth street he had it furnished by two large department stores, agreeing to pay on the installment plan. He made one small payment, but the stores got their goods out of the house yesterday.

Since his sudden departure detectives have been looking up the medium's record. Several of his victims say that they are positive that a certain roguish gallery picture is none other than a photograph of the professor. This picture is that of a "Professor Waldo," a clairvoyant arrested in this city Aug. 12, 1898, by Detective Robert Benson for getting \$400 away from a La Crosse, Wis., bartender. He served time in the Wisconsin state penitentiary for that.

The "professor" is big and jolly. He has winning manners and a very smooth method of manipulating conversation. He is 41 years of age, 5 feet 10 inches in height, weighs about 250 pounds, has blue eyes, and nearly always wears a skull cap.

**WETMORE'S GELATINE.** Granulated or shredded; 10 cents at all grocers.

### SCARS NOT THERE.

State Fails In Identification of Ellis Glenn.

Parkersburg, W. Va., July 19.—The state rested its side of the Ellis Glenn case at noon yesterday, but reserved the right to recall any witness it might deem necessary. All the witnesses for the state were called and the jury returned a verdict of two witnesses on the stand in the afternoon, both of whom testified that they had made a personal examination of Ellis Glenn's face and that there was no scar in either place and no evidence that there ever had been a scar in the identification of the prisoner and the defense found conclusively that the prisoner was free from the scars mentioned.

One of nature's remedies; cannot harm the weakest constitution; never fails to cure summer complaints of young or old. Dr. Fowler's Extract of Wild Strawberry.

or more delicate.

Not a soap in the world has a penny  
more of value.

## DAINTY GOWNS FOR MIDSUMMER

To Look and Be Cool Is Womankind's Aim, and  
Organdies, Nets and Mulls Are  
the Favorites.

New York, July 10.—The excessive warm weather that has prevailed in this vicinity this summer has created a demand for the thinnest available costumes and has brought out a multitude of dainty diaphanous gowns. To be cool, or as nearly cool as conditions permit, has been and is the supreme demand, and the costume that more nearly achieves this end is held best and most desirable. Women who look cool are the envy and admiration of all their friends, and, for the time at least, the gown that suggests comfort is by all means the most smart.

One of the best dressed women the week has seen was gowned in simple white tulle, made in shirt waist style, skirt and waist both tucked, and the neck finished with a frill of inch-wide lace. The waist is made with a narrow tucked front, which is overlapped by the frills proper, and the frill runs across the top of the center, round the neck and down each front. The skirt in-

cludes two graduated circular flounces and a tucked hip yoke. Above the flounces and between the groups of tucks in the waist are insets of the lace insertion, which is the durable and always pretty German valencienne. At the waist was worn a belt of white tulle ribbon, held by a clasp of turquoise and mother of pearl.

White and pale tints of dress are much liked by French women of taste, and are really charming, but no tint quite so dainty as the white of the organdie. The dainty, airy, charmingly showing, and delicate design in pale yellows and soft greens, and is hung over palest green organdie at each seam, with two extra deus of lace above. The waist is made with a high corset belt of blue lousine satin, a lace collar and white chiffon chemise. Corset belts are much in evidence and are singularly effective upon certain figures. Gold and silver ornaments are used in the neck and wrists, and the merit of clinging to the figure in a way that makes the best of pale lines. A recent Parisian model of pale blue linen is made with a bloused bolero of corset of cretonne held by straps and buttons, and is extremely chic and becoming as well as new. Paris disdains velvet for these warm days, and is using black satin. Liberty or supple taffeta for sashes and cravats. These touches add greatly to the effect of really charming and charming. We have grown accustomed to its soft tones in application and need only to select with care to be able to extend its usefulness. The little gown of linen, with its white bolero and full tulle flounced belt, is a pronounced favorite.

Ruffles of all sorts are worn about the neck and shoulders, and are held essential to the completion of really charming carriage and formal outdoor toilets. The latest and the coolest, if cool they can be, are of point d'esprit lace and

with pale tea roses and white chiffon and a parasol of white gave a finishing touch. Tulle are much seen and much admired. One of the latest of June's brides went to the altar in silk mull in which were nine underlaid yards of tulle hand run in a less hopeless model, worn by one of the guests, is of organdie with butter-colored valencienne lace. The skirt is tucked at front and sides, in groups of two each that run to flounce depth, then fall free, and between each two groups an extra deus of the lace. The bodice closes at the back and is also tucked in groups with lace, but forms a yoke at the front, below which it takes soft folds and includes bishop sleeves tucked nearly to the wrists with lace as entre deus, which form soft and becoming puffs above the narrow bands. Other plain organdies are given a peculiar and novel effect by being hung over flowered lousine silk, and some of the flowered nets are as rarely lovely as can be. An example that was seen at a midsummer dance shows dimly suggested rose forms, in the softest gown on a white ground, and is hung over white silk. The skirt is five pored, with a hip yoke of ivory lace, and the frills of plain white net, above which is an applique of the lace. The bodice is a dainty creation with a ruffled collar, a ring vertically, and is made over a low cut sleeveless lining, and is finished with a neck and arms to gleam through the meshes of the net. As is the case with most gowns of a similar style, the stock is of unlined lace, that is threaded with tiny black velvet ribbon, while the sash is of softest gray lousine silk, and the effect of the gray with the white is singularly good, the combination being cool, cool and dainty. The addition is somewhat unusual and chic.

Red has had and still has almost unprecedented vogue, and no tint quite so even the high temperature having caused it to entirely disappear. As a result many occasions have been seen almost garish, and bits of the heat suggesting color have robbed many otherwise good costumes of their charm, and such delicious tints as the gray stand forth doubly fascinating in contrast.

All white retains its hold and is always lovely. A simple morning costume, consisting of a plume shirt and striped madras shirt waist, worn with white ribbon at the neck and waist, and a rough straw sailor, trimmed with cream satin and a single white quill, is as dainty and attractive as need be. Be- green it and the exquisite silk mull can be supplied in cream or white as preferred. For odd skirts, that will not require laundering after being worn, open mesh organdie and grenadine valing are popular, and for cooler weather the same materials make charming boleros and bolero suits. Etamine laid in tucks is singularly successful and charming. The latest whim for an extra jacket is an Eton in box form, tucked over its entire surface and finished with a row of lace. Both white or cream and black are seen, the latter being more serviceable and practical, but the former more charming. The white is more easily adapted to wear with white gowns. As a rule, whatever the outside, the lining is white, and preferably satin, that material being found more durable than tulle.

White and pale tints of dress are much liked by French women of taste, and are really charming, but no tint quite so dainty as the white of the organdie. The dainty, airy, charmingly showing, and delicate design in pale yellows and soft greens, and is hung over palest green organdie at each seam, with two extra deus of lace above. The waist is made with a high corset belt of blue lousine satin, a lace collar and white chiffon chemise. Corset belts are much in evidence and are singularly effective upon certain figures. Gold and silver ornaments are used in the neck and wrists, and the merit of clinging to the figure in a way that makes the best of pale lines. A recent Parisian model of pale blue linen is made with a bloused bolero of corset of cretonne held by straps and buttons, and is extremely chic and becoming as well as new. Paris disdains velvet for these warm days, and is using black satin. Liberty or supple taffeta for sashes and cravats. These touches add greatly to the effect of really charming and charming. We have grown accustomed to its soft tones in application and need only to select with care to be able to extend its usefulness. The little gown of linen, with its white bolero and full tulle flounced belt, is a pronounced favorite.

Ruffles of all sorts are worn about the neck and shoulders, and are held essential to the completion of really charming carriage and formal outdoor toilets. The latest and the coolest, if cool they can be, are of point d'esprit lace and

with pale tea roses and white chiffon and a parasol of white gave a finishing touch. Tulle are much seen and much admired. One of the latest of June's brides went to the altar in silk mull in which were nine underlaid yards of tulle hand run in a less hopeless model, worn by one of the guests, is of organdie with butter-colored valencienne lace. The skirt is tucked at front and sides, in groups of two each that run to flounce depth, then fall free, and between each two groups an extra deus of the lace. The bodice closes at the back and is also tucked in groups with lace, but forms a yoke at the front, below which it takes soft folds and includes bishop sleeves tucked nearly to the wrists with lace as entre deus, which form soft and becoming puffs above the narrow bands. Other plain organdies are given a peculiar and novel effect by being hung over flowered lousine silk, and some of the flowered nets are as rarely lovely as can be. An example that was seen at a midsummer dance shows dimly suggested rose forms, in the softest gown on a white ground, and is hung over white silk. The skirt is five pored, with a hip yoke of ivory lace, and the frills of plain white net, above which is an applique of the lace. The bodice is a dainty creation with a ruffled collar, a ring vertically, and is made over a low cut sleeveless lining, and is finished with a neck and arms to gleam through the meshes of the net. As is the case with most gowns of a similar style, the stock is of unlined lace, that is threaded with tiny black velvet ribbon, while the sash is of softest gray lousine silk, and the effect of the gray with the white is singularly good, the combination being cool, cool and dainty. The addition is somewhat unusual and chic.

chiffon. A charming example is of Chantilly edged with a tiny ruche of white chiffon; another is of white chiffon with an edge of narrow black lace, and a lovely one in point d'esprit has the foundation entire black, or white, with the edge a ruche of tiny ribbon in the contrasting color. Hats, parasols and ruches to match represent the latest whim, and are charming when selected with care. White chiffon, with touches of black, the hat enhanced by a touch of color found in the flowers, is dainty, summer-like and practical, as it can be worn with many gowns. Other novelties are parasols of white silk, bearing the signal of a favorite yacht or the flag of a favorite college, embroidered in one section, and with the corresponding colors knotted at the top. As a matter of course these last are special occasions only, but young girls find them very alluring, and they add to the picturesque charm that is found in the outdoor life and costumes.

The touch of gold is rapidly disappearing from elegant costumes. Bon-bon tints, soft and delicate, are seen in the new silks and satins. Pearl gray and fawn color are expected to be leaders in fall tints in millinery. Ecru and cream are also fashionable, and effective combination for summer gowns.

Chiffon valing in white, black and vivid tints is extensively used for hat trimming.

Long black or white tulle sashes are much worn just now, both with self-colored or contrasting costumes. A box of Parisian design is made of white chiffon roses, with green centers, heavily spangled with stars. Sailor collars in old blue or white, with applique and stitches, form a stylish adjunct to a wash gown. The cretonne applique so smart just now were evolved from a lamp shade decoration at last summer's exposition. The newest colors have the fronts a little longer than the sides without being narrow enough to be called spade-fronted.

## STUDIES IN THE TESTAMENT

### NOAH SAVE IN THE ARK

International Sunday School Lesson For July 21, 1901.

Genesis 8:15-22. "And God spake unto Noah, saying, Go forth of the ark, thou, and thy wife, and thy sons, and thy son's wives with thee. Bring forth with thee every living thing that is with thee, of all flesh, both of man and cattle, and every creeping thing that creepeth upon the earth; that they may breed abundantly in the earth, and be fruitful and multiply upon the earth. And Noah went forth, and his sons, and his wife, and his son's wives with him; every beast, every creeping thing, and every fowl, and whatsoever moveth upon the earth, and after their families, went forth out of the ark. And Noah builded an altar unto the Lord; and took of every clean beast, and of every clean fowl, and offered burnt offerings on the altar. And the Lord smelled the sweet savor; and the Lord said in his heart, I will not again curse the ground any more for man's sake; for the imagination of man's heart is evil from his youth; neither will I again send a flood upon the world to destroy it. In the blessing of the Lord, seedtime and harvest, cold and heat, summer and winter, and day and night shall not cease."

"Noah found grace in the eyes of the Lord." Genesis 8:1. Evil multiplied itself rapidly. When man once began the way of disobedience, there seemed no stopping place to him. There is abundant passage which seems intended to explain why evil increased so much. It says that the sons of God saw the daughters of men that they were fair, and they took unto them wives from among them. Now it is manifest that the daughters of men were not fairer than the sons of men, but that the righteous men married into the families of the descendants of Cain, or whether this is a myth or a real mythological story adapted by the writer to give a figurative explanation to the fact of the prevalence of sin, which puzzled him. At any rate, this is clear, that the passage which means to say that God regretted that he had created man, and that he became roughly evil through the indiscriminate mixture of the good and evil in the world, is a fact of experience easily verified from the moral history of the world.

Philosophy underlying the repeated injunction given to Israel that they should not be like the nations of the world. The New Testament also repeats this exhortation. Men have always spoken of God in such language as more naturally applies to man; but the Bible, which is the word of God, is not contented with this. The Scripture says that, It repented the Lord that he had made man upon the earth. It was a shock to the moral constitution of the universe for man to give himself up wholly to sin. Sin could not prevail with God resigning it never will. It would be better to destroy the sinner than to let him dominate creation, for the dominion sin will lead inevitably to the destruction of creation. Sin is a disintegrating factor wherever it appears.

But even amidst a world so given to evil, there was found a righteous man who with his family could be trusted, for a time, to do the will of God. Noah found favor in the eyes of the Lord, because he walked with God. To him God made known his will. The Scriptures throughout tell us that God was proving to his people that he would only to those who sought to live righteously. To Noah God made known his anger with man on account of his intense sinfulness, and unfolded the plan of destroying the race, with the further plan of saving a remnant. Noah became a preacher of righteousness unto his day, and sought to persuade the people to turn from their sin, but all to no avail. He followed the divine directions for preserving an ark, which in no sense was a family and representatives of the animal species. He was hidden to enter the ark, thus saving his family, but he did so and was saved from the fury of the flood, which lasted a year and ten days.

There are many difficulties connected with the study of this passage of Scripture, and the present article precludes discussion. For the most part, these difficulties are greatly simplified by a frank recognition of the composite nature of the narrative. Those who desire to pursue the study into more accurate details will find a very helpful article in

A new barrette for stray hairs has a lock clasp, which makes it impossible to detach it, except by the assistance of the hand.

Riding habits of khaki with Norfolk jackets are worn with soft white felt hats or pompon trimmed sailor. Linen is also used for riding habits. Fine gold frogs, finished at each end with small metal ornaments in the shape of fruit or berries, appear as fasteners on some new waists of Parisian design.

Square, diamonds and disks appear upon all sorts of lingerie. They are of lace or embroidery and occasionally silk is used on the most elegant undergarments.

Tiny caddy bags of plaited silk, made in exact imitation of the genuine article, with bottom rim of leather, are popular as receptacles for hat and stick pins.

Hedge and tan are the best colors for gowns for railway traveling, with gray next in point of desirability. Black is the worst color for traveling wear, as it shows every speck of dust.

Street parasols of white silk with hemstitched edge and handle of natural wood, are pretty and popular. Sometimes the silk is polka dot or embroidered with a tiny pattern. For early fall wear it is predicted that plumes will be extensively worn, colors black, white, beige, cream, coral, pearl gray, and blue.

For millinery use the large rose has been relegated to the background. For this season, at least, and the small, flat rose, made of velvet or velvet and silk, is the leader.

All tones of violet from deep pansy to the palest amethyst are among the season's favorites. They are used alone or combined with tea rose pink, water green or delicate shades of blue. Petticoats of tulle, in delicate tints, are preferred by many women to tulle, with its rustle and swish. These tulle skirts are very full around the bottom and elaborately flounced.

The Hastings Bible Dictionary, under the word "Flood," that article shows, among other things, that the discrepancies in the narrative, on the points of the number of animals taken into the ark, the duration of the flood, had their origin in a mixture of the matter which the writer of Genesis gleaned from sources composed earlier than the date of his work.

OTHER FLOOD STORIES. The traditions of most peoples have a story of a flood. This is not saying, however, that all such stories are necessarily accounts of a universal deluge. Perhaps the Babylonian epic comes the nearest to that of any of these numerous stories. The story is said by experts to be at least 3000 years old. It may or it may not have been the original source of the story in the Bible. There are striking resemblances between the two stories.

The story of the world on this subject have some elements in common with the Bible story, but they agree among themselves in the same points not to be found in the Bible story, or even, which contradict the Bible story. Henry Floods have wrought much damage at so many different times in the history of the world that it is scarcely safe to presume that all traditions on the subject point to one great calamity. Yet this is not equal to a denial of the fact that there was a very remote time a deluge which covered the inhabited world.

The important consideration at the present time is to note the motive which seems to have caused the writer to put in this story into his book. The other flood stories seem to lack any important motive other than that of merely telling a story. But this one has a motive that is distinctly moral and religious. It tells of the strict demand that a righteous God makes upon the conduct of his creatures whom he has endowed with moral capacities, and has given to the world a moral law. In some of the flood stories the reasons for the sending of the flood are exceedingly trivial. There is no moral law in righteousness, and this reason grows out of a high and ethical demand on the part of God. The flood is a punishment for the failure of the race to live in righteousness, and this reason grows out of a high and ethical demand on the part of God.

God remembered Noah" is one of the most beautiful touches about the narrative. The story is, for the most part, fraught with gloomy and gruesome imaginations, but this expression recalls one's mind at once to the thought that God, by his grace, saved a remnant of people out of the prevailing sinfulness unto his own service. This is the heart of the story, and it is the heart later heard in the Bible, that the remnant constitutes the agent of God in accomplishing his purposes in the moral world.

SERVANTS FAITHFUL AND FALSE. Noah was faithful in doing the work God laid upon him. God cared for him. He was not left to float anywhere on a wide waste of waters, but God caused the waters to cease falling from above and rising from beneath. He caused a wide waste of waters, but God caused the waters to cease falling from above and rising from beneath. He caused a wide waste of waters, but God caused the waters to cease falling from above and rising from beneath.

After the waters had been assuaging for some time, Noah sent forth a raven to see if it would bring back any tokens of dry land. It did not return. Perhaps it alighted upon some piece of floating carrion and fed there in grim satisfaction that it was released from the ark of its salvation. Ofttimes men, whom God bids go on an errand for the kingdom, forget their mission in the satisfaction they find in some enticing bit of moral corruption, on which they float while the day of their mission fades away.

LESSON  
SAVED

Mothers first act after coming out of the ark was to make offerings to the Lord. He was upon a new earth, and his family was about to make a new start in life. He was right in bringing offerings of consecration unto God. God was pleased with the offering. Noah in making such an offering, for He at once gave promises to him for his future and that of the race. And God faithful in the performance of all things he promises. The psalmist rightly said, "Thou delightest not in sacrifice, else would I give it; thou hast no pleasure in burnt offering. The sacrifices of God are a broken spirit: a broken and a contrite heart, O God, thou wilt not despise." Noah brought an humble heart to God. God promised him, the new father of the race, that there would not be another flood; that all living things would not again be smitten as they had been in the flood.

The important consideration at the present time is to note the motive which seems to have caused the writer to put in this story into his book. The other flood stories seem to lack any important motive other than that of merely telling a story. But this one has a motive that is distinctly moral and religious. It tells of the strict demand that a righteous God makes upon the conduct of his creatures whom he has endowed with moral capacities, and has given to the world a moral law. In some of the flood stories the reasons for the sending of the flood are exceedingly trivial. There is no moral law in righteousness, and this reason grows out of a high and ethical demand on the part of God. The flood is a punishment for the failure of the race to live in righteousness, and this reason grows out of a high and ethical demand on the part of God.

Man's chief need is not an artificial ark or a renovated earth, but a new heart that loves to do right. He needs a clear vision of the right, and the conviction of Frederick W. Robertson that it must be right to do right. Beyond these two things he needs to have the grace of God that is offered to sinful man in Jesus Christ. That grace offers him forgiveness for his sins that are past, and the vital principle for the reconstruction of his character in conformity with God's will. How God hates sin is never realized as it is when one contemplates the question with knowledge that God has so constituted man that he cannot sin without suffering the direct consequences, and, further, that, in a sense that is very real and yet hard for us to understand, God himself suffers on account of our sins. His suffering is not in vain, for it takes the form of effort to redeem man from sin. He would not suffer for our sins so much if he did not love us so much, and this love prompts him to seek and to save us even at the great cost of the offering of his son to be our Savior.

We may be content to go on in our selfish ways of life, careless of the gospel, but if we are, at some time, we know not just when, the judgment of God will fall upon us even as it did upon the wicked world of Noah's day. It is the part of wisdom for each one to prepare against that day. Let our preparation be not merely the "putting away of the flesh of the flesh, but the inward regeneration of a good conscience toward God, through the resurrection of Jesus Christ."

## AT WEST DULUTH

Patrick Faughnan died at an early hour this morning at the home of his son on Fifty-ninth avenue west, between Cody and Wadena streets. The death summons came suddenly for he was in the best of health last evening and visited with his friends and neighbors about West Duluth. He arose about 5 o'clock this morning and was dressing when he was taken ill. He died at about 10 o'clock. He was 56 years of age and had been employed at one of the sawmills as a watchman. Last winter he spent in Canada. He was quite well known about this part of the city and many friends who are shocked to learn of the sudden summons. The funeral arrangements will be announced later.

**LOOKING FOR GHOSTS.**  
There are several young men in West Duluth who are debating the question as to whether or not the Mitchell & McClellan mill has a ghost. It seems that a few of the men employed at the mill have been spreading a story that a blood-curdling ghost story and as a result there was a good sized delegation of young men and boys down to the mill last night to see the ghost walk, but it did not walk up to midnight and the assembly adjourned. This morning the mill men told the boys that they should have staid longer last night, that the ghost really did walk, but it was not the boys who are not inclined to make a second visit, however.

**SEVERAL ACCIDENTS.**  
There were quite a number of accidents among the mill men at West Duluth yesterday. Frank Smith, a foreman at the Mitchell & McClellan mill, was injured by a log that rolled on top of him. John A. Bodell, who is employed at the same company, fell on a sharp piece of timber and sustained a bad injury. The men of the Lester company had a large splinter in their hand while Nelson, of the Merrill & King mill, had one hand severely cut by the knot saw.

**WEST DULUTH BRIEFS.**  
Mrs. J. E. Gault, who underwent an operation at the West Duluth hospital yesterday, is resting quite comfortably. Excursion to Fond du Lac Saturday evening on the Duluth & Iron Range. Sixty-first avenue dock at 8:30. Round trip 25 cents. Return by 11:30 o'clock. Several second-hand bicycles, first-class, at low prices. Wieland & Wade. A daughter was born last night to Mr. and Mrs. Edward Shanks, of Fifty-eighth avenue west. The degree of Honor of West Duluth is

became suddenly and violently insane last year while in New York and is now in a private hospital in Connecticut. Although still in somewhat impaired health, Col. Newport has tried to straighten out the business, which has become considerably tangled, and has taken his present action in order to clear up matters more quickly. The Newport's have been for years leaders in St. Paul society and are well known all over the country.

## Refrigerators and Summer Things

You'll find them at this store. Refrigerators, ice chests—and hundreds of other things this warm weather makes necessary. Everything from a common icebox to the largest family refrigerator. We mention some of the articles, but we cannot begin to describe them all. Enough to say that you'll find everything here to keep things cool about the house.

**Ice Cream Freezers.**  
Guaranteed to make thoroughly hard and delicious ice cream in ten minutes.

**Water Coolers.** Blue mottled stoneware with nickel-plated faucet—will keep water sweet and cool.

**Lawn Mowers, Gasoline Stoves, Window Screens, Hammocks,**  
**Garden Hose, Blue Flame Oil Stoves, Ice Tools, Lawn Swings.**

**Kelley Hardware Co.**  
For real comfort get one of our Canopy Hammock Covers.

## ENORMOUS.

### Interesting Figures Concerning Ringling Bros.' Show.

Figures are usually odd things, but when applied to Ringling Brothers' great circus they become luminous. Perhaps nothing could give a better idea of the magnitude of this mammoth amusement institution than an enumeration of the following facts:

There are twenty big and little tents, and they cover a ground space of twelve acres. If the thousands of yards of canvas used in this city of tents were torn into strips a foot wide, they would reach 200 miles.

The main hippodrome pavilion is 250 feet wide and 400 feet in length, and can comfortably seat the population of a city containing 18,000 persons. After disposing of the audience, there is still enough room on the hippodrome track to maneuver an army of 5000 men.

The manager's pavilion is a fraction smaller than the hippodrome tent, but the poles and cordage used in its construction would make a rig an entire squadron of sailing vessels.

The tickets used for a single performance, when the main tent is filled to its capacity, if placed end to end, would extend a mile.

The show travels on its own special trains of cars. These cars cover a mile of track and travel 25,000 miles every season.

There are thirty elephants in the menagerie—more than half the elephants in the United States, and more than have ever before been seen in a single herd. Extended in single file, the elephants would make a line 350 feet in length.

The show owns 280 draught horses, 60 ring and thoroughbred racing horses, sixty track horses and sixty Shetland ponies—an aggregate of 500 costly equines. To house these horses "on the road" requires a greater ground space than is used by any other circus for its entire exhibition. The average daily food consumption of these horses is ten tons of hay, 200 bushels of oats, twenty-five bushels of corn and an immense amount of bran.

The circus comprises 300 high-salaried performers. Among them are fifty acrobats, sixty aerialists, thirty clowns, forty clowns and a great array of other artists. The business and executive departments of the show utilize the services of over 100 agents and sub-agents. The working people employ an army of 600 experienced and disciplined men.

The performance is given in three rings, on two stages, in mid-air and upon a huge quarter-mile hippodrome track, and is presented upon a scale of grandeur and magnificence such as the showman of twenty years ago never even dreamed of. The date of the show in Duluth is next Friday, July 26, and it will be the biggest amusement event of the year. This will probably be the last chance to see a living giraffe.

### J. ADAM BEDE'S LECTURE

At High School Next Thursday Evening.

Hon. J. Adam Bede will speak on the educational questions of the day in the High School Assembly hall, Thursday, July 25, at 8 p. m. Mr. Bede is sent out by the state department of public instruction to lecture at the different

Hundreds of remnants of every description priced at about half actual value.

Everything in the store that can be called a Remnant will bear blue price card. Sale will continue three days—Monday, Tuesday and Wednesday.

## WILL GO IN STYLE

Duluth-Superior Elks to Leave For Milwaukee Monday Morning.

One Hundred and Fifty Strong and Third Regiment Band.

J. B. Cotton Will Nominate J. C. Nethaway For Chief Officer.

Milwaukee is putting on her gala dress to receive the Elks' national convention which meets in that city next week, and the Duluth-Superior brethren of that order will be among those received. They will depart 150 strong Monday morning at 7 o'clock over the Eastern Minnesota road for St. Paul, where they will be joined by some more of the "best people" and will go down to the city that was made famous in some way or other, arriving at Milwaukee at 8:30 Tuesday morning.

The Duluth-Superior aggregation of the horned fraternity will be accompanied by the Third Regiment band, which will not only advertise Duluth, but will endeavor to take a prize in the band contest in which almost all of the best bands in the country will be entered. The Third Regiment band, it is hoped, will take first place, and as there are no others in this part of the country that can make the music that this band is able to, it will not be at all surprising to see it return victorious.

The uniform of the Elks from the head of the lakes will consist of a white felt hat with a purple band and a purple umbrella. It is intended to wear a dark coat, but it is very probable that there will be more shirt waists on.

J. C. Nethaway, of Stillwater, is a candidate for grand exalted ruler, and white streamers with "Nethaway" on them in purple letters will be worn on the umbrellas.

"The members of the Wisconsin grand lodge will come out almost to a man for Nethaway," said J. L. Fuller, "and we are sure to elect him to the highest office in our power. Hon. J. B. Cotton of this city, will make the nominating speech at the convention."

Dr. Gilbert, of Grand Rapids, and J. L. Fuller, of Duluth, will leave tonight, as they are on the Nethaway nominating committee and have to be in Milwaukee earlier than the rest of the fraternity.

### MOONLIGHT EXCURSION

Under the auspices of Duluth Lodge No. 110, D. of R. A. O. U. W. On the Steamer Bloomer Girl, Monday evening, July 22, 1901.

Leaves Lake Avenue dock at 8 o'clock. Fifth Avenue dock at 8:15. Tickets, 25c. Children 15c.

### THE DAKOTAS

Huron Minister Will Claim Damages From the Railroad.

NORTH DAKOTA. Jamestown—Rev. G. H. Toboath, of Huron, S. D., was severely injured by a train of the James River valley branch of the Northern Pacific, and claims that he is entitled to damages from the road.

He was stopped at the Jamestown depot platform for a few seconds, and just as he was leaving the steps, slipped, falling, and throwing his head so as to injure his hip. Judge Winchester held in the case of James Thompson vs. William Armstrong, that the fact of the plaintiff's falling for a horse or not kept up does not entitle the original owner to the animal. The suit being tried was over the possession of Prince Wilkes, for which Armstrong paid \$1000, and was down a balance of several hundred dollars at stated periods. Judge Winchester ordered a verdict for the defendant.

Langdon—At the opening of the Barry case Thursday morning the court room was packed with the people of the vicinity of Milton, the scene of the murder. Many people are anxious to see Barry receive the limit of punishment for the commission of the crime of which he was convicted. Scandinavians, who constitute a majority of the inhabitants of that part of the country, so high did this sentiment run at the time of the murder that had the word been given Barry undoubtedly would have been lynched.

Fargo—The youth of Bismarck seem a trifle particular over the case of a stranger who hurt with the local girls. A will poster was doing the town this evening, and is said to have captured a pair of maidens. Some of the Bismarck girls got even by decorating the lithograph sticker with a liberal coat of ancient eggs, and a theft for damages is reported to have been started. Efforts are being made to square matters.

Hugh Wells, the missing Lithfield editor, was found sick in Wisconsin. He is at Laketon, Ind., now.

SOUTH DAKOTA. Ipswich—One of the best artesian wells in this part of the state has been struck on the farm of August Mathews, ten miles southeast of Ipswich. It has a pressure of over 100 pounds to the square inch. The water is perfectly clear, soft and pleasing to the taste. It from the drilled well was struck at 100 feet. The drilling was done in less than twenty days. A large number of such wells will be drilled in Edmunds and adjoining counties this season. The cost per well for drilling and all material is \$300 to \$500.

Aberdeen—Fred Gherkin, a farm laborer, supposed to be from Wisconsin, was drowned while trying to swim the James river near Hecla.

Deadwood—A hobo, employed for some days on the new grade work of the Burlington company, in the Galates district east of this city, was killed by a train. The story that most of the other men had gone to placer mining, in that district, there are several creeks that are rich in placer gold. This sort of work is said to be more fascinating to the hobo than actual work on the road grade.

Port Meado—Owing to the scarcity of

horses in this part of the country. Clark Anderson and Harry Bunting, who were awarded a contract to furnish 425 head of horses, a few months ago, by the government, have been unable to fill the necessary number, lacking forty-four head. The government is buying in the open market, enough to make the contract complete. The contractors will lose some money.

Central City—The Register, a weekly paper in this city, has been sold by the publisher, Joe Todd, to Morris Hornbeck. Todd has gone to Omaha to take a position.

The Black Hills people have taken much interest in the little Jilbert girl, who was accidentally shot by her brother, in the forehead, with a rifle bullet. Two physicians in this city saved her life by removing the bullet, and the operation was considered a remarkable one. The little girl was in this city on her way to her home, she made for herself a swing. While playing, she fell out and sustained injuries from which she soon afterward died.

### NORTHERN PACIFIC LOSES.

Hitchcock's Decision In Regard to Indemnity Grant.

Washington, July 20.—Secretary of the Interior Hitchcock has decided against the appeal of the Northern Pacific Railway company, successor to the Northern Pacific Railway company, in the adjudication on its indemnity land grant.

On April 18 last Land Commissioner Hermann decided that certain lands formerly granted to the Northern Pacific in the Duluth land district belong to the company. The grant of July 2, 1864, could not be claimed by the railroad, for the reason that the lands were not at date of passage of the above act within ten miles of the route of the Lake Superior & Mississippi railway, which was afterwards absorbed by the Northern Pacific. The Lake Superior & Mississippi grant was made under an act of May 5, 1864, and the same land was embraced in a withdrawal of May 26, the same year. The grant was made to aid in construction of the Lake Superior route and the Northern Pacific always claimed indemnity for it. Secretary Hitchcock affirms the decision of the general land office, which settles the case unless it is taken to the courts.

Sunday, cool carnival concerts, Oatka.

**\$24.50 Pan-American, Buffalo**

Until further notice the Northern Pacific railway will sell tickets, all rail, via Chicago, to Buffalo and return, for \$24.50. Good returning ten days from date of sale. For full information call at city ticket office, 323 West Superior street, or Union depot.

### Want Good Fixtures?

When we say we are showing the finest stock of gas and electric fixtures that have ever been shown in this city, we say all that can be said. There is nothing left out that would mar the completeness and goodness.

Drop in and let us show you some of our special designs.

### ALMOST A MIRACLE

Incline Car Wrecked But No One Seriously Injured.

Dastardly Act of Villains Who Obstructed the Track.

Conductor's Signal Alone Prevented More Serious Result.

Sixteen passengers in a Bay View Heights incline car were given a bad shaking up last evening. A tie was placed across the track at Sixty-third avenue west, and, striking it, the car left the rails and rolled down a small embankment.

Mrs. Frank Burke, of Proctorknott, and Miss Lovelace, of West Duluth, were both cut by glass. Other passengers were bruised somewhat, but no person was seriously injured.

Had it not been for the presence of mind of Conductor Ed Robinson, who kept sending signals to the engineer as the car went off the track, the accident might have resulted more seriously.

The engine at the top of the hill had been kept running a moment longer the car would certainly have turned up on end in the bottom of a small creek.

The accident is said to have been caused by some malicious person placing a tie across the rails. A similar effort was made to wreck the same car the night before and it is believed to have been the work of a gang of boys.

The car was not running at a very high rate of speed at the time of the accident. Conductor Robinson was on the platform and at the first bump he grabbed the signal cord and gave the engineer at the power house warning. The engine was stopped in a twinkling, but the car went off and down the bank almost before the frightened passengers knew what was taking place.

As the car went over its side a fence post was jammed through it, damaging the car a little, but not hurting any of the passengers. Those inside were so badly tangled up that it was some minutes before they could disentangle and crawl out.

Immediately after the accident the car was righted and today is being raised up over the embankment. It is expected that the road will be running again tonight.

Every effort is being made to apprehend the person or persons responsible for the wreck. It is likely to go pretty hard with any person that can be connected with the wrecking.

### Certificates Issued.

The following is a list of the students of the rural and semi-graded schools of St. Louis county to whom state high school certificates have been issued:

Proctorknott—Alfred G. Mix, Georgia Ellis, Lillian Ellis, Lydia Hanson, Canasta—William Hanson, Anna J. Daniels. Sparta—Alexander Downey,

The marriage of Miss Ada Alice Harkey and David Wilkins Stocking will take place next Wednesday evening at the home of Mr. and Mrs. Townsend Walter Hoopes, at Glenara, Glen Avon. The ceremony will take place at 8 o'clock and will be performed by Rev. C. H. Townsend, Ohio, father of the groom and former pastor of the First Methodist church of this city. The maid of honor will be Miss Maud Sherwin, cousin of the bride, and Miss Lucas, of Minneapolis. Miss Beatty, of Mankato, and Miss Morris, of Duluth, will be maids. The best man will be Dr. Leland C. Lamm, of St. Louis, brother of the groom, William L. McCannan, Herbert Spencer and John H. Upham, Jr. will be the ushers. Following the wedding there will be a reception.

On the evening train, Mrs. Barker will be at home Wednesday in August at 216 East Fourth street.

An informal dancing party was given at the home of Mrs. J. H. Townsend last evening by the younger members of society. Among those present were:

Misses—	Mr. and Mesdames
